## Now you can protect her lovely hair!

Millions of men and women know how Danderine helps stop falling hair and dissolves the worst crust of dandruff; how easily it changes dull, lustreless, brittle hair into hair that is soft, sparkling, vigorous.

With Danderine it is so easy to "train" a child's hair; to keep it orderly, sparkling, clean. Danderine accentuates the natural curl of a child's hair. A girl's "waves" look more natural when "set" with it. And they stay in longer.

Use Danderine with children to overcome the evils of frequent washing. It puts back into hair and scalp the natural oils removed by soap and water.

Danderine isn't sticky or oily; doesn't show. It is no trouble to use. Just put a little on the brush each time the hair is arranged. That will keep the scalp healthy and encourage the growth of long, silky and abundant hair. Five million bottles used a year is proof of Danderine's effectiveness.—adv.
