

MORE FIGHTS DEMANDED FOR DEEPER RIVER

Canalization of the Willamette river as far up the stream as Springfield is still the object, at an early date as possible, regardless of an unfavorable report on the project made by a board of army engineers at Washington. A meeting of the association held here Friday night was emphatic on this point. The members of the association met around the banquet table at the Gray Belle, about 50 persons from all cities along the river attended.

Frank Jenkins, president of the association, averred that the fight has just begun, that business interests along the river have been too easy going in the past with respect to river navigation and that now is no time to forget the purpose of the movement.

River control rather than canalization was stressed by Prof. E. T. Hodge of the University of Oregon. He said that the Willamette valley is among the most productive areas on the Pacific coast and that its productivity could be increased by irrigation and drainage, both of which could be brought about by control of the river.

William P. Ellis, Salem attorney, urged the association to use the greatest care in presenting its case before the army engineers, at any future hearing. "You are up against technical men," he said, "and care is necessary."

R. H. Kipp of Portland, secretary of the Columbia River Traffic association, declared that the report of the army engineers was based on an inadequate array of facts, and that the possible tonnage reported by the engineers was far short of actual truth. The report, he declared, should be an incentive to the association, for harder work to attain its purpose.

A. F. S. Steele, secretary of the Eugene Chamber of Commerce, spoke in similar vein, declaring that only a fraction of the lumber business reported to the engineers.

Newell Williams, president of the Salem Lions club, told of the part the Lions are taking in the movement. It is one of their major activities, he said, Williams suggested that for the present the river's improvement only from Oregon City to Salem might be a worthy object for the association, but Jenkins and Kipp were of the opinion that the bigger the project is the more of an appeal it has at Washington.

The work of Senator McNary in behalf of the project was given a vote of appreciation.

The association will next meet in Portland April 20.

LAMB CROP IN STATE BIGGER

The early lamb crop of 1931 in Oregon as a whole is somewhat larger than the early crop of 1930 according to the March 1 report of the federal crop reporting service. Weather conditions exceptionally favorable for saving a large percentage of lambs. Feed is plentiful but rain is needed in some areas to insure spring feed.

In the principal early lambing states, the lamb crop is larger than that of last year. The condition of the early lambs at the beginning of March this year was better than at that date in 1930, when a high condition was reported. Present indications are for a larger market supply of spring lambs than last year for the three months April to June, the quality of which will be at least as good as last year. A heavy marketing of grass fat yearlings and wethers from Texas during these months is also probable.

In Washington the early lamb crop is as large as last year. Weather conditions during lambing were very favorable, grass has made a good start and early range prospects are good. The market movements may be earlier than last year.

Idaho weather and feed conditions from breeding time last fall, through January and February, lambing have been very favorable. The proportion of ewes which lambed early was probably smaller than last year. Early lambs are in fine condition. Because of lack of winter moisture, spring ranges are starting to dry and, unless ample rains come, spring feed may be short, which will lower the quality and delay the marketing of this year's lambs.

In California the early lamb crop this year is larger than last year, due both to a larger number of breeding ewes and to a larger percentage of lambs being saved. Weather conditions during lambing were generally very good, but grass was late in starting and it was not until February that ample green feed was generally available. About March 1 feed conditions were fairly good, but rainfall to date in the Sacramento valley is short and favorable moisture and weather conditions during March and April will be needed to keep grass in good condition. Conditions in the southern San Joaquin valley have been much better this year than last and the March and April lambs from this area should be considerably better than those of last year. The number and quality of lambs for eastern shipment and the time of shipment will be determined largely by feed conditions during the next two months. Contracting of early lambs to date has been very limited.

TO ATTEND CONVENTION

Kenneth Pettibone, 17, of Corvallis, will represent Oregon Future Farmers in the territorial convention to be held next month in Hawaii, according to Earl H. Cooley, state supervisor of vocational agricultural education.

Pettibone is president of the Oregon chapter.

