PRISON HEARING ENDS ABRUPTLY

BUTLER DENIES OFFER TO HEAD OREGON POLICE

Neither Marine Headquarters nor General Has Heard of Proposal

Meier Plans to Secure Services to Organize New State Force

Quantico, Va. (AP)—Major General Smedley D. Butler of the Marines said Tuesday he had not been informed of the proposal by Governor Meier of Oregon to have him head that state's police organization.

"I would not care to comment about it," he said, "until I knew all the details of the proposition."

Friends of Butler recently said he planned to enter the 1932 contest for the Pennsylvania senatorial seat now held by former Secretary of Labor James J. Davis.

"I am still considering whether or not I shall enter that contest," Butler said.

Washington, D. C. (AP)—Marine corps headquarters here Tuesday said no correspondence relative to a proposal by Governor Meier of Oregon that Major-General Smedley Butler become head of the Oregon state police, could be found in the files.

Governor Meier admitted Tuesday he had been in communication with Senator Charles L. McNary of Oregon.

COOLIDGE AND M'NARY GOSSIP

Washington (AP)—Republican leaders looking ahead to the 1932 presidential race are eagerly watching for the decision to be made by Vice President Curtis on seeking re-election.

If this party veteran determines to go out for his former seat in the senate from Kansas rather than take a chance on another four year term as vice president, it is conceded the move will bolster anti-Hoover republican forces.

Curtis will announce his decision in the fall. Meanwhile he is keeping his own counsel. Friends say he is confronted with pleas from both those who would have him run again for vice president and those in Kansas who would have him campaign against Senator McGill, a democrat.

In the gossiping at the capitol there also is talking among anti-Hoover republicans of an attempt to get Calvin Coolidge back in the race with Curtis or Senator McNary of Oregon, as his running mate.

LANDIS POWER IN BASEBALL UPHELD

Chicago (AP)—Kenesaw M. Landis' power over organized baseball was upheld Tuesday by Federal Judge Walter Lindley, who dismissed the suit for injunction filed by the Milwaukee club of the American association in the Bennett case.

The suit for injunction, which was sought to restrain the commissioner of baseball from interfering further with the baseball contracts of Bennett, an outfielder, was dismissed Judge Lindley said, for want of equity.

Prisoners Escape From Indiana Jail

Petersburg, Ind. (AP)—Alvin Karpis, held as a bank robber, had a complaint to make Monday about the county jail.

"I was," he said to the wife of Sheriff Nelson as he walked into the jail kitchen, "well you close the jail doors. There's too much draft."

Investigation revealed that seven prisoners who escaped the night before had neglected to shut the jail doors behind them. Three of them were captured later at Marshall, Ill.

Newsprint Cut Is Not Felt on Coast

San Francisco (AP)—J. D. Zellerbach, executive vice-president of the Crown Zellerbach corporation, said Tuesday the \$5 a ton reduction in eastern Canadian newsprint paper probably would have no effect upon the Pacific coast price of \$38 a ton at Seattle.

Eastern mills quoted new prices of \$32 a ton until May 11 and \$30 a ton after that date.

Good Evening!

Sips for Supper
By DON UPJOHN

When the governor runs out of tired employees and convicts as witnesses no doubt the prison inquiry will come to an end.

In answer to several inquiries as to what we think of the investigation of Henry Meyers we can only answer by quoting a famous line from the once well known poet Mr. Homer, which reads: "For people who like that kind of a thing that is the kind of thing they like."

Now comes word from Washington that savants there have demonstrated tobacco is a wonderful body builder to feed the baby chicks. We have noticed quite a tendency on the part of grown up chickens in that direction.

If feeding of chickens with tobacco becomes prevalent, good old chawers like Jim Hertz and Walt Keyes can enjoy their chaw while sitting on the drumstick for Sunday dinner. In fact even we can suck the wish bone and think we're smoking a cigarette.

But the W. C. T. U. should do something about writing letters to Mr. Hoover with his department of agriculture, inciting the tobacco habit in the innocent little baby chicks.

