ACIDS MAKE KIDNEYS HURT

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with acid indigestion, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good, soft water and get out your phosphate about four ounces of Jad Salts. Take tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acid in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. adv.

OPERATION SHOCK FATAL TO WOMAN

Dayton — Mrs. Jennie Savage Reichstein, 44, wife of William Reichstein, a resident of the Pleasantdale vicinity for 22 years, died at the McMinnville hospital Wednesday morning, following an appendicitis operation late Monday evening.

Mrs. Reichstein was born December 19, 1886, near McMinnville. She was married to William Reichstein May 4, 1907. She is survived by her widower and two sons, Lawrence, 21, and Wayne, 18, of Dayton; her mother, Mrs. George Savage, and one brother, Matt Savage, both of McMinnville; one sister, Mrs. Ernest Clark, Multnomah, Ore.

Any drugist can supply you with 2 1/2 ounces of Pinex. Pour this into a pint bottle, and fill up with plain granulated sugar syrup or strained honey. It's no trouble at all to mix, and when you once use it, you will never be without it. Keeps perfectly and tastes good—children really like it.

It is surprising how quickly this loosens the granulated callogen, and soothes and heals the inflamed membranes. At the same time, part of the medicine is absorbed into the blood, where it acts directly on the bronchial tubes, and helps the system throw off the whole trouble. Even those severe coughs which follow cold epidemics, are promptly cured.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.
