ROLLING PIN HINTS PAUL-BUNYAN TALE

Mesa, Ariz. (AP)—Paul Bunyan himself, the Whataman of the Tall Timbers, would look twice at a rolling pin on display here as a souvenir of the completion recently of the Stewart Mountain Dam.

The rolling pin, which was used by the camp cook for making pies and bread for hundreds of hungry workmen, weighs some seven pounds and measures almost three feet in length, with a diameter of six inches.

The pin is fashioned of hard oak, and its crevices are still jammed with durable dough which raised a lump in the throat of the spectator—to say nothing of the lump raised in the throats of those who ate its finished product.

EUGENE

The \$32,000,000 Oregon Market

AN ANNUAL turnover of \$32,000,000 provides Eugene residents with ample money to purchase any advertised goods. Selling them is easy through the evening and Sunday Register.

Agriculture, timber, and manufacturing have an annual turnover of \$8,000,000 each. Public service companies, wholesaling, and the University of Oregon do another \$9,000,000.

Five hundred retailers and 38 wholesalers (plus five farmers cooperatives) make Eugene the retail center for 60,000 people. Buyers are increasing too: Eugene's population, now 18,872, gained 76% in the last ten years, while the county grew 51%.

Meanwhile, the Eugene Register's circulation grew 73% faster than the population. Only four newspapers in Oregon carried more than 5,000,000 lines of advertising last year—three of them are in one city, the fourth was the Register. More classified space (over 1,000,000 lines) was bought in the Register than any other daily of the same size in the country.

Small wonder that local advertisers (who know) prefer the Register. Its dominant circulation alone would make for that.

Palmolive Soap

And 23,720 beauty experts the world over recommend Palmolive for keeping skin lovely.

In Hollywood, beauty is not accepted as a gift of the gods and casually dismissed. Lovely women of the screen must rely upon professional beauty experts to keep their skin flawless for the tell-tale camera.

Perhaps that is why laws regarding beauty practice are so stringent in California. Every beauty shop owner in this state must be a licensed operator, and this state, thoroughly, how to care for the skin.

You can appreciate, then, the importance of this fact: 76 of the 80 beauty shops in Hollywood advise their patrons to use Palmolive Soap as the best means of keeping skin lovely between salon treatments. These 76 shops care for all the well-known stars of the screen. They are the Hollywood authorities on beauty culture! And all 76 of them consider Palmolive best!

The Hollywood treatment

The twice-a-day treatment advised in the Capital of Screenland is the very same method urged by the great beauty specialists all over Europe and America. Here it is:

Massage a lather of Palmolive Soap and warm water gently into the skin for about two minutes. Rinse this off with generous applications of warm water, then colder and colder. That final cold water rinse closes the pores, acts as an astringent.

You could use no finer daily care than this. And use Palmolive for the bath, as well. Millions do, all over the world. It costs no more than ordinary soaps, you know.