THE BEST FISH STORY

Lea Pearline, confirmed fisherman, was caught in bed with the fish when fishing season overtook him. Yesterday his wife went into the room to see how Lea was getting along. And there he was, asleep. He had secured his fish rod and was holding it out of the window while he slept in calm content. She tipped from the room. Just at that juncture, Paul Gronke, who had been out fishing Sunday, appeared on the scene with part of his catch as a present to the Pearlines. So Mrs. Pearline slipped out of the house, hung a nice nine-inch trout on the end of the line that Lea had dangled from the window and the rest she dropped into his creel and set it down beside his bed. When Lea woke up he nearly fell out of bed when he saw what a catch he'd made.

But we must put down George Cadwell as the gamest little fisherman in the northwest. We remarked about his 27-inch catch the other night in our column. George felt so good about it that when he met us next time he said, "Look here, old sport, you think I can't fish, I'm going to provide your whole family with fish."

"That's good," we said to George. "When you going to start in?"

"Right now," he said. "How many are there in your family anyway?"

"Nine," we remarked, as we became nonchalant and lighted a cigarette.

George's face, bronzed by the wind and sun from many a fishing expedition, blanched a pale pink. We could see his frame was shaken and imagined shivers racing up and down his spine.

"Okay," quipped George. But the game little sportsman came through with more than enough to go around. That guy has nerve.

GALE SWEEPS OVER NORTHERN ALASKA

Point Barrow, Alaska (AP)—Demolished houses, torn roofs, and overturned boat strewn along the beach were mute reminders of the worst windstorm of the winter, which swept across the northern part of Alaska Monday night.

The gale whipped through the village of Barrow, completely demolishing one of the main fifty native houses, tearing roofs off others, and rolling boats along the beach. No injuries were reported.

Most of the residents were busy engaged in rebuilding and repairing houses Tuesday.

Little Princess Has Birthday Gifts

Windsor, Eng. (AP)—Princess Elizabeth, elder child of the Duke and Duchess of York, Tuesday celebrated her fifth birthday, arising early and rushing into the oak room at the castle where there were all sorts of mysterious presents.

Most of the gifts were such as would educate as well as amuse. Among King George's gifts was a terracotta globe which she eagerly examined, asking to have pointed out where Uncle David and Uncle George were. Her mother, the Duchess of York, indicated the route of the princess' return from South America.

Heat Wave Rules States on Coast Frost in Interior

Portland, Ore. (AP)—Spring temperatures, borne on strong breezes and east winds, upset traditions and aroused speculation today.

Medford experienced a temperature of 85 degrees yesterday, the highest reported for the state. But on the other hand there was word from the fruit districts toward the eastern part of the state that considerable frost damage had been done by three successive nights of cold.

Red Bluff, Cal., had the maximum temperature for the coast yesterday with a reading of 94 degrees. Sacramento and Fresno each had 92 degrees.

NEXT SESSION OF BOARD WILL STUDY MERGER

First Consolidation Move To Be Made by Education Body April 29

Presidents Kerr and Hall Cautious in State-ments at Meeting

The first action of the state board of higher education relative to the consolidation of departments and reduction of expenditures to take care of some \$1,500,000 unavailable as a result of executive veto and referendum action on the legislative appropriation for higher institutions of learning, will be taken at the next session of the board on April 29. The meeting is expected to continue for two days or longer and will be held in Portland.

This was the decision of the board Monday night after meeting here to hear recommendations of Governor Meier and formal briefs submitted by Presidents Arnold Bennett Hall of the state university and W. J. Kerr of the state college relating to the survey commission report. The members of the board listened to the presentation of these briefs until a late hour Monday. Consideration will be given them along with a suggested reduction of budgets which will be submitted by the board.

COOPER SOUGHT AS BANK ROBBER

Ashland, Ore. (AP)—Warrants were circulated Tuesday in cities in southwestern states for the arrest of Tom H. Cooper, wanted here as an asserted accomplice of J. R. Albright, who was killed following the robbery of the Ashland State bank, April 13.

Cooper, who is a resident of Ashland, has been under suspicion for several days. A farmer in the Red Indian country, where Cooper formerly lived, told authorities three days before the robbery that he had supper with Albright and Cooper. Red Morris, Ashland, said he saw Cooper enter an automobile shortly after the robbery. The automobile was found deserted the same evening in the Grizzly mountain area near Ashland, police said.

