

THOMAS SEEKS RATE HEARINGS IN THE WEST

Protest against continuing the Interstate Commerce Commission hearings in Washington, D. C., on the application of railroads for a 15 per cent freight rate increase, instead of holding rate hearings in the west, was sent to the national capital Monday by Charles M. Thomas, public utilities commissioner.

The commissioner was advised by commissions of Iowa, Kansas, Wisconsin and North Dakota that the Security Holders will urge that the hearings on the increase be concluded at Washington, without recess or hearings elsewhere as previously announced. The Oregon commissioner and shippers had asked that one of the hearings be held in Portland.

Thomas in his message said "The granting of this request that no other hearings be held, would be extremely unfair to those most vitally interested, the shipping public. Lack of time and necessary funds would preclude opportunity for Oregon protestants to prepare and submit important evidence in rebuttal to carriers' application. On behalf of Oregon shippers most earnestly protest any change in previously announced plans for later hearings."

Society

Glen Dora and Harry, of Salem; Mr. and Mrs. Andrew Holland and daughter Lucille of Silverton, Mr. and Mrs. Lewis Hall and children, Evelyn and Raymond of Gervais; Albert Hall of Eroken Bow, Nebr.; Gladys Hagen, Silverton, Eunice Weinman of Salem, Mr. and Mrs. Fred Weinman and children, Grace and Roger of Waconda, Mrs. Mattie Rumph will be remembered as Leah Weinman, youngest daughter of Mr. and Mrs. Andrew Weinman and sister of Fred Weinman.

Waconda—Mr. and Mrs. C. Wade, and Mr. and Mrs. Jake Walker and children, Beattie and Bobby, of Los Angeles, Calif., have been guests at the Fred Weinman home.

Mr. and Mrs. Allen Hutchins spent the week-end at the coast.

Mr. and Mrs. Kenneth Rich are spending the fortnight at Oregon beaches.

Mrs. Walter Barsch and son, Jack, of Oakland, Calif., who are spending the summer with Mrs. Barsch's mother, Mrs. John A. Carson, left Tuesday for Portland to spend the remainder of the week. Mrs. Barsch will visit with her sister, Mrs. Hugh McCammon, and with Mrs. George Powell, and will be the guest of Mrs. Lawrence Hofer for the coming week-end.

Felicitations are being received by Mr. and Mrs. John B. Stump, Jr., of Monmouth, on the birth of their first child, a boy, at the Salem General Hospital Sunday night. The young lad has been named John B. III, and is the grandson of Mrs. L. F. Griffith of Salem and of Mr. and Mrs. John B. Stump, Sr., of Monmouth. Mrs. Stump, Jr., will be remembered as Ruth Griffith.

Kingwood—Mrs. Glenn L. Adams entertained at her home on Green Creek road and Parkway the members of the sewing society of the auxiliary to the Sons of Veterans, and some additional invited guests. The city members many of them were brought out from town by the West Salem bus, which made a special trip to this suburban home on Kingwood Heights. Refreshments, needlecraft and conversation were enjoyed.

Dr. and Mrs. C. W. Beechler motored to Taft Sunday for the day.

Miss Alberta Milk of Dallas is the house-guest of her grandmother, Mrs. Avis Martin.

Oystermen Busy
Hoguan, Wash. (UP)—June having no "R," oystermen consequently take advantage of the slack season to replenish their stocks. More than \$10,000 worth of oyster seed in 1000 cases were transferred to oyster grounds here for planting in commercial and private oyster beds.

Put An End To Bunion Pains

Don't Suffer Another Day

There is one simple yet inexpensive way to reduce inflammation of swollen toe joints and help get them somewhere near normal and that is to apply Moore's Emerald Oil night and morning.

Ask Capital drug store and Perry's drug store or any first class druggist for an original two-ounce bottle of Moore's Emerald Oil (an 85c bottle lasts 2 weeks) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces lasts a long time and furthermore if one bottle does not give you complete satisfaction you can have your money refunded.

DIAMOND 'BEATS THE RAP' AGAIN

Good luck has not deserted Jack "Legs" Diamond, the much arrested and shot at New York gang leader. He was acquitted by a jury at Troy, N. Y., of charges of assaulting and torturing Grover Parks, a truckman. He is shown here (center) with guards at the end of the trial.

U. S. GIRLS SEEK JOBS IN FRANCE

Paris, (UP)—According to Leo J. Kenna, of the United States consulate-general in Paris, American girls are exhibiting a greater spirit of adventure than American boys in seeking to secure full or part-time jobs in the French capital.

"They all seem to think," said Kenna, "that life is unusually glamorous here and that work is easy to find. They are all motivated by a spirit of adventure, and many of them want to leave their good jobs at home and come over here on the faintest something to do. The deplorable truth, in most cases, is that the young women have just enough money for a one-way ticket."

As fast as these letters pour into the American consulate—and they are increasing every day—they are answered courteously but firmly, stating that getting work of this kind is practically an impossibility. The labor office here has shut the lid down tight, giving what em-

ployment is to be offered to their own out-of-work citizens first. Later, if there are extra jobs to spare, they will loosen the rigidity of the present ruling.

"Since April 1," continued Kenna, "I have received letters from more than eighty localities, ranging from rural towns to the largest cities in the United States, and the same is true of the consulate offices in London, Berlin, Rome and other European capitals. In fairness to these people, the majority of whom are girls and women, we make a desperate effort to discourage them."