GIESYS ARE GUESTS

Aurora—Mr. and Mrs. U. S. Giesy of Ontario are spending a few days in and around Aurora visiting relatives and friends. Giesy is the son of A. H. Giesy, a former merchant of this city.

List of Prospective Hi School Graduates Announced by Wolf

Two hundred and eighty-two prospective graduates are listed to complete their studies at Salem high school June 5, provided they finish the required amount of work. Principal Fred Wolf, in releasing the list of prospective graduates, made it definite that only those students completing the required work with passing grades would be eligible for graduation in June, whether their names were carried on the senior list, or no.

About 150 students in the class are expected to attend college.

Those who are listed as eligible for graduation at the completion of this year's work are:

Howard Adams, Virgie Oshina Allison, Willis Rosalie Ames, Olive Josephine Anderson, Robert Murray Anthony, Ruth Virginia Arnold, Alice R. Aufderheide, Bernice Mildred Austin;

Dorothy Badertscher, Augustine Valmonte Balmoja, Eleanor Margaret Barn, Leonard E. Bassett, George Laurence Baumgartner, Margaret Baumgartner, Harryette Beal, Maxine Ebertha Becker, Anna Biely, Dora May Bleher, Fred Broer, Leola B. Brown, Dorothy Marie Browning, Stanford L. Burne, Dorothy Ann Burk, Myrtle Elizabeth Burk, Robert R. Burton.

Edith Cage, Earle T. Carkin, Edith Maurine Carmical, Robert Wayne Carpenter, Eileen Joan Carter, Cleone C. Casement, Marion Ruth Cernik, Lewis Chamberlain, Ruth Parker Chapman, Leo Cheslak, Margaret Clark, Herbert Craig, Gilbert Cross, Dorothy Muriel Coffey, Clarinda Lee Colard, Fern Adelle Colwell, Elizabeth Cook, Esther Virginia Cook, Troy Vernon Cook, Kathryn Corey, Ralph Coulson, Dorothy Katherine Cox,

Ferne Virginia Dalton, Errol E. Damon, Mildred Louise Darr, Leona Riddell Davidson, Dorothie Mae Davis, Grant B. Day, Sammy Lee DeLoapp, J. Richard Devere, Bernice Raymond Dirks, Dorothy Ada Dow, Mildred Drager, William Drakeley, Jean Elmerdian Eastridge, Cleo Evelyn Ellis, Lee A. Ellmaker, Evelyn C. Entress, Louise Caroline Erb, Hildegard T. Erpelind, Magdalene M. Erpelind, Margaret Evans, Rosalie Irene Evans, Warren Arthur Fanning, Mathilda Faust, Earle Fleisenger, John S. Fisher, Nell Filipatich, Martha Leola Ford, Truxton Leroy Foreman, Bud M. Forgan, Harold French, Margaret Hazel Friebert, Suzie S. Fukuda.

Rose Zella Gabbert, Ernest N. Garbarino, William G. Gibson, George Winford Giese, Robert W. Goodrich, Loren L. Gower, Isabelle Gragg, Jean L. Graham, Kenneth Lee Grant, Vivian Mabel Grant, Kenneth L. Grimes, Maurice K. Groves, Dolores Gumbey, Charles Hugh Gustafson, Wallace J. A. Gutrie.

CHINA RESUMES NEWS CENSORS

Shanghai, (UP)—Censorship of news dispatches from interior cities has been resumed under orders from the headquarters of Commander-in-chief Chiang Kai-shek. The bandit troubles in the Yangtze provinces is responsible.

Instructions were issued at Nanking, Shanghai, Wooming, Nanchang and Hankow to suppress all messages referring to plans for attacks on communist-rebels, the number of government troops engaged in fighting the bandits, items relating to communist propaganda, unauthorized military reports, "false and groundless" reports in favor of communists and bandits, and "news of doubtful and suspicious nature." The order is to remain in force until the anti-bandit campaign in the Yangtze country has been concluded.