Authorities said Cooper was seen in Berkeley, Cal., a few days after the robbery.

Albright was shot by Hugh Bates, drug clerk. A sack containing \$100, which had been taken from the bank, was found near his body.

\$15,000 GARAGE FOR EASTERN HOSPITAL

Authorization to contract a \$15,000 garage at the Eastern Oregon hospital at Pendleton was given by the state board of control Tuesday at a short meeting. Plans for the garage were presented by Dr. W. D. McNary, superintendent of the hospital.

The board delayed consideration of plans for the new wing to the main eastern Oregon hospital one week, until the governor is given an opportunity to go over the specifications. This was done at the request of the governor.

It is expected plans for the construction of the wing, at an estimated cost of \$180,000 will be started shortly. This construction will complete the hospital units which was started in 1913, and is the fourth addition to it. Service facilities were provided in the original structure for the entire unit.

Heat Wave Rules States on Coast Frost in Interior

Portland, Ore. (AP)—Spring temperatures, borne on strong breezes and east winds, upset traditions and aroused speculation today.

Medford experienced a temperature of 85 degrees yesterday, the highest reported for the state. But on the other hand there was word from the fruit districts toward the eastern part of the state that considerable frost damage had been done by three successive nights of cold.

Red Bluff, Cal., had the maximum temperature for the coast yesterday with a reading of 94 degrees. Sacramento and Fresno each had 92 degrees.

Little Dog Who Shared Arctic Life With Byrd Passes Away In Boston

Boston (AP)—The death Tuesday of Igloo, Rear Admiral Byrd's little white fox terrier, plunged the home of the explorer into grief. The soft ways of civilization did not agree too well with Igloo who had lived so much of his six years' span in cold and hardship the inseparable companion of his explorer-master. He was a puppy in those perilous days at Spitzbergen when Byrd and Floyd Bennett flew over the North Pole. He was a full-fledged dog during the long, bitter struggle against the elements in Little America.

Igloo was presented to Byrd six years ago by an admirer in Washington. He grew from puphood in the bleak wastes of Spitzbergen, while his restless master was making history in his arctic conquest of the North Pole. In those days there grew a mutual devotion between dog and master that became stronger with the passing years.

Ruth Nichols Plans Flight Over Atlantic

New York (AP)—Ruth Nichols, within two weeks will attempt the first woman's solo flight across the Atlantic. Colonel Clarence D. Chamberlin, her aeronautical adviser, said Tuesday.

In the red Lockheed-Vega monoplane which she flew at a speed of 210 miles an hour at Detroit a week ago, she will take off from Harbor Grace, N. F., to follow the Lindbergh trail to Paris.

The airplane which belongs to the Crossley Radio corporation, Cincinnati, is being overhauled at the New Jersey aircraft factory of Colonel Chamberlain, who it is said, vainly tried to dissuade her from the attempt.

SANTIAM ROAD CREW ENGAGED

The first crew of 25 men on the North Santiam highway was signed up the first of the week with Superintendent Blackmore who will have charge of the job being in Detroit Sunday and he is expected back here again Wednesday when organization of the crew is expected to start and work will be under way within a very short time from every indication.

This information was picked up Monday by Roadmaster Frank Johnson and County Commissioner Smith who went into Detroit Monday to look over bridges between Mill City and Gates.

Johnson reported that while no machinery had been hauled into Detroit yet the road in there is now in shape for travel and no doubt there will be some movement of machinery for the job on the way within a few days.

The first job to be done is a clearing job and it is to get started on that that the first 25 men were signed up by the superintendent.

Plenty of men seem to be up there ready to the drop of the hat to go to work and more are going in daily. No indication has been given as to how many men will be given jobs but apparently there will be.

KIDNAP DOCTOR IN ST. LOUIS

St. Louis (AP)—Dr. Isaac E. Kelley, Jr., 44, one of St. Louis' most prominent physicians was believed to be held by kidnapers Tuesday, while St. Louis and St. Louis county authorities conducted a search for him.

Kelley failed to return home Monday night after he answered a sick call to an outlying district. Kelley's wife is heiress to several million dollars.

Both police and Kelley's wife were convinced that the physician was being held for ransom. Mrs. Kelley has retained an attorney to conduct negotiations should it develop that her husband was being held by kidnapers.

