

CAR FLOAT RAMS OCEAN LINER

FIVE HURT IN ACCIDENT ON DALLAS ROAD

Skidding Car Smashes Into Light Truck on Slick Pavement

Monmouth Woman May Have Both Legs Broken; Others Bruised

A light roadster carried off a small roadster type delivery truck and nosedived from the highway into a little creek 25 feet below with injuries to several persons about 10:30 o'clock Thursday morning. The accident occurred near the H. W. Hoge property three miles west of Salem on the Dallas highway.

Mrs. A. J. Shipley of Monmouth, was brought to Salem by ambulance and is being X-rayed to determine whether or not both her legs are broken. She received bruises as did Miss Nettie Griffiths, of Ballston. The machine in which they were riding was driven by Jim Du For, of Ballston, who is working for Shipley. Wayne Sirkun, one of the three occupants of the other machine, is in a Salem hospital. He and his two companions were badly cut by glass and the extent of their injuries has not yet been determined.

According to Du For, he was coming towards Salem with the two women.

Good Evening!

Sips for Supper

By DON UPJOHN

Your Best Friends—
Will tell you of your faults.
That is why Jack Hughes and Lou Olsen waited on us personally last night and told us a big block of readers are up in arms because we failed to include the forest fire fighters in our list to vote on. We're sorry boys but we knew of the wide interest in the fire fighters and figured they didn't need any votes.

While we have received some criticisms, we are getting many bouquets, so don't forget your preferences. When bigger and better Sips are made our readers will make them.

EVERYBODY BE THANKFUL

There's no reason why everyone shouldn't pause and be thankful on this Thanksgiving day. The rich because they have all they need and the poor because they don't need to worry about taking care of their money; the lender because he doesn't need to puzzle his head about how to pay back what he has borrowed, and the borrower because he needn't puzzle about when he will get paid back; the well fed need have no worry about the next meal and the hungry no worry about diet or reducing; the judge may be thankful he has to prepare no legal arguments and the lawyer that he doesn't have to listen to them; the ugly may be thankful that there are cosmetics to make them beautiful and the beautiful that they need no cosmetics; our readers may be thankful they don't have to produce this column every day, and we doubly thankful that we don't have to read it.

Yes, boys and girls, it's a great old world. Let's all be happy.

Yet, at the same time, we wonder what Dick O'Leary has to be thankful for?

Our managing editor says we can be thankful for "The Gold Diggers of Broadway," and we are—that of them hasn't got us in her clutches.

HIGHWAY NOTES

The telephone company and the gas company are tearing up the Salem streets. And we are advised that a man down by Chemawa was tearing up the county road yesterday—a bull was after him.

And, do we believe in necking? Well you should see us after it at dinner this p. m.

Yes, folks, we were advised just before leaving today that from appearances the neck would be fatter and cooked more tender than for many years.

Which goes to show we are loved at home, as well as by our countless readers.

LAUNDRY FIRE CAUSES SCARE

San Francisco (AP)—Fire starting with a boiler explosion in the Sims Lee laundry at Webster and McCall streets, early Thursday spread rapidly to other buildings, sent several scores of people rushing to the streets in their night clothing and for a time threatened the entire district.

Among the buildings in the path of the fire were the Temple Kenneth Israel, where 15 worshippers were forced to flee, a four story apartment house and a three story flat.

The synagogue was badly damaged. Stained glass windows buckled from the heat and the floor of the temple was water.

BODIES ELUDE LONG SEARCH

Klamath Falls, Ore. (AP)—Hope of finding the bodies of 150 Klamath Falls men, Ed Syfert and S. E. Burr, has nearly been abandoned by the party that for the past two days has been dragging through the deep mud of upper Klamath lake at the point where the men are believed to have drowned while hunting ducks last Sunday.

The searchers said they were able to push 20 feet down into the slime mud deposit of the lake bed at the point where the men are believed to have left their boat when its sides were caved in by ice.

It is certain the hunters never gained shore because of the quicksand action of the mud.

The search was to continue Thursday.

GIRL STOWAWAYS ARE SET ASHORE

San Francisco (AP)—Three pretty girls stowed away on a steamer, Honolulu-bound. Three pretty girls found themselves back in San Francisco three hours later when they were discovered and the unsympathetic captain of the Matson liner Manoa put back and set them ashore. June Ware, 18, New York; Helen Reid, 20, Vallejo, and Jeanne Saul, 19, Denver, are the three misses disappointed by the failure of their escapade.

