

### CERTIFICATES OF MORTGAGE NOT BANK ASSETS

Attorney General Van Winkle has written an opinion for A. A. Schramm, state superintendent of banks, holding that a mortgage trust certificate such as is issued by the Security Savings & Trust company of Portland, is not held by an Oregon state bank, it is eligible as an asset in the savings department of legal for the investment of savings fund.

The opinion says the question to be decided is whether the certificate can be classified properly as either a note or a bond. The opinion says it cannot be classified as either. It is stated that "the statute contemplates that in order for certificates or notes to be eligible as a mortgage bank investment they shall be secured by a mortgage or deed of trust upon unencumbered real estate, the actual cash market value of which real estate shall be at least twice the amount loaned thereon. In other words, the notes must be secured directly by real estate mortgages executed by the makers of said notes and not by collateral notes and mortgages executed by third parties."

"It should be understood, however," the opinion concludes, "that nothing contained in this opinion is intended in any manner to cast any reflection upon the securities of the Security Savings & Trust company or to depreciate their value as an investment."

The opinion was asked by Schramm at the request of the Security Savings and Trust company.

is to be judged on flavor you wouldn't make gallons at a time

You can "season to taste" a pint of gravy much more accurately. For a similar reason Hills Bros. roast only a few pounds of coffee at a time, instead of in bulk, by their patented, continuous process—Controlled Roasting. The flavor is actually controlled always. No other coffee can taste like Hills Bros. Coffee because none is roasted the same way.

While the weekly reports of S. Phillips, manager of the U. S. employment bureau generally show more people seeking work than calls for help, the report for the week ending Saturday has fewer occupations listed than at any time during the last few months.

There were only 90 men and 23 women registered, calls for 37 men and five women placed. Nearly one-third of those seeking work were common laborers, there being 27 calls for the 29 applicants with all those referred reporting placed.

Only two of the 14 farm hands were placed with calls for three. Five of the 30 woods laborers were in demand with only three placed. One of the six carpenters found work as did the one casual worker. There were no calls for the six watchmen. Two of the seven housekeepers were placed with calls for four. The one common laborer found work. There were no calls for the five chambermaids, four nurses, four hotel workers, two cooks or two waitresses.