The censorship was ordered following circulation of reports that the bandit campaign is not progressing as favorably as was hoped.

MEN'S GOSPEL TEAM TO CONDUCT SERVICE

West Salem—The men's gospel team from the local Men's Council will conduct the Sunday morning services at Ford Memorial church. Rev. W. J. Warren will give the principal talk. Several special musical numbers are expected.

The Epworth League will meet at 8:30 o'clock. Wesley Warren will be leader of the seniors.

The sermon subject for the evening service will be "I Thirst." There will be music numbers by the choir, orchestra and others. Rev. M. A. Groves will preach.

Marion Residents Unsteady on Feet

Marion—There has been an epidemic of falls lately, causing injuries to several. Mr. Gray suffered quite a severe injury to his leg above the ankle when a horse kicked him. Mrs. Terhune slipped and suffered a sprained leg, so that she was taken to Dr. J. O. Van Winkle's office for treatment. Mrs. I. Cookin fell on the walk and broke both bones near the ankle in one leg.

Pierre, Oille W. Schendel, Cecil Ray Scheuerman, Russell Palmer Scott, Cleo Christ Seeley, Eiva E. Hiccoughs Hold No Worries for Seattle Victim

Seattle, (UP)—If suggestions could cure hiccoughs, nobody in this vicinity should be bothered with such things after studying a list of remedies volunteered by persons from all sections of the state when from all sections of the state when Willis C. Bentley was suffering with the malady.

A newspaper article describing Bentley's ailment which lasted two days brought a flood of remedy suggestions to the Bentley home. They came by telephone and mail—scores of "sure cures for hiccoughs."

Some of the remedies given by the scores of sympathetic persons were:

A mixture of coal oil and sugar, hot ginger, mustard plaster and foot bath, old socks tied around neck, drink pint of water while counting to 50, sleep crosswise in bed with head hanging over the edge, run until out of breath, swallow mouthful of water while standing on head, put head in hot oven, take a ride in collegiate sfliver, hold nose and drink two bottles of soda pop, inhale air from inner tube.

The World's Richest Men

Great Britain Fortunes Equal in Number to Those in United States

London (UP)—Although more than 2,000,000 persons in Great Britain are on the "dole" and are compelled to exist on as little as \$5 a week, the nation surpasses America in the number and extent of individual fortunes.

In the year ending March 29, 1929, the last official figures available, the report of the commissioners of inland revenue revealed there were between 500 and 600 persons in Great Britain classed as millionaires.

Some of these are internationally known figures. The Duke of Westminster, whose great wealth dates back to Queen Elizabeth, is probably the best known. It is said if his possessions could be realized he would be in the \$100,000,000 class. He has many yachts and enjoys experimenting with speed, is an enthusiastic hunter and has been married three times.

Ranking with the Duke of Westminster is John Ellerman, the ship owner. He rose to the third largest owner of tonnage in the world, from a minor clerk in an accountant's office. During his spare hours he became interested in brewery shares and later in newspapers. He has no hobbies except that he spends more enjoyment in making money than spending it, although he has contributed huge sums to charity.

One pair of brothers, Solly and Jack Joel, are rated in the \$75,000,000 class. Their fortune came from South African mining enterprises directed by an uncle, Barney Barnato. Solly Joel couns his friends by the hundreds and occupies a unique position in society. It is said of him that he does with his money what hundreds of persons always imagined they would do, if they would do, if they ever came into possession of a few millions.

He owns a famous racing stable, a mansion on the Thames, beautiful Pompeian swimming pool, pictures and bits of sculpture that he chose himself. He has wide theatrical interests and his wife's jewels are said to be as beautiful as any in all England.

His brother, Jack, leads a simpler life. He too owns a famous racing stable, has twice won the Derby and his favorite hobby is stock breeding. While he is a recognized member of the highest society, he is not as well known as his brother.

