## CHECK ARTIST FINS PICKING EASY IN SALEM

Two examples of how easy it is for an unknown individual to cash worthless checks have come to the notice of the police during the past 24 hours.

A man giving the name of William Patton and who said he had been working for "Mr. Cummings" but now working for "Mr. Goings" presented a "pay check" for \$50 signed by the "Pacific Tel. & Tel. Co." and made out on a counter check of a Seattle bank, for advance payment of room rent to a woman in Salem. She accepted the check as payment for a month's rent and gave the man \$20 in change. He said he would go out and get his trunks. To date he is still working for "Mr. Goings."

Later in the day, W. A. Zeek, creator of a Canby service station called upon the police and told his story.

Two men, driving a car with New York license plates stopped at Zeek's place late Tuesday. After eating a lunch, one of the men, who said he was a prohibition officer, presented a check for \$5 in payment. The man signed the check with the name of E. J. Coffey and in order to assure the young woman who accepted it, he put his o.k. on one corner of it, explaining it was customary to put out checks like that when in need of expense money.

Zeek acting in shortly after the transaction decided the check was no good and gave chase. He followed the men through Salem then west to the town of Astoria. He was not until then he thought of notifying the police.

Since the paper cashed by Zeek was made out on a counter check of a Seattle bank, police believe the men involved in both cases are identical.

**FILING MADE ON POWER RIGHTS ON COLUMBIA**

Future power development and protection of the water rights on the Columbia river and the state of Oregon were given as the reasons for an application for 50,000 cubic feet of water per second from the Columbia river filed Wednesday by the Municipal Ownership League of Portland.

In a letter to Rhea Luper, state engineer, Ralph C. Clyde, president of the league, requested that the water right be granted exclusively to the league as a precautionary measure against private corporation ownership of the rights.

"Our application is merely to have available for the city of Portland and the state in future years, rights to develop the tremendous hydro electric resources for public ownership," Clyde's letter to Luper said. "This right, if granted, will safeguard the interests of municipal ownership of power plants that will be established on the Columbia river in future years."

**SENATE CLASH OVER CHAIRMAN**

Washington, (AP)—A bitter political battle over party chairman opened in the senate Wednesday.

After presentation by democratic lobby investigators of a report on the Muscle Shoals activities of Republican Chairman Claudius H. Huston, the republicans countered with a report of the anti-prohibition activities of Democratic Chairman John J. Raskob.

The Huston report, presented by Chairman Caraway of the lobby committee, charged the republican chairman used \$38,100 of the funds which the Union Carbide company gave the Tennessee river improvement association to secure for the Muscle Shoals to bolster his personal managerial account in a New York brokerage house.

**DISCUSS PART TIME SCHOOL WORK**

T. T. McKenzie of Roseburg, newly selected head of the Smith-Hughes work in Salem schools, was in Salem Tuesday conferring with Superintendent Hug and other school officials. Hug in the part-time continuation school will be stressed with the beginning of the school term in the fall, application for a night class in sewing and tailoring for the fall term are being received at the present time.

Miss Lillah Holloway, part time continuation director, has resigned her position to be married during the summer, and her successor has not been announced.

**WHEELER DEFEATS POTTER FOR SENATE**

Eugene (AP)—R. C. Wheeler has won out E. O. Potter for the republican nomination as state senator on the face of an unofficial checking of tally sheets in the Lane county ballot boxes opened by the official counting board. Wheeler now has an unofficial lead of 23 votes. In the first count, unofficial, made from statements filled out by the election boards, Potter had a lead of six votes.

The change of 23 votes is caused by the transposing of the vote of Gram and Potter who came together on the statement sheet. Gram had 54 and Potter 23. The figures were reversed by error in copying.

**BONANZA HAS ANOTHER FIRE**

Klamath Falls, Ore. (AP)—The fire jinx, that for years has hovered over the little village of Bonanza, has struck again for the sixth time in the past 12 months.

Most of the business district was destroyed Tuesday by flames that started from sparks in a blacksmith shop and spread rapidly to the post-office and bank buildings in addition to the building in which it originated. Damage was estimated at about \$20,000.

A heavy rain, that started falling shortly after the blaze was under way aided by a high wind, swept the flames away from other business houses and residences.

Eighteen years ago a fire leveled the town and in succeeding four years it was razed four times.

A railroad is projected to the place to tap the rich Langell valley agricultural district and to develop timber resources and the rebuilding of the business houses is expected to start immediately.

**CHILDREN LADEN CARS IN COLLISION**

Buffalo, N. Y. (AP)—Five persons were taken to hospitals and a score more treated for minor injuries when two street cars loaded with school children and teachers collided here Wednesday. Almost 100 passengers in the two cars, most of them children, were bruised and shaken.

One car had stopped in front of the Hutchinson high school to unload when the second crashed into it from the rear.

William Shepherd, motorman of the second car, was jammed into a corner from which he was liberated with difficulty. At the hospital it was said he would recover.

## FAMILY RELATIONSHIP BECOMES COMPLEX

Paris (AP)—The little town of Berry is all tangled up in the family affairs of the B's. It all started when Madame C., a comely widow with two daughters not hard to gaze upon, solved a squabble among the three B brothers over the girls by snapping up the eldest of the three herself. During the past 30 days all three brides have become mothers. Two of the youngsters have a grandmother who also is their aunt. That good lady has an offspring who is his sisters' nephew and his uncle's brother-in-law. Whereas her husband is his brothers' father-in-law and the grandfather and uncle of their children. All those concerned seem surprisingly enough, to be bearing up rather well.

**Los Angeles, (AP)—California has taken fourth place among the states as a source of American exports. James A. Farrell, president of the United States Steel Corporation, so declared Wednesday in opening here the 17th annual convention of the national foreign trade council of which he is chairman.**

**"Los Angeles," he said, "has shown the most startling increase in foreign trade exports having multiplied in value 200 times in fourteen years."**

**Speaking of the "World Trade Outlook," President Farrell said: "The international commerce of the world is passing through a period which finds no close parallel in recent years. The present rate of activity is shown to be considerably slower than that of only a few months ago. The rate of the first eight or nine months of 1929 proceeded at an unusual pace, so that despite the slackening that occurred toward the close of the year the aggregate for the full 12 months constituted a new record both for the United States and for the world."**

**"Our exports for 1929 approximated five and a quarter billion dollars. In volume they were the greatest ever recorded, a fact which is emphasized by consideration of the lower commodity prices which obtained generally throughout the year."**

**"Probably the outstanding feature of American foreign trade during the last score of years has been the marked change that has occurred in its character. The steady decrease in the proportion borne by raw materials and foodstuffs in the total of our exports and the corresponding increase in the proportion won by the products of manufacture."**

**"There is genuine encouragement to be found in consideration of this fact for it is notable that the gain was achieved in precisely that element of our export trade that is directly responsive to merchandising enterprise and skill."**

**DENTISTS OF STATE MEET AT EUGENE**

Eugene (AP)—Dentists from all parts of Oregon were here Wednesday for the opening of the annual convention of the Oregon State Dental society. The sessions will continue through Saturday.

A golf tournament on the Eugene Country Club course was the first event