NATION GIVES THANKS OVER RICH TABLES

Plentiful Supply Puts Turkeys for Feast in Reach of All

President Hoover And Family Observe Day Quietly at Home

JAIL POPULAR WITH TURKEY FEED ON BILL

Portland, (AP)—City jail attendance swelled noticeably during the night.

The reason: It was announced Wednesday that the Thanksgiving menu would consist of roast pork and dressing, gravy, mashed potatoes, celery, mince pie, apple dumplings and coffee.

The usual menu is roast pork or beef and coffee.

By United Press

Thanksgiving cheer spread over the nation Wednesday with turkey feasts on hand for rich and poor alike.

A plentiful supply of turkeys had brought a reduction of from 10 to 12 cents per pound and in cases where even then the price was probably charitable organizations, churches and civic societies were (Continued on page 10, column 1)

ZITO'S GUN IS SUDDEN DEATH FOR CRIMINAL

Chicago (AP)—An ex-convict was dead Thursday, and police were searching for another man who was believed to have been wounded by Samuel S. Zito, 33, after the two bandits and a companion had robbed Zito's wife of three rings valued at \$6,000.

Zito told police he knew George Stober, whom he killed and Jimmy Raymond, whom he believed he had wounded. Stober served a five-year prison sentence after robbing a bank in 1917.

Stober and his two companions were fleeing to a waiting automobile when Zito opened fire.

Chicago (AP)—Work of an early morning shift turning out pumpkin and mince pies for Thanksgiving at the Case and Martin Pie company was interrupted for three hours Thursday while six bandits blew the safe and escaped with more than \$13,000.

The bandits herded the bakers and other employees to the basement, bound and gagged them and then worked away in peace.

STEAMER SINKS AT PENSACOLA WHARF

Pensacola, Fla. (AP)—The Italian steamer Escambia sank at the wharf side here at 8:25 p. m. Wednesday. No casualties reported.

While lumber was being loaded on the ship, it listed first to starboard and then to port, sinking in 32 feet of water.

High School Tuition Cost Held Mandatory; Cripples Other Funds

It was indicated Wednesday by members of the Marion county court that they will adhere to the opinion of the attorney general given to the Douglas county court holding that the payment of high school tuition is mandatory and comes under the 6 per cent constitutional limitation. While in Douglas county it was stated the opinion slipped the Douglas county court so hard that it is apt to make them forfeit their road fund to meet school obligations, no such condition will exist here although unquestionably it will make the court in Marion county very close to the wind to keep inside the constitutional limitation.

Around \$21,200 is estimated as the expense for the high school tuition fund while around \$32,000 will be charged to transportation costs. The high school tuition fund will be an increase of nearly \$9000 over last year and the \$32,000 entirely new money to be raised, or in the neighborhood of \$40,000 to draw upon.

The court had some leeway under the 6 per cent limit last year. It always has succeeded in handling the funds to keep well under the limit and there is not much doubt expressed but what they can keep within the limit this year.

The question is of added interest here as there had been a doubt as to whether the high school tuition fund, being not assessed directly against the county, but just against (Continued on page 10, column 1)

END HEARING ON PROPOSAL TO LINK LINES

Great Northern Plan to Invade California Up To Commission

Decision on Extension Opposed by Espee Not Expected for Year

San Francisco (AP)—The cautious process of the interstate commerce commission in determining the merits of an application by the Great Northern to enter California over Western Pacific lines was started Thursday.

While Charles D. Mahaffie, examiner of the commission, traveled eastward, he began to ponder over the report he must prepare on issues advanced by the applicants to construct a 200 mile connection of their lines from Klamath Falls, Ore. to Redding, Calif. Included in that report will be points raised by the Southern Pacific in opposition to the application.

Mahaffie adjourned the hearing here Wednesday night.

When the last legal shot had been fired by the Southern Pacific in its bitter fight to prevent construction of the 200 miles of new track, nearly 200 exhibits lay on the commissioner's desk, and a record containing 750,000 words had accumulated. Both exhibits and record will accompany Mahaffie back to Washington for guidance to the commission in arriving at a decision.

After opponents of the proposed \$13,000,000 connection rested their case at noon, the Great Northern and Western Pacific consumed the final five hours in presenting a stream of witnesses to rebut testimony advanced by the Southern Pacific.

