

# HEALTH IS STRESSED AT RURAL CLUB MEETING

## OAK GROVE HAS NEW PRESIDENT COUNTY GROUP

Brush College—Election of officers, a health talk by Dr. Estelita Ford Warner, director of the Marion county health demonstration of Salem, a dinner and a musical program offered made the gathering of women who attended the federal meeting of Polk county rural women's clubs at Oak Point a day to be remembered by those present.

In the morning while the delegates assembled a conference of club presidents was held in an adjoining room, this group acting as a nominating committee for the new officers to be elected in the afternoon. Presidents and representatives of eleven clubs were in this group, the following clubs being represented: Rickreall Ladies Aid, Oak Point community service club, Oak Grove Ladies Aid, Sweet Briar club, Orchard Heights club, Valley View, Brush College Helping Society, Spring Valley missionary society, Book and Thimble club, Buena Vista club and Elkins woman's club.

Mrs. Corydon Blodgett of Brush College, president of the federation, presided at this conference of presidents, and each leader present pledged herself to arrange for some sort of health program to be held in her club and community during the year.

Then followed the dinner hour when approximately 75 persons were seated at the long table which reached from end to end of the room. Chrysanthemums in baskets were placed at intervals along the table.

Instrumental music opened the afternoon's program with Hilda Crawford of Zena playing the banjo, her brother, Frank, playing the steel guitar, and Mrs. A. E. Utley of Brush College accompanying at the piano. Following an encore to the first number, two little girls of Brush College, in costume, Maxine Olson and Antonio Krall, gave a rag doll dance. Then came a reading and encore by Corydon Blodgett, and another musical number in which Corydon Blodgett whistled, Billie Utley sang, and Frank, Hilda, and Mrs. Utley played their instruments.

Dr. Warner gave an interesting health talk which included statistics proving the value of a county health bureau and listing the duties of a county health nurse, a project which the federation is studying now. She stressed the point that the important thing in living is to be well and strong and described the methods used in approaching the question of health education among the residents of a county, and said that the county health nurse is the interpreter of health in a community. Prevention and immunization against communicable disease saves not only illness and doctor bills but also time and money in school and work and the ability of a nurse to detect epidemics in the beginning saves the county many dollars during the course of a year, she pointed out. In response to a request from the audience, Dr. Warner told how to secure clinic service and approximate costs which she said were very small.

An unanimous vote was cast for the candidates placed in nomination for the office of president and vice president by the conference of club presidents held in the forenoon, and the result is that Mrs. Frank Fawc of Oak Grove was elected president and Mrs. L. W. Plummer of a rural route near Dallas, vice president for the coming year. The president will select her own secretary.

In response to an invitation from the Buena Vista club the next meeting of the federation in February will be held there with the Valley View club joint hostesses at that time.

## Watch Tongue For Signs of Illness

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90 per cent of all sicknesses start with stomach and bowel trouble.

A white or yellowish coating on your tongue is a danger signal of those digestive disorders. It tells you why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

And it's a sign you need Tanlac. This good old reliable medicine has helped thousands who were physical wrecks. See how the first bottle helps you.

Tanlac contains no mineral drugs; it is made of barks, herbs and roots—nature's own medicines for the sick. Get a bottle from your druggist today. Your money back if it doesn't help you.
