WOMAN WAILED FOR FORGERY OF CHECKS FOR \$20

Faced with the responsibility of making good checks she issued two or three weeks ago and which were returned for lack of sufficient funds, Mrs. G. R. Brown, 1308 North 17th street, was in the county jail Saturday, charged with forgery as the result of putting out three or four checks in the aggregate sum of close to \$20, signed with fictitious names.

The woman who is about 28 years of age and has three small children, a few weeks ago wrote a number of checks but did not have sufficient money to cover them. She made an appearance in justice court when she said she had a job and would be able to make good the paper she was released.

Saturday she was in justice court again and admitted to having forged checks on two Salem business houses, using the name of Mrs. H. K. Smith and Mrs. D. D. Manning. She said she did it to provide funds to make good checks issued earlier.

The case was continued while Mrs. Brown went to jail in lieu of \$1000 bail asked. An effort will be made to communicate with her husband who is said to be employed in a sawmill at Dallas.

Police say the children are living with an elderly man while neighbors of the district have been providing food for them.

FORMER BAKER MAN EXECUTED IN OHIO PRISON

Columbus, O. (AP)—James Littler, 47, Baker, Ore., was executed Friday night in the electric chair at Ohio penitentiary after being granted one of the strangest last minute requests in the history of the prison.

Entering the death chamber where he was to die for the murder of a shell-shocked war veteran, Littler immediately requested he be allowed to shake hands with every witness in the small room.

Startled by the strange request and visibly moved, Warden P. E. Thomas consented and Littler first shook the hands of the guards who strapped him in the chair.

Invoking a divine blessing on each, he then shook hands with Warden Thomas and a score of newspapermen, and officials. With a smile on his lips, he seated himself in the chair, and last farewell to his witnesses and murmured a final prayer as the current was turned on at 9:06. He was pronounced dead two minutes later.

Littler was convicted of the murder last October of Harry Green, Nelsonville coal miner during a holdup. He returned to his home in Clatsop where he was arrested two months later and extradited a month later to Columbus Saturday in a futile appeal to Governor Myers Y. Cooper for clemency.

BLACKBERRY NOT TO BE PARTY TO POLITICAL PLOT

Dr. F. A. Blackberry, state central committee man for the county from Silverton, who leaped into the limelight with selection of a republican nominee falling onto the central committee, dropped into Salem Saturday morning for an hour or two to confirm what already has been quoted as coming from his friends in regard to the situation Dr. Blackberry did not talking as to his attitude in the matter of the selection of a nominee.

"I have an open mind in the subject, I have not engaged in or will not engage in any political intrigue in favor of any party or person," said Blackberry. "The Ferguson case was turned around and had both rear wheels broken off. Both parties claim they were traveling not over 15 miles an hour.

A loud report, followed by the arrival of two or three policemen at the Court and Liberty street intersection early Friday evening led pedestrians to believe for a few minutes that perhaps a section of Chicago's gangland had been transferred to the city. The remains of a large firecracker scattered about the sidewalk and the sight of three small boys disappearing down an alley cleared up the mystery. Having a hankering for some of the brightly colored gum balls displayed in a vending machine attached to the Miller store the boys had inserted the explosive in the firecracker got results but the "bandits" fled without reprisals and the machine was not damaged. The wrecked machine was carried off to the police station while the boys made their escape.

POLICE CHARGE MOB IN STREET INJURING 200

Bombay (P)—Two hundred persons, among them five women, were injured and sent to hospitals Saturday in police charges to break up a nationalist demonstration in the Madras Esplanade.

The police, some of whom were mounted, wielded their lathis, or bamboo clubs, with telling effect, and drove the throngs from the thoroughfare, which the authorities Friday night forbade as an assembly place for the next two weeks.

Many of those injured received serious wounds. Among these were two women. Ambulances stood by throughout the duration of the mole and carried off the disabled nationalists to hospitals.

About 300 people were treated for minor injuries besides the 200 or more sent to hospitals. The police called out to deal with the crowd consisted of 400 foot police, fifty mounted police, and thirty officers.

Troops stood by throughout the night in the event the police were unable to cope with the situation. The demonstration was planned Friday. The nationalist intended to pass in review in a show of strength before Gandhi Mottal Nehr, acting president of the all-India national congress. The government, learning of their intentions, in a special regulation, forbade assembly in the Esplanade.

The new ruling was seized upon by the nationalists as offering another opportunity of civil disobedience. They were determined, however, to begin to gather in the Esplanade at 7 a. m. An hour before this hundreds of police assembled also and after vainly ordering the crowd to disperse charged them.

Three futile charges were made. Finally the mounted police were called out and charging right and left and striking with the lathis, they succeeded in clearing the thoroughfare except for 500 or so led by some women volunteers.