Chief among these witnesses was H. M. Adams, president of the Western Pacific, who broadened the scope of his previous testimony (Continued on page 10, column 7)

CRUEL DEATH IS METED OUT TO GIANT WOLF

Toronto, Ont. (AP)—A large grey wolf, which for months has terrorized the large herds of deer which roam through Algonquin park, is dead.

The manner in which he died was the government foresters at the park who were formerly his bitterest enemies.

Jim Shields, city park ranger, finally outwitted the wolf by placing a cunningly laid trap fastened to a four-inch pole. Waiting this snare one day, Shields found the trap gone and evidence of a mighty struggle. The wolf had gnawed through the thick pole and taken the trap with him. Shields and assistants then followed the trail and after 27 miles of tramping came upon the body of the wolf with the trap still clinging to his forelegs.

John Miller, superintendent of the park, visiting William Fullerton, Ontario minister of lands and forests, told the story of the wolf's valiant struggle for liberty.

MAUDE M'BRIDE IS ACQUITTED

Dublin, Ireland (AP)—Mrs. Maude Gonne MacBride, noted Irish republican leader, was acquitted Thursday on a charge of sedition growing out of a speech which she made recently regarding the government's justice protection bill.

Mrs. MacBride has long played a prominent part in the Irish republican movement and for many years has been known as the "Irish Joan of Arc."

Mrs. S. Skeppington, another leader in the movement who appeared in court representing a republican newspaper, was among those excluded from the courtroom which was cleared for the trial. As she left she exclaimed to Justice Hanna: "This is freedom of the press."

CATTLE STOLEN

St. Joseph, Mo. (AP)—Cattle rustlers Thursday stole 16 head of cattle from the Plattsburg, Mo., stockyards, and after a gun fight with officers escaped but abandoned the stock south of town.

Crash On Highway Wrecks Two Cars

In a collision on the Pacific highway two miles north of Jefferson Wednesday the car driven by Vern Bolin of Okanogan, Wash. (left) was forced into the ditch and badly damaged, and that driven by G. W. Laflar, Salem, (right) was nearly demolished when it turned over in the road. Eight people suffered injuries ranging from fractured bones and dislocations to severe cuts and bruises. Two others escaped with a shaking up.

SPECTRE OF WANT MARS DAY FOOD AND CLOTHES NEEDED

Thanksgiving was a meager and almost barren thing Thursday in a score or more of homes in the Salem community. Out of the dwindling treasury of Associated Charities most of them had been provided with enough to be thankful for, but hovering over the tables about which they gathered was the ever-menacing spectre of unemployment, sickness, hunger and bodily suffering to be endured as winter closes down upon their makeshift, inadequately heated homes and their scantily clad bodies.

They were the unfortunates, victims of one adverse circumstance or another for the care of whom the Associated Charities is asking \$3000 as its annual budget.

The \$3000 would be ample to meet the demands of a serious situation of poverty and want, says Mrs. Mae Young, who has managed the relief work of the charities through many a winter, when it is available.

But what of the hungry, the sick and the cold while that \$3000 is being raised? What of the relief attached to the present plan of consolidating the drive into a community chest campaign?

What of the widow and five children under Mrs. Young's care who are living on \$25 a month and the clothes and charities are able to supply?

What of the two old men, both well past 65, who seek day after day for odd jobs about Salem homes that they may pay for the bread and soup upon which the subsist?

What of another family, a father who is sick, a mother who is preparing for the arrival soon of another baby and six children (Continued on page 11, column 7)

TEACHER SLAYS LIGHTFOOT IN SCHOOL FIGHT

Cartier Mills, Ill. (AP)—Grief and unhappiness supplanted the spirit of the holiday in two Cartier Mills homes Thursday—the aftermath of an argument over when to hold a school Thanksgiving program.

Leslie Lightfoot, 39, school district director and teacher, was dead and Dwight Organ, 26, teacher, was held in the Saline county jail at Harrisburg, charged with slaying Lightfoot.

Lightfoot and two other directors of the school district decided the Thanksgiving program should be given Friday evening. Mrs. Lightfoot was asked to convey this decision to Organ.

Organ discredited the message from Lightfoot and called a meeting of the school district directors in a cafe Tuesday night. At the meeting, Lightfoot is said to have asked Organ why he questioned the message; an argument followed, in which Lightfoot, witnesses said, struck Organ who in turn drew a revolver and fired twice into Lightfoot's body.

