

SUNDAY RALLY 4-H CLUB PLAN AT STATE FAIR

The Boys and Girls 4-H club program, always a prominent part of the Oregon State Fair, will be changed this year to take advantage of the longer fair if plans now in the hands of H. C. Seymour, state club leader, are fully carried out.

Instead of opening the program on Monday Seymour plans to start with a rally on Sunday afternoon. The custom of previous years was to bring in the boys and girls who qualified for a trip to the fair for the first half of the week, and some of the rest for the second half.

It will still be necessary to follow this arrangement for many of the clubbers, Seymour said, who in conference at Salem recently with Max Gehlhar, director of the department of agriculture; and Mrs. Ella S. Wilson, secretary of the fair.

The two-story dormitory on the fairgrounds built especially for the 4-H clubs of Oregon has recently been renovated in preparation for the coming fair. The special livestock barns for 4-H club entries have been overhauled, thoroughly cleaned, and several huge loads of straw bedding brought in.

Director Gehlhar has placed the full resources of the fair organization at the disposal of Mr. Seymour. Besides the rally program a special night fireworks display will be held on Monkey Island.

Two boys and two girls out of more than 1,000 to attend this year's fair will be awarded signal honors for outstanding work. As tokens of achievement these four will be awarded gold watches purchased by Guy Talbot of Portland, E. L. King of the Southern Pacific railroad will entertain in his private car at a dinner Governor Meier has promised to attend.

Still another reward for these winners will be a trip in August, 1932, to Crater Lake, where they will be guests of Richard Price, manager of Crater Lake Lodge.

Last year's winners are Walter Jaeger of Wilsonville, Joe Rogers of Independence, Helen Clark of Portland and Elizabeth Rutherford of Maupin. They will leave Salem the last week of August for Crater Lake on transportation given them by Governor Julius L. Meier and personally paid for by him.

In every part of Oregon 4-H clubs are finding and making ways to come to the State fair. Word from a few clubs has already reached Salem. Club girls in Umatilla county met in Hermiston recently to plan their fair exhibit. Lucille Matteson and Violet Wick of Hillsboro got second place in the cookery demonstration last year. Lucille is out for first this year. Two sewing clubs at Wallowa have decided to come in a body and will hire a truck for the trip. Union, Umatilla and Baker clubs have been getting pointers for the fair competitions.

SECRETARY, FILIPINO LEADER MEET

Patrick J. Hurley, (left) secretary of war, and Manuel Quezon, president of the Philippine senate, discuss insular problems just before the trip because of illness.

ENGLISH SEEK ARMS CUT BY GENEVA LEAGUE

Geneva (UP)—England and the dominions have brought a fresh moral pressure to bear upon other League members for an actual reduction of armaments at the 1932 disarmament conference.

In notes addressed to the secretariat both by the mother country and the various dominions who are independent members of the League, notice has been given that they cannot accept the necessary amendments to the covenant to bring it into harmony with the Kellogg pact until the bringing into force of a general treaty for the reduction and limitation of armaments.

The question of harmonizing the two documents is one of vital importance to the smaller members of the League, who count on the incorporation into the covenant of the Kellogg pact abolishing war as constituting for them one of the greatest guarantees of security.

FRENCH PLACE RICKSHAW BAN AT EXPOSITION

Paris (UP)—One of the most "colonial" of all the features at the Colonial Exposition apparently was suppressed; namely, the existence of scores of lightfooted and ubiquitous Annamite boys rushing people about the exposition grounds in rickshaws, or what they call pousse-pous.

Although they term them push-pushes in French, these little two wheeled and delightful vehicles are really pulled.

It seems that the League of the Right of Man got to worrying about the rights of Annamites. Because the Annamite too closely resembled a beast of burden in this occupation, his invigorating and picturesque uses were prohibited. The pousse-pouses are all idle, unless some of the League of the Rights of Man fell like taking on the job themselves.

A backward spring did not materially help push things in Paris. Rain and fog and mist and cold winds persisted throughout northern France into May, and in fact so rare was the sunshine that the Lido, one of the swimming-pool, tea garden and drinking establishments in the Champs Elysees, went out and invented its own sun. Special electric lamps were arranged along the marble strand of the emerald green water, and, as customary on the Lido in Venice, the pajamas bloomed over night.

Parisians come to bask in the sunlight and lie about in pajamas.

SPECIAL SHORT WAVE TO AID RADIO PHONES

Paris (UP)—A new method of short-wave radio telephony, demonstrated at Trappes, is considered in Europe as one of the most interesting experiments in transmission in recent years.

Experts who gathered at the radio station of Le Materiel Telephonique witnessed a demonstration by which the transmitting station automatically kept the receiving station tuned in.

The method, which is called the single slide band system, is based on the discovery that only a part of the ordinary radio wave is essential for perfect reception, provided the received is kept exactly tuned with the transmitting station. The maintaining of this special tuning at 18,000,000 vibrations per second baffled radio research men until recently.

The secret was found in the system of sending out a special wave, called a pilot wave, for the sole purpose of keeping the receiver in tune.

Engineers found that the pilot wave could actually keep both ends of the communication in tune.

A radio circuit was established between the Trappes laboratories and the laboratories of the Spanish National Telephone company at Madrid and the radio men reported that it was satisfactory.

The new method is reported to be of great advantage, as it permits a station to operate with as little as one-sixth of the power necessary to transmit and keep in tune under the present systems.

CHURCHES

FIRST CHURCH OF GOD—Hood & Cottage Sts. C. W. Hatch, pastor. Services at 11 a.m. Subject "Sunday School." Evening services at 7:30 p.m. Preaching, Sunday school at 10 a.m. John Van Linder, supt. Young people's meeting 6:30 p.m. Subject "Value of Christian Work."

MOON OF DELIGHT

(Continued from Page 6)

Juanita were supposed to have left New Orleans. "For your own protection," Divitt had said. "What with you and Juanita taking French leave of the Stars—"

"The Tjon had explained that Juanita had taken ill that night, and that the marquessa had brought her home. Later the marquessa had written a note to Kirk, had written also to Mrs. Bealaise under Divitt's direction. Juanita, wrote the marquessa, after being suddenly very ill, was able to travel. She—the marquessa—was taking her to a higher altitude. Where this higher altitude might be the Tjon was not instructed to say, nevertheless, they were gone to it and the marquessa must not appear on the streets.

The marquessa would not ordinarily have submitted to this cloistering. She would have withdrawn to freer air, if not indeed to higher altitudes. There were reasons, however for her lingering and lingering peacefully.

Report Shows Lake Erie Fishing Better

Harrisburg, Pa. (UP)—Commercial fishing conditions in Lake Erie are improving steadily after a disastrous slump, the board of fish commissioners of Pennsylvania announced.

At the same time the board made public plans for a general conference to discuss conditions on the Great Lakes to be held at the Museum of Science, Buffalo, N. Y. in October.

Lynn, Mass. (UP)—Born without ears, Frank Litch, 10, now hears with the aid of artificial ears. The false ears, attached to the head with adhesive tissue, may be removed at will and replaced, like false teeth.