Lord Derby, who inherited the greater part of his \$25,000,000 fortune, is well known in America as well as many other parts of the world, especially where racing is enjoyed. He lives luxuriously, enjoys racing, sport, ease and comfort. One of England's famous rac-

Census of Northwest Fruit Crop is Made by Federal Department

Census of Pacific northwest fruit crops is announced by the crop reporting board of the department of agriculture the estimates made covering 1929 and 1930 being based on reports and data furnished by crop correspondents, field statisticians and cooperating state boards or departments of agricultural colleges.

Covering cherries Oregon's 1929 production was placed at 9500 tons with 11,600 tons reported in 1930, the 1929 valuation being placed at \$1,584,000 and the 1930 valuation at \$1,392,000. Washington's 1930 production was placed at 12,100 tons, Idaho's at 4200 tons and California's at 18,000 tons. The 10 big cherry producing states of the union had a total production of 108,100 tons in 1930 as compared to 84,930 in 1929.

Oregon's dried prune production in 1929 was placed at 50,000 tons as compared to 12,500 in 1930 with a total valuation of \$7,000,000 in 1929 and of \$875,000 in 1930. Dashiington's 1930 production was 3500 tons and Idaho's 215 while California's was placed at 225,000 tons.

Total strawberry production in Oregon in 1929 was placed at 15,225,000 quarts as compared to 12,285,000 quarts in 1930 with a total valuation

in 1929 of \$1,575,900 as compared to \$1,720,000 for 1930. Washington's 1930 strawberry production was placed at 8,250,000 quarts.

Carlot shipments of strawberries was greatly reduced in 1930, the report states, with 38 cars going out of Oregon in 1930 as compared to 103 in 1929.

Oregon's total apple crop for 1929 was placed at 4,000,000 bushels as compared to 6,000,000 bushels for 1930 and the total pear crop was placed at 3,250,000 in 1930 as compared to 2,750,000 in 1929, with the valuation dropping in 1930 to \$2,400,000 as compared to \$3,850,000 for 1929. Oregon's peach crop was 290 bushels in 1930 as compared to 292,000 in 1929.

Data as to prices per ton on various fruits are given in the report as follows:

| | | |
|-------------------------|--------|--------|
| Apples, culls | 1500 | 1000 |
| Blackberries | 1 500 | 1 300 |
| Cherries, Royal Ann | 100 00 | 100 00 |
| Cherries, Black Ann | 100 00 | 100 00 |
| Cherries, sour | 110 00 | 100 00 |
| Currants | 100 00 | 110 00 |
| Gooseberries | 75 00 | 70 00 |
| Loganberries | 100 00 | 100 00 |
| Raspberries, red | 135 00 | 100 00 |
| Pears | 25 00 | 20 00 |
| Prunes | 15 00 | 25 00 |
| Raspberries, black | 100 00 | 100 00 |
| Raspberries, white | 100 00 | 100 00 |
| Strawberries, soft | 100 00 | 120 00 |
| Strawberries, Elbertine | 150 00 | 140 00 |

BIRTH CONTROL GIVEN SANCTION OF CHURCH BODY

New York (UP)—Approval of birth control by contraception under certain conditions is announced by the Federal Council of Churches of Christ in America. It was said to be the first declaration of the subject ever made by an interdenominational group.

The report, submitted by the council's committee on marriage and the home, was not the unanimous judgment of the committee, however. A minority report advocating "abstinence as an ideal" was filed, and three members went on record as expressing no opinion between the majority and minority reports. The report was drawn on the theory that there were two methods of birth control—contraception and abstinence.

"Throughout the report," said the announcement, "the committee is speaking only of birth control without expressing any opinion between the majority and minority reports. It is recognized that an increasing knowledge of contraceptives might enhance the serious evil of extramarital sex relations, but the committee takes the view that this problem has to be met through education, and especially religious education, and the cultivation of self-control in the interest of the social welfare."

Dr. Worth M. Tippy, executive secretary of the council's commission on the church and social service, said the report was made with the aid of advice from physicians, psychologists and social scientists.