DIVORCEE HELD FOR EXTORTION

San Francisco (AP)—Mrs. Anne Denning, divorcee from Los Angeles, was arrested here on charges of extortion as a result of attempts she is alleged to have made to obtain \$50,000 from Dr. Frederick H. Hadley, prominent San Francisco physician, on a threat to file charges against him before the state board of medical examiners.

Detectives who had waited for an hour with the aid of a listening device in an ante-room, arrested Mrs. Denning as she emerged from the physician's office. She was alleged to have had in her possession a check written by Dr. Hadley for \$1,000. Police said the trap had been laid following a complaint received from Dr. Hadley that attempts were being made to "shake him down."

A mysterious "Mrs. Rosenthal" was being sought as the alleged accomplice of Mrs. Denning in what police described as an organized extortion campaign against prominent San Franciscans.

COLLEGE GIRL DEAD IN TRAFFIC CRASH

Baton Rouge, La. (AP)—A freshman co-ed at Louisiana State university was dead and two other persons were seriously injured Thursday as a result of six traffic accidents which occurred as thousands pushed into the city for the L. S. U.-Tulane Thanksgiving day football game.

Runele Denham, 18, of Baton Rouge, first year student at the university, died from injuries suffered in an automobile collision.

MAURETANIA BACK AT DOCK AFTER CRASH

Failure of Captain of Float To Heed Signal Causes Collision

870 Passengers on Big Cunarder at Time of Night Crash

New York (AP)—Because of a collision with a car float which made a hole in her bow the trans-Atlantic voyage of the giant Cunard steamship Mauretania was interrupted Thursday. From the quarantine station at the entrance, she put back for her pier 10 miles away. Representatives of the line expressed hope that repairs could be made quickly.

Captain G. McNeil of the Mauretania in a report to the marine police said the float struck the liner on the port side making a hole four feet wide and ten feet long 36 feet above the water line. He blamed the collision on the float which he said failed to give him the right of way. One blast indicates a desire of a ship to pass to port; two to starboard.

The collision occurred off Robb's Reef, shortly after the liner (Continued on page 11, column 7)

ARTIST BANDIT SUSPECT HOLDS FIRM IN DENIAL

Cheyenne, Wyo. (AP)—With Cheyenne's artist bandit suspect holding firm in his denial of any connection with the Union Pacific train robbery near here Monday night, police Thursday rechecked the evidence they had uncovered to link him with the crime.

When officers raided the man's home, they found his own penciled sketch of himself in the role of an artist bandit with the words, "Stick 'em up" written underneath.

They also found a blue sweater, gray cap, and a workman's overall articles of clothing similar to those worn by the bandit who robbed passengers on the Union Pacific railroad after detouring it.

Officers said the suspect answered closely in height, build and the usual deepness and gruffness of voice to description of the bandit given by passengers.

HONEST HOBO YIELDS MONEY TO ROBBERS

Alameda, Calif. (AP)—Even an honest hobo isn't safe from crooks these days. Several of the "gentlemen of the road," reported to Sheriff Becker that road agents entered their "side door Pullman" on a freight train near here and robbed all hands at pistol-point. The amount of the haul was not stated.

Wards Of State Feast On Chicken, Turkey And Are Entertained

The largest population in the history of the Oregon state penitentiary was inside the prison walls to partake of an elaborate Thanksgiving dinner and special motion picture entertainment provided by Frank Bligh of the Capitol theater, in the afternoon. The walls of the Oregon prison can no longer be referred to as grim and gray, for they are now painted a cheerful red, and on Thanksgiving holidays the convicts fare not nearly so badly as many folk on the outside who have no prospect whatever of going to jail. The prison population reached a record breaking high level Wednesday when the register showed 783 inmates.

When the commissary was asked what the prisoners were going to have for Thanksgiving dinner he said "Plenty," and named a few of

GIRL AVIATORS STILL SOARING

Metropolitan Airport, Los Angeles, Cal. (AP)—Surpassing their previous mark of 18 hours 26 minutes in the air, Bobbie Trout, Los Angeles, and Elinor Smith, New York, girl fliers, completed their 20th hour aloft at 5:40 a. m. Thursday in their second attempt to establish a new world record for refueling endurance airplane flight.

The 18 hour, 26 minute mark was set last Monday when the fliers were forced to land when their gasoline supply gave out and they were unable to refuel in the dark.

Marking the end of its first night in the air the endurance plane was contacted by the refueler, "Carrier Pigeon" at 6:30 a. m., at which time 100 gallons of gasoline and four gallons of oil were transferred.
