

EGGS STEADY, STORAGE STOCK LOSING QUALITY

Portland (UP)—Liberal degree of steadiness is reflected in the general market for fresh eggs. Storage stock is coming to the parting of the ways. Some of it is becoming "tasty" and for that reason will soon disappear as a real competitor of fresh goods.

In general there was no change in the butter market situation for the day insofar as fresh stock is concerned. Some recalculation are noted for storage which appears more or less drab.

Quite strong demand for live chickens is noted generally in the local trade. Even heavy hens, which have been inclined to ease off, are now reported as moving out well.

Demand for dressed turkeys has been somewhat stimulated as a result of lowering of prices in an effort to get the trade to clean up. There was no further change in the price.

Market for dressed lambs appears about the only bright spot in the trade generally although there is a satisfactory call for hogs. Veal continues to show more or less dragging disposition.

With only local demand shown, and this in a limited way, market for onions reflects extreme dullness and stagnation. Limited small lots reported purchased by the country from growers at 40 cents and sacks. No carload business in sight.

First of the season's bulk dates have been received in Portland, announces the Pacific Fruit Co. The stock is in good shape and finding a good demand at 9-10 cents pound.

Local fresh fish operators report an extreme shortage of top quality halibut. The trade has of late been forced to depend upon local stuff from Alaska. Price is firm at 17 cents for chicken and 20 cents for medium.

Salmon is not quite so plentiful but there is no real shortage. Fresh crabs remain in very liberal offering. Valencia oranges are cleaning up; regular navels due about mid-week.

Cranberry prices are firm but the movement is slow. Eastern coming. Cauliflower is just a trifle easier with 10 the general cash price for 18 on cars.

Celery market is unusually slow with many rollers reported.

STOCKS SLUMP, RALLY ATTEMPT FAILS TO HOLD

New York (UP)—Prices receded most of the day on the stock market Thursday with a few feeble rallies which failed to hold.

According to preliminary calculation the Dow Jones & Co. industrial average declined 5.05 to 182.02 and the railroad average 3.02 to 110.86.

Special pressure was exerted against beverage issues with Coca Cola the target. It lost 10 points and was developed in Canada Dry and White Rock.

Late in the day selling was severe in American Telephone and the issue broke to 194 5/8, off 5 points. General Motors also met considerable selling and Eastman Kodak made another low for the year.

Selling in these stocks together with pressure against U. S. Steel that brought it below 146 at one time, kept the whole list in an unsettled condition.

Oil shares were steadier when it was learned officially that Standard of New York earnings and sales for the first nine months set a new record. That particular stock was down fractionally but other oil shares were steady.

Copper shares were firmer in the late trading although Wednesday's leaders, American Smelting and Anaconda led ground. Utilities generally declined with American Telephone, Consolidated Gas was the weak feature in the strictly utility list.

Radio Corporation equalized its low for the year at 20 but met resistance. Electrical equipment issues showed better rallying power Thursday, but they eased near the close.

Bethlehem Steel worked fractionally lower but was quiet despite estimates the company would not earn half its dividend requirement in its first nine months. The Bethlehem statement is due at 3:15 Thursday.

Call money held at 2 per cent. Bonds were irregularly higher. Curb stocks sold off with utilities the target. Cotton showed rallying power near the close while grains eased fractionally.

HAWLEY REFUSES TO SPEAK AT RALLY
Hawley refused to speak at a rally to help the Oregon Normal school contest.

Normal School Contest Slated
The first of the three, the extemporaneous speaking contest is to be held in Monmouth the second Friday in February. The winner is to receive \$25.

WHEAT PRICES SLUMP LOWER IN CHICAGO PIT

Chicago (UP)—Liquidation of December wheat by those sent the market sharply lower on the board of trade Friday. Weakness in stocks and in corn were contributing factors in the decline.

Chicago (UP)—Led by corn, the grain market took a downward path Friday in the early dealings. A crop estimate issued by a leading private authority made the total yield of corn this season 2,995,000,000 bushels compared with the latest official forecast of 2,947,000,000 bushels.

Fire Destroys Valuable Horses

Laurel, Mo. (AP)—An investigation was underway Friday to determine origin of a fire Thursday night that swept through a stable in the center of the town and destroyed two race horses, one of which was valued at \$7,000.

Golden Auburn, owned by W. J. Hentling, and false prize were the two thoroughbreds destroyed. Frances St. L. quartered in the same stable was reported burned. Five other race horses were also in the barn but were turned loose soon as the fire was discovered.

FIRMER TONE IN HOP MARKET IS OBSERVED
Pacific coast hop markets developed a somewhat firmer tone during the week ending October 30, largely as the result of an improved domestic demand. There was also some impetuous foreign inquiry, particularly from English buyers, who have shown little interest in hops from this area so far this season.

WOOL MARKET REMAINS SLOW, BUYING SMALL

Boston (AP)—The Commercial Bulletin will say Saturday: "The wool is steadier in the foreign markets, on the whole here there has been little change. Medium wools on the other hand, have shown a declining tendency abroad and are barely steady here.

WOOL MARKET REMAINS SLOW, BUYING SMALL
The domestic market has continued rather slow, with buying spotty and for rather small quantities. "While the piece goods and clothing markets are reported rather liquid, manufacturers say there has been little reflection as yet in any buying on the part of the men higher up. Certainly, there has been little reflection in the wool market of buying higher up.
