*This*  
trend to **EIGHTS** is a trend to  
**HUDSON**

The wide, new interest in 8-cylinder cars is another tribute to Hudson leadership. For it sweeps aside the barrier of high premium on eight-cylinder quality. It establishes in this field a new scale of low ownership costs—in price, in operation and in maintenance. It is ruggedly built for long-lasting reliability.

Come see, and ride in the most modern and advanced of Eights. From whatever viewpoint you regard car ownership—whether rich appearance, distinguished performance or pride of possession—it questions the wisdom of ever paying more for any car.

**PRICES**

Standard Equipment Includes:

That is why you find thousands of former "Six" owners enjoying its distinction and brilliant performance with better economy than they ever knew. It is why long-time eight-cylinder buyers are turning in great number to the advantages of Hudson's exclusive new type.

It is why this trend, which you see, toward "Eight" is really the public acclaim of Hudson's Great-8.
