Backer Garden Club Speaker
One of the most interesting and best attended meetings to be held by the Salem Garden club so far in their 1929-1930 series was that given Monday night in the auditorium of the chamber of commerce, when J. G. Bacher of Portland was the speaker. The Portland man, who is connected with the Swiss Floral company, gave a comprehensive review of new perennials and rock plants, illustrating his talk with autochrome pictures.

The first part of the lecture was devoted to the new perennials, a number of the new hybrids being shown on the screen. Rare rockery plants, including those native to the Pacific northwest, and others native to New Zealand, Africa, China, Korea and Japan and the South Sea Islands were shown growing successfully in Oregon gardens. The new book which Bacher has written.

Stubborn Coughs Ended by Recipe, Mixed at Home
Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up a stubborn, lingering cough. It takes but a moment to prepare and costs little, but it gives real relief even for those dreaded coughs that follow severe cold epidemics.

From any drugstore, get 2 1/2 ounces of Pinex, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup or strained honey. Then you make a full pint of better remedy than you could buy ready-made for three times the cost. It never spoils and tastes so good that even children like it.

Not only does this simple mixture soothe and heal the inflamed throat membrane with surprising ease, but also it is absorbed into the blood, and acts directly upon the bronchial tubes, thus aiding the whole system in throwing off the cough. It loosens the germs in the phlegm and causes expectoration in a way that is really astonishing.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of distressing coughs, chest colds, and bronchial troubles.

It is not a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

Adults, Too, Prefer "No Dosing" For Colds

Millions Adopt External Remedy Made Famous as Treatment for Children's Colds

A general opinion, when Vicks VapoRub was originated, was that the idea of treating colds without "dosing" was almost unheard of. It was the custom then to give large doses of internal medicine for colds and almost every human ailment. Today, the whole trend of medical practice is away from needless "dosing."

Equally Good for Adults

Mothers of young children especially have been quick to appreciate this modern external way of treating colds, because there's nothing to swallow and, of course, nothing to upset the little one's stomachs. Year after year more and more adults, too, have found Vicks equal good for their own colds.