Kelley received a telephone call at 9:30 Monday night, calling him to a filling station in an isolated district in St. Louis county. When he failed to return Mrs. Kelley notified authorities early Tuesday morning.

Police said that a canvass of the district where Dr. Kelley was directed, failed to reveal that he had arrived. Neighbors said they knew of no call being placed for Dr. Kelley.

Want Governor For Sweetheart

Topeka, Kas. (AP)—Gov. Harry H. Woodring, Kansas' bachelor chief executive, was on the program for an address Tuesday at the annual state convention of the Business and Professional Women's club.

As he arose to speak, the 450 women delegates sang, "Let Me Call You Sweetheart."

SHIP AFLAME OFF LOWER CALIFORNIA

San Pedro, Cal. (AP)—The vessel Ruth B. is afire off the coast of lower California, according to reports received by the United States coast guard station here Tuesday.

The ship, which is believed to be Mexican, was reported southward of Esmeralda.

The crew, numbering between six and seven, after they battened down the hatches, took to a lifeboat.

The message to the coast guard station by the vessel's owner, a San Pedro man, was that the ship could not be brought under control.

Nothing is known with regard to the vessel's owner or its size and type of cargo as it is not listed in Lloyd's records.

COGS FOUNDRY BURNS

Marshallfield, Ore. (AP)—The foundry of the Coggs Iron Works, owned by J. S. Lyons, burned to the ground shortly after midnight Tuesday. The loss was estimated at \$5,000. There was little insurance. The flames for a time menaced houses in the vicinity.

MARTIAL LAW IS PROCLAIMED IN HONDURAS

President Reports Repulse of Insurgents, Predicts Tranquility

American Women and Children Seek Safety Aboard Warships

Tegucigalpa, Honduras (AP)—"Groups of revolutionists attacked Sonaguera, Sava, Tela and were destroyed. I hope soon to re-establish tranquility. The people of Honduras support the government," President Vicente Mejia Colindres, of Honduras, told the Associated Press Tuesday.

Foreign women and children, principally Americans, of Tela and Trujillo, coast cities of Honduras, Tuesday sought safety aboard ships in the two harbors from attacks of revolutionary armies harassing the north coast. While the cruiser Memphis sailed post-haste to Trujillo, the Marblehead was enroute to the danger zone.

Several hundred Americans along the northeast seaboard were not thought Tuesday to have been in real danger from the rebel armies, who some believe to be in league with the Sandino insurgent movement of Nicaragua, but fear is felt in the danger zone.

The president said he is not re-ally confident the Nicaraguan and the Sandino will be brought to justice.

The president's statement follows: "Our advice are that the Nicaraguan government has now placed in the field a total of over 1300 men of the newly created national guard in a drive to clean up Sandino and his fellow bandits. Our representatives advise that this force is several times that of Sandino and his bands. His raids upon important points have been frustrated by the disposition of the guard and protection of our citizens on the coast is made doubly sure by the presence of our naval vessels."

"Sandino has placed himself and his band outside the civilized pale by the cold blooded murder of 8 of our American civilians and many Nicaraguans at isolated places in the interior."

"The Nicaraguan government has shown itself fully cognizant of its responsibilities. It is moving vigorously, despite the difficulties created by the earthquake. While we require some time to accomplish their purpose due to the mountainous and jungle character of the country I am confident Sandino will be brought to justice."

CORTEZ TO MEET IN 3 MONTHS

Madrid, (AP)—Announcement by the government that the forthcoming constitutional assembly would meet within about three months was welcomed by republican and monarchist circles Tuesday as speeding the work of political consolidation in Spain.

Whatever the future of the nation, it appeared certain that the cabinet of Nicolo Alcala Zamora had the support of the monarchist circles. Many observers pointed out that the last 48 hours were actually the most decisive for the provisional cabinet of Nicolo Alcala Zamora and the fact that there was an orderly parade of 150,000 demonstrators and no violence in any part of the country was proof that all extremist factions will meet with firm opposition of the government and the public.

As a step toward recognition of political equality of women the women's league of the business and professional women's club, Tuesday, gave possession of the office of director of prisons in the presence of various cabinet ministers.