Big Barley Tonnage Awaiting Shipment

San Francisco (UP)—The greatest amount of grain ever held in the state grain terminal here—38,000 tons of sacked barley, valued at \$1,520,000—now awaits shipment, according to the state harbor board.

Many tons are arriving daily, wharfingers in charge of the grain stated. Several thousand tons also were left over from last year's crop. The bulk of the grain will be shipped to England and the continent, it was said.

IBANEZ DECREES CHANGE STATUS OF CHILEAN LAW

Santiago, Chile (UP)—President Carlos Ibanez del Campo took the breath out of Chile's congress when it reassembled after a three-month recess.

He showed them 350 decree laws which he had added to the nation's statutes under extraordinary powers which made him both executive and legislature.

Congress is inclined to mumble about the number of these decrees, but the country is giving the representatives and senators little sympathy. It feels that the congressmen gave the extraordinary powers to the president and now must make the best of it.

The president got his special powers on the plea that Chile was just getting the effects of the world economic crisis. He argued that the executive should be made legally capable of doing anything that he deemed best for the nation in emergency.

Even hostile observers acknowledge that much good accrued. A way out of slow legislative procedure had to be found, and the president's friends maintain that he took the right course.

Most important changes were made in the laws governing the COSACH, or government-producer nitrate combine. They made easier the insurance of nitrate securities and were aimed at aiding Chile's chief industry back to its feet.

Taxes were raised on almost everything where salaries or exchange or money was involved. Speculation on the stock exchange was forbidden although the regulations permit dealings in futures.

A decree defining the "security of the state" made things disagreeable for persons trying to undermine the government. This included a novel press order which permanently censors foreign correspondents personally, making it unnecessary to maintain censors in cable offices, post offices and telephone exchanges.

considered so unusual, but Maurice Koslove, dancing master, owns a watch that is not only running after 117 years, but tells the year, month, day and whether it is day or night.

MAYOR FINES SELF
Salem, O. (UP)—Mayor John M. Davidson drove through a red traffic signal. He returned to his office and fined himself \$2. He paid the fine.

South Africa will spend \$2,000,000 toward the proposed London-Cape Town air service.

BUMPER CROPS TO PUT SOUTH BACK ON FEET

Memphis, Tenn. (UP)—Twelve months after the worst drought in the history of the south, business, agricultural and community leaders are looking to prosperity by the means of bumper crops.

The 1930 drought began in May and lasted upwards to 100 days. This year, however, danger of a South-wide drought has been dissipated by sectional rains that have fallen intermittently.

Furthermore, reports do not alone deal with cotton, for the past many years the sole crop of the south, but tell of progress of gardens, hay and grain crops, potatoes, small fruits and orchard stuffs.

The Mississippi delta, rich cotton producing territory, is planted to other crops for the first time in many years. A large hay crop was harvested early this spring from delta lands, and oats as tall as a man are a common sight.

Agricultural leaders in Arkansas have already given officials of the American Red Cross assurance that that state will be self-sustaining this winter, the reason being that thousands of household gardens have been planted and barnyard fowl and animals are being raised.

The Red Cross took the initiative in this campaign last winter, when thousands of packages of seeds were distributed free of charge. Alongside of this campaign, state, county and community agricultural workers began an educational campaign toward proper garden handling. While Arkansas, perhaps, received

most publicity because of the suffering of its stricken farmers, conditions in parts of Mississippi and in Western Tennessee were as serious.

In each of these two sections the crops are reported in good condition. Corn, beans, and other garden truck are reported in good condition and, with normal rainfall, will prosper. Credit conditions, while hampering many farmers this spring, have resulted in two benefits to the south generally: the original producer was forbidden by lack of credit from farming and, secondly, marginal land heretofore planted, though its return was small, was untilled this year.

Pennington Gap, Va. (UP)—Kyle Ellison reported he killed an eagle with a 10-foot wing spread near here.

PAIN IN YOUR SHOULDER?

Use Tysmol for Relief

Knife-like jabs of pain in the vicinity of the shoulder blade are generally due to neuritis, brought on by exposure to draughts or sudden changes of weather. In some cases there is stiffness or soreness in the muscles, making it difficult to raise the arm.

The safest and easiest way to relieve such an attack is to apply a small quantity of Tysmol over the affected area. This soothing, healing preparation is quickly absorbed through the pores and carried to the throbbing aching peripheral nerves. The pains usually stop at once, and in a very short time the last trace of soreness should disappear.

Tysmol is absolutely harmless—free from dope. Recommended for all forms of nerve pain, whether caused by neuritis, neuralgia, sciatica or rheumatism. Sold by leading druggists. Always on hand at Daniel J. Fry.

Beware when told "It's just like Kotex"

WHEN a substitute claims to be "just like Kotex," ask where it was made. By whom. How is it used by leading hospitals?

Only when these questions are answered to your complete satisfaction, as Kotex answers them, can any substitute justify its claim, "just like Kotex."

After all, why take risks? You know the wonderful safety of Kotex—the world's standard in sanitary protection. Don't give up this assurance... even if a few pennies' saving is offered by a nameless substitute, of whose makers you know nothing.

Every refinement of comfort is offered by Kotex. Its softness lasts. It is adjustable, disposable, and may be worn on either side. It is treated to deodorize.