FIVE HELD FOR SLAYING THREE IN POKER GAME

Rockmart, Ga. (AP)—Accused of participating in a triple slaying arising from a poker game in which each of the victims was shot in the back of the head and the bodies disposed of in garbage cans, five men were held in jail Saturday on murder charges.

Denied bail, Bill Hulsey, his two sons, Fred and Ray, his son-in-law, Tom Hicks, and L. C. McCullough, were ordered held for grand jury action by the verdict of a coroner's jury. They were accused of killing Cliff Jones, Lige Harper and Ernest McCullough, each about 30 years of age.

Building up a chain of circumstantial evidence, authorities advanced the theory that the men engaged in a poker game and that the victims enraged the Hulseys by winning the greater part of the money at stake.

Complications, authorities said, which grew out of the game and attempted drinking led to the slaying and disposal of the bodies in an abandoned well.

BEND AVIATOR DIES IN CRASH

Bend (AP)—Burton Davis, Bend bank teller and amateur aviator, was fatally injured here Friday night when his ship went into a tail spin at low altitude and crashed near Knott field. Davis was giving a flight test in preparation for the ship to Portland Saturday, and was to have received his pilot's license at Portland, having just completed 50 hours of solo flying.

Apparently he attempted to climb too fast, the ship stalling and nosing over. He attempted to circle back to the field, but failed.

Davis, who is one of Tex Rankin's first pupils at Portland several years ago, had recently resumed flying and had purchased a new Waco plane only a few weeks ago. The motor was not new, however, and whether the motor stalled under the strain was a point much debated by other fliers who were at Knott field when the crash occurred.

Davis' flight instructor, who was being forced down near the Maupin on a flight to Portland recently and before that making a forced landing while on a flight to McCleod, Cal., to visit a brother there. For the past week he had been working on the motor in preparation for the flight to Portland.

POLICE CALLED TO INVESTIGATE SLANDER CARDS

Police Saturday morning were asked to investigate the attack upon the character of a man and a woman, residents of the north part of the city, through the circulation of placards in the neighborhoods in which the parties involved live.

The placards, with the attack printed on them probably in a Salem shop, were circulated by the woman's husband, police believe, who state one of the placards was found on the woman's porch immediately after he was seen to leave the place.

The shop responsible for the printing of the placards has not been located although police say they have a good idea where the work was done.

The placards, signed "By One of the Neighbors" and dated Salem, July 6, 1930, bear the following inscription:

"Neighbors—Do you not think that this neighborhood scandal involving Mrs. _____ of Laurel avenue, and _____ a man with a wife and two children, should be brought to the attention of the authorities. Mrs. _____ has a young daughter and it is for her protection that a police investigation should be made."

An officer who investigated the affair said the woman in question, returning home one evening about 10 o'clock saw her husband leave her house, and walk into the street. When she got to the door she found one of the placards on the porch. She admits having kept company with the man involved.

The woman and husband had not been living together for some time.

Longest Day Too Long for Standing Job

Jimmy Nicholson turned away from the front of the First National bank building Saturday morning and headed for his office.

"What's matter, Jim?" asked a passerby, "no standing today?"

"Not on your life," said Jimmy. "Don't you know this is Saturday, June 21, the longest day in the year. I'm not going to stand out here all day."

And 36,000 people in Salem were all granted a couple of minutes extra leeway over the next longest day or pretty near 1000 hours among them to play about with as they pleased.

One way along State street touched the information that while Saturday might be the longest day in the year for the ordinary day, he bet the longest day in the year for Governor Norblad would be when the state central committee meets to pick a gubernatorial candidate.

At any rate, from now on Saturday will begin slipping and day by day in every way will keep getting a little shorter.

POPULATION OF MARION COUNTY PUT AT 60,527

Marion county with a population of 60,527 persons has shown an increase of 12,350 during the decade between 1920 and 1930, a final check at the local district supervisor's office reveals. Approximately 9000 of this increase was in the city of Salem, the remainder being divided between the rural districts and cities and towns.

The census district comprising Marion, Polk, Yamhill and Tillamook counties has a population of 111,265, the check of the army of enumerators reveals. Next to Marion county, Yamhill has the largest number of persons in the district. The present population of Yamhill is 22,029 as compared with 19,229 10 years ago, while Polk's inhabitants number 16,895, against 14,181 a decade ago, while Tillamook registered 11,905, a gain of 2,995. The entire district registered a gain of 24,103.

The final local check of the city of Salem gave the population as 35,260. A few more names may be added at census headquarters in Washington, D. C.

