

BAY STATE MAN IS CALLED HERE BY UNITARIANS

Rev. Fred Alban Weil has accepted a call to the Unitarian church here and will occupy the pulpit April 1. He is now pastor of the Quincy, Mass., First Parish church, known as "the church of the presidents." He succeeds Rev. Martin Ferrey, who resigned the first of the year to follow his law practice.

Rev. Weil proposed the organization of the National Unitarian Ministerial union, and served as its first president from 1921 to 1923. He is also past president of the Denver Philosophic society, a member of the American Unitarian association, and of the church board of the Woodward Institute for Girls at Quincy.

Before being ordained to the ministry, he was reporter and editor of a newspaper in Massachusetts, and from 1895 to 1900 was correspondent for the Associated Press. Rev. Weil will be 56 years old next May and was born in Andover, Mass. He was graduated from the Phillips Academy at Andover in 1892 and received his B. D. from the Meadville Theological school in 1904. He was married in 1904 to Ellen Smith, daughter of Rev. Thomas L. Elliot, D. D., of Portland, Oregon. There are two children, Thomas Elliot and Janet Hobart Weil.

Rev. Weil served in the Spanish-American war as orderly in the eighth regiment of the Massachusetts volunteer militia, and was regional field director of the United States Health service in charge of five southern states during the World War. He is a Mason, an Elk and for outdoor sport finds mountain climbing most enjoyable.

SEEK SENATE SEAT IN KANSAS

Senator Henry J. Allen of Kansas (left) will be opposed for the republican senatorial nomination in the August primary by Reg. W. H. Sprould (upper right) and Ralph Snyder, president of Kansas state farm bureau.

Beautiful hair! Modern hair dressers arrange the hair so beautifully that it's bound to attract attention. That's why it's so important to guard its color and lustre; keep it in perfect condition. There is no surer, simpler way to do this than with Danderine. Each time you use your brush, just moisten it with this delicately fragrant liquid. Then as you draw it through your hair, it removes the excess oil; brings out the natural color; makes the hair fairly sparkle with new life and lustre.

How much easier it is to arrange the hair afterwards. How it stays in place. And try "setting" the waves with Danderine. They stay in so much longer. Danderine quickly dissolves the crust of dandruff; puts the scalp in the pink of condition; helps the hair to grow long, silky and abundant!

HANGING FAILS TO HALT CRIME JURIST STATES

Los Angeles—William T. Aggeler holds that life-long imprisonment acts a greater check to crime than the death penalty.

The jurist, who has presided over local criminal courts for the past six months, has carried his belief into his decisions from the bench. Out of four times in which the decision between the death sentence and life imprisonment lay in his hands in only one did he exact capital punishment. Then it was in a case of law in which he was sitting on a retrial in such a position, Judge Aggeler declared, "I have no hesitation, as far as the law is concerned, in imposing the death penalty as a legal matter."

Judge Aggeler backed up his position by a comparison. "The death penalty is no longer a deterrent to crime. It has not decreased murders in those states in which it exists, nor has it increased in the states in which it has been abolished."

A TOWER OF STRENGTH

Table with financial data for 1929: New Assurances Paid for An Increase of \$213,207,000; Assurances in force, (net) \$2,401,237,000; Total Income (net) 172,857,000; Surplus earned during the Year 42,863,000; Payments to Policyholders and Beneficiaries 69,174,000; Surplus and Contingency Reserve 72,807,000; Total Liabilities (Including paid up Capital) 495,390,000; Assets, at December 31st, 1929 568,197,000; An Increase of \$79,239,000.

Rate of Interest earned on mean invested assets 7.02% The high rate of dividends allotted to participating policyholders is continued and the special dividend on maturing policies extended and increased.

EXTRACTS FROM DIRECTORS' REPORT

New policies paid for numbered 161,391 for a net amount of \$654,451,143.27, an advance of \$213,206,752.36, or more than forty-eight per cent., over the previous year. This marked increase and the fact that the average policy, for the first time, exceeded \$4,000, affords impressive evidence of the ever-growing popularity of the Company.

After deducting amounts reassured, the total assurances in force amount to \$2,401,237,036.94, an increase of \$504,321,102.37. This advance is notable not merely for its magnitude, but because when allowance is made for terminations by death and maturity, it represents a remarkably high rate of continuance and evidences great satisfaction on the part of our policyholders.

The amount paid to policyholders since organization, together with the amount at present held for their security or benefit, exceeds the total amount received from them in premiums by \$139,290,474.03.

The rate of interest earned on the mean invested assets has risen to 7.02 per cent. This figure includes a certain amount from bonuses and stock privileges accruing on many of the Company's holdings; but if these were entirely eliminated the rate would still be 6.60 per cent.
