

BUTTER SUPPLY SHORTAGE FELT, PRICES STRONG

Portland (UP)—Strengthening of the position of the butter market at mid-west and eastern points at this time is more or less of seasonal character. Along the Pacific slope there is little material change in the price list or in conditions. Shortage of butter in the Portland territory continues unabated with a consequent strengthening of the price situation. No change, however, was made in quotations for the day.

Scramble for butterfat has become the greatest of the season to date. Sales of butter continue to fall faster than the increase in production, which now appears almost general along the coast. Continued steadiness of the egg market situation is reflected here in fact steadiness is indicated generally along the coast. Storage operations continue to gain heavily in all sections.

So scarce are live chickens at this time that some of the killers are offering up to 23 cents pound for both light and medium weight birds. Purchases of heavy stock are reported up to 25 cents pound. No improvement in the supply. Market for dressed turkeys indicates no change either in price or condition for the day. Hens are selling 28 cents pound generally for number 1, with tons at 30 cents pound. Receipts are of fair volume. Likewise, domestic turkeys are in good supply.

Active trading tone is continued in the market for country killed hogs. Lamb situation is just steady. Beef is in good call. Further advancing tendency is noted in the market for citrus fruits. The California exchange continues to stiffen the price of oranges. Reports indicate an early upward swing for lemons. Usually the marketing of lemons is greatest in March and April, says Harry Larsen of the West Coast Fruit company.

Owing to the fact that the price advanced to such a point that consumption was curtailed, an easier situation is reflected in the broccoli-cauliflower market here. Receipts are still curtailed from the Unqupa.

Mexican tomatoes are firm at full prices. Quality good. Choice hot house rhubarb is a trifle scarce. Others unchanged. Hothouse cucumbers in larger supply and prices are easier. Imperial peas are firmly priced up to 19 cents pound.

Potatoes are firmly priced with an active local call. Walla Walla spinach is scarce and the price higher. Market is well supplied with ripe bananas. Price unchanged. Lettuce is showing firmer tone in the south.

HUSTON DENIES RUMORS OF QUITTING

(Continued from page 1) Huston's activities in connection with Muscle Shoals legislation, Huston, a former president of the organization, said that J. W. Worthington, executive chairman of the association was probably the only person who could give the committee the desired information. He promised, however, to attempt to obtain the records.

Chairman Caraway of the committee had previously charged that Worthington was "dodging" the committee. After Huston said the secretary was ill in Detroit hospital, Caraway remarked that he would remain "sick" until there was no danger that the committee would question him. Huston suggested that if the committee members did not believe Worthington was "really ill" they should make efforts to have him appear.

Huston said his former organization had collected between \$400,000 and \$500,000 since it was created several years ago. He said it had received as much as \$75,000 in a year and as little as \$20,000.