"This is the first time a Spanish woman has been given such a position," said Minister of Justice Fernando de los Rios. "The government hopes to encourage such activities by women."

ADMIRAL INGERSOLL DIES AT AGE OF 83

La Porte, Ind. (AP)—Rear Admiral Royal Rodney Ingersoll, 83, U. S. N. retired, died at his home here today of uremic poisoning.

He had been ill several weeks and unconscious since Thursday, life being sustained only by the fighting heart which carried him through three major wars of the United States.

World in Need Of a New House Says H. G. Wells

London (AP)—H. G. Wells, author, believes the world needs a new house.

He told the royal institute of British architects Tuesday: "We must accept the possibilities of rehousing all mankind, rebuilding every city in the world and reclaiming roads and countryside."

"We can look forward to the time people will no longer think of living in houses a hundred to a hundred fifty years old."

Mr. Wells said new means of employment would be found in great construction programs.

Hannibal's Gold Is Uncovered in Ruins

Maribor, Jugoslavia (AP)—A pot of gold believed brought to Jugoslavia by Hannibal, in the second Punic war campaign has been found near here.

Workers tearing down the building in which the Austrian Admiral Tegethoff was born found the pot, which was of earthenware and contained several hundred gold pieces of the utmost archaeological value, dating to the second century before Christ.

Carson Closes Case For Meyers With Defense of Record

Charging that he knew it to be the intention of Governor Meier to "give Meyers a fair trial and then hang him" on the strength of hearsay evidence of disgruntled, discharged employees and malcontents, 90 per cent of the evidence submitted by whom was irrelevant to the charges of incompetency and inefficiency in the administration of the state prison made against Henry W. Meyers, superintendent, by the executive, Allan Carson, attorney for the accused superintendent, Tuesday morning flayed Governor Meier for the manner in which the hearing had been conducted, charged that the hearing had been featured by evidence which would not have been admitted in a police court, submitted a long list of facts to support the contention that Meyers' administration of the prison has been competent and highly efficient.

The governor may sit and squirm and say that he is not re-ally confident the Nicaraguan and the Sandino will be brought to justice.

HANGED GIRL SECRETLY WED

San Diego, Cal. (AP)—A hidden romance and marriage in the life of Louise Teuber, 17, was hinted to as authorities sought the slayer who late Sunday hanged the girl on an oak tree on Black Mountain after stripping most of her clothing from her body.

As Sheriff Ed Cooper started to question some of the 20 or more men and the several girls whose names were found in the diary and in letters belonging to the slain girl, he was informed by a girl acquaintance of the victim that Louise had been secretly married to a United States marine.

Cooper declared that the short life of Miss Teuber, a five and ten cent store clerk, had been full of romance and affairs with men. He said he has issued orders that the reported marriage be thoroughly investigated. It was said that the marine was assigned to a ship now in southern waters.

Sheriff Cooper said he believed the girl's struggles ceased some distance from the tree after she was struck on the head by a heavy weapon. He said he was unable to subscribe to a theory that the girl committed suicide. He said he thought it would have been impossible for her to have tied the knots used in the rope.

An autopsy report revealed that there was a slight contusion caused by the rope.

MAN TORTURED BY GANGSTERS

Chicago (AP)—Two gangsters hurled inflammable acid upon Joseph Laigen, 55, attacked him with knives as the fluid exploded, and fled, leaving him helpless in the street with his clothing and face aflame.

Despite a wound reaching from the neck to the abdomen, Laigen put out the flames and crawled and staggered to the Mercy hospital two blocks away, where a priest found and resuscitated him.

Laigen, a laborer for an ice cream company, left a street car at 25th street and Indiana avenue, and was walking to work when the two gangsters appeared behind him. As Laigen lit a cigar, one of the men sprang forward and poured the contents of a bottle over his head. The fluid trickled down Laigen's face, reached the lit cigar, and flared.

The men drew knives as Laigen clawed at his face and neck, stabbed him in the abdomen, then fired a bullet into his chest.

Laigen was unable to account for the attack, but told police that a salesman who called at his home recently and sold \$18 worth of grapes was robbed as he departed and accused the laborer of having a hand in the holdup.

