

DALLAS SCHOOL ROOMS FILLED; STUDENTS GAIN

Dallas—Enrollment in the Dallas high school numbers 230 pupils this week, the second of this school term. This number is an increase of 36 per cent over the number a year ago.

In the grades the enrollment is 662 pupils, an increase of 17 per cent over the number taken at the same time last year.

All departments in both high school and grades have been filled to capacity. No addition to the teaching staff has been found necessary so far, although more equipment had to be supplied.

If the heavy increase continues another year another wing will have to be built at the high school building which was so designed when constructed that enlargement is easily made.

Election of class officers will occur next week, according to Superintendent R. R. Turner.

The boys' glee club and the girls' glee club have been organized by Mrs. David Wright, the music teacher, and a good response obtained from both organizations.

It is also announced that the high school cafeteria began serving last Monday with Mrs. Doughton in charge.

Here, too, as in all the other departments, an increase has been noted, the cafeteria serving about 50 patrons daily at the present time.

Rev. E. V. Silvers of Eugene, working under the pension fund for the Christian churches in the west, described the properties of the fund to members of the board. The pastor pays 2 1/2 per cent of his salary and the church pays 8 per cent into the fund, until the pastor is disabled or reaches the age of 65.

There are 2,700 Christian pastors already signed up for this insurance which is open to foreign missionaries college teachers and preachers of the Christian church, all over the world.

The plan is similar to that operated by the U. S. government for their postal employees; and resembles the pension offered by Episcopal and Presbyterian churches.