EDITORS GUESTS AT GUARD CAMP

Astoria (AP)—Delegates to the Oregon state editorial convention, which opened here Friday, were dinner guests of Major-General George A. White of Camp Clatsop Friday night.

Following the banquet music and vaudeville entertainment were provided for the editors by members of the Oregon National Guard and at 9:30 o'clock Major-General White took them to the camp's natural amphitheater and staged a night machine gun demonstration.

Those of the party who were not there during the recent war said that the demonstration was the most spectacular they had ever seen.

The editors spent most of the day Friday discussing the effects of radio advertising on the propriety of newspapers and discussion of a system of measuring reader interest in newspapers. The system discussed was developed by Dr. George H. Gallup, director of the Drake University School of Journalism.

Other Oregon educators attending the convention are: L. W. Turnbull, city superintendent of schools at North Bend; P. C. Fitzpatrick, N. E. A. representative in Oregon and E. F. Carlton, superintendent of Oregon State Teachers' association.

GRADUATE MANAGER ASKED FOR SCHOOL

Recommendations that the Clatsop newspaper manager's commission be retained and that a graduate manager system be used in conducting school affairs were made by Albert DeWett, faculty leader for the high school associated student body, in his annual report made to Superintendent George W. Hug Friday afternoon.

The first recommendation is liable to be contested by Principal Fred Wolf, it being understood that the high school head is opposed to the manager's commission.

The Clatsop newspaper had a profit of \$174.84 and the Clatsop annual a profit of \$113.08 at the close of the school year. Both publications have the unusual status of being self-sustaining. Footbal for the first time in years showed a profit, \$1,225.45 being received and \$1,151.77 disbursed on that sport this year. Basketball suffered a loss of \$126.22, entirely covered however by the appropriation of \$150. Baseball sustained a loss of \$3.95, and track cost \$121 with no income.

TINKHAM TAKES CANNON'S DARE PRINTS CHARGES

Washington (AP)—Differences between Bishop James Cannon, Jr., and Representative Tinkham continued Saturday to command interest in Washington.

A move by the churchman in response to a public statement issued by the legislator attacking him was being awaited.

Tinkham, a republican opponent to prohibition from Massachusetts, recently made charges against the southern Methodist dry leader in the house. Cannon called him a "blustering cowardly congressman" for doing so under the cloak of congressional immunity and dared him repeat the assertions off the floor. Statements in the senate and house are immune from prosecution for libel.

The text of Tinkham's answer issued for publication Saturday was: "Let Bishop Cannon show that he is a blustering cowardly congressman. I desire to restate over by signature the charges I made in the house of representatives that he is a shameless violator of the federal corrupt practices act, a criminal statute; that he received \$63,300, mostly in cash, from a New York capitalist, Mr. Jameson, during the 1928 elections and illegally concealed the receipt of all of this money until February 15, 1929, and has not yet accounted for \$48,390 of this amount, refusing to do so before the senate lobbying investigating committee before which he appeared voluntarily and where he was under oath and could have been cross-examined."

"(Signed) "George Holden Tinkham."

Cannon last week announced he intended to take action for libel, both civil and criminal, against newspapers printing editorials, cartoons, and news dispatches which he considered a defamation of himself.

BUDGET FOR DRY LAW FORCE CUT TO ONLY \$50,000

Washington (AP)—The \$250,000 requested appropriation for President Hoover's law enforcement committee was pared down to \$50,000 Saturday by the sub-committee of the senate appropriations committee.

The sub-committee adopted a provision specifically directing the committee to spend the money investigating prohibition, and not any extraneous matters.

"I do not think they ought to have a cent, but I was willing to accept the \$50,000 fund when it was made to apply directly to prohibition," said Senator Glass, democrat, Virginia, who had announced his intention to seek to prevent the commission from obtaining any more money.

Even the diminished appropriation is, however, subject to a point of order and may be excluded on the floor or the senate, some members of the sub-committee said.

"The decision was reached in a heated session of the committee of which both Glass and Senator Jones, republican, Washington, dry leader, are members.

The bill now will be reported to the full appropriations committee and brought up in the senate for discussion probably Tuesday.

The vote in the sub-committee was 6 to 1 in favor of restricting the commission's funds, with Chairman Jones demanding the full \$250,000 be allowed.

BOULDER DAM BILL GIVEN APPROVAL

Washington (AP)—The \$10,000,000 appropriation for starting work on Boulder Dam was approved as part of the second deficiency appropriation bill Saturday by the senate appropriations sub-committee.

The action was taken after Senator Hayden, democrat, Arizona, had appeared in an executive session of the committee protesting against inclusion of the fund.

Bertha Pettit, 17, and Beverly Ribble, 18, made their escape from the state school for girls Saturday forenoon. The Ribble girl was kidnapped from the school about a year ago.