SHIP AFLAME OFF LOWER CALIFORNIA

San Pedro, Cal. (AP)—The vessel Ruth B. is afire off the coast of lower California, according to reports received by the United States coast guard station here Tuesday.

The ship, which is believed to be Mexican, was reported southward of Esmeralda.

The crew, numbering between six and seven, after they battened down the hatches, took to a lifeboat.

The message to the coast guard station by the vessel's owner, a San Pedro man, was that the ship could not be brought under control.

Nothing is known with regard to the vessel's owner or its size and type of cargo as it is not listed in Lloyd's records.

COGS FOUNDRY BURNS

Marshallfield, Ore. (AP)—The foundry of the Coggs Iron Works, owned by J. S. Lyons, burned to the ground shortly after midnight Tuesday. The loss was estimated at \$5,000. There was little insurance. The flames for a time menaced houses in the vicinity.

NO EVIDENCE INTRODUCED FOR DEFENSE

Filmsy Character of Evidence by Governor Calls for No Rebuttal

Decision Later: Meier, Kay, Hoss Exchange Compliments

The hearing on the charges of Governor Meier against Henry W. Meyers, superintendent of the state prison, upon the strength of which the executive had asked the dismissal of Meyers, came to an abrupt close at noon Tuesday when Allan Carson, attorney representing Meyers, announced that on the basis of the filmsy evidence submitted the defense would waive its privilege of calling rebuttal witnesses to the stand and would lay its case before the board of control to be decided upon the testimony of the governor's witnesses.

The declaration of Carson came following a morning featured largely by statements by Governor Meier, Secretary of State Hal Hoss and State Treasurer T. B. Kay and a flaying of the executive by the defense.

TOOZE TRIAL NEARING END

Portland, Ore. (AP)—The Tooze-Brown liquor conspiracy case was expected to be in the hands of a federal court jury before adjournment Tuesday. Sixteen defendants, including Walter L. Toose, Jr., prominent Portland attorney, and Joe Brown, alleged ring-leader of the liquor syndicate, are charged with operating one of the largest whiskey rings ever uncovered in the Pacific Northwest.

Since the abrupt close of the case yesterday procedure has been conducted with constant reference to the clock on the back wall.

Prosecution and defense were given 5 hours and 45 minutes each for final arguments, and both had used much of their allotted time late Tuesday. The government was expected to conclude at 5 p. m., and the charge to the jury by Federal Judge Charles Cavanaugh of Bots was to take about an hour. Whether Judge Cavanaugh would instruct the jury to return a sealed verdict could not be determined.

BIDS OPENED ON BURNS HIGHWAY

Portland (AP)—The bureau of public roads Tuesday opened bids for the surfacing of two sections on the Canyon City-Burns highway, in eastern Oregon, which already have been graded, but which had not been adequately surfaced. Early this month bids were opened for the grading of the last three mile section of the route.

Six bids were received for the 11 mile section, and 10 for the 16 mile stretch.

The low bidder on the two sections was C. E. Sibaugh of Burns whose bid on the short stretch was \$36,085, and for the long section, \$37,414.

The route will provide an outlet from Burns to a connection on the north with the John Day highway and will facilitate north and south traffic in that part of eastern Oregon.

ALCOHOL DEALER JAILED AT EUGENE

Eugene (AP)—R. J. Slow, said by police to be a big alcohol dealer, and Arthur Corneius, allegedly his employe, were arrested here Monday night, with 19 gallons of moonshine in their car.

The arrest was made as the pair was waiting in line to have the lights on the automobile tested. A traffic officer recognized the number of the car as a "wanted" rum car and arrested the men.

A key taken from Slow let officers in a vacant house where they found an elaborate layout of alcohol, bottles, coloring and labels.

The ring headed by Slow is alleged to have operated through distributing points at Eugene, Drain, Corvallis and Marshfield.

Hannibal's Gold Is Uncovered in Ruins

Maribor, Jugoslavia (AP)—A pot of gold believed brought to Jugoslavia by Hannibal, in the second Punic war campaign has been found near here.

Workers tearing down the building in which the Austrian Admiral Tegethoff was born found the pot, which was of earthenware and contained several hundred gold pieces of the utmost archaeological value, dating to the second century before Christ.
