BOX CAR BURNS ON SIDE TRACK INDEPENDENCE

Independence—A fire of unknown origin broke out in a Southern Pacific freight car, setting empty on a siding in the north part of town, Thursday morning and an alarm sent in to the local fire department, caused a rush of all fire equipment to the scene of the blaze.

The car was one of several which had been sidetracked, and was probably used by hobos during the night. The fire had gained considerable headway before the firemen arrived and consumed two cars and damaged a third before they could be removed to a place of safety.

The passenger train arrived on the scene from the north and assisted in pulling the unburned cars to another part of the side track. The train was delayed by the fire for half an hour. Water was run from the engine tank to put out the fire, as the city water could not be reached. Chemical apparatus was used to but little advantage.

There was great danger for a time of grass fires which would lead to the oil tanks of the Standard Oil company and Union Oil company in that vicinity.

The party left Silverton at 9 o'clock Thursday to inspect the several projects around here. In the afternoon the Woodburn projects were visited; Friday morning Canby projects were visited and Friday afternoon the party is in the Molalla district.

It was planned to visit at least four projects in each district observing the crops, animals and accomplishments.

Crabtree visited Ted Riches project in the Waldo Hills Wednesday and made a 40-foot movie of this place.

Mr. Riches, a graduate of Silverton high is operating the Mrs. F. Aubaugh 370 acres on shares, and his farm enterprise consists largely of Holstein cattle, two breeds of swine, two of sheep, one of goats, blooded poultry and diversified grain and hay crops.

Riches is one of the most promising Smith-Hughes future farmers in this whole community.

Crabtree is pleased with the 45 Silverton high school boys and their projects. Besides these there are many who have already been graduated and are continuing their projects.

These boys are planning to show at the Canby fair with livestock and crops. They will also help put in a special Smith-Hughes booth which will be 42 feet long and will be built in the new agricultural products building.

The Canby fair board has offered \$200 for cash prizes for F. F. A. prizes and another \$100 will be raised to be put with this.

FERRY IS GUARDED AT INDEPENDENCE

Independence—The guard from the penitentiary, stationed at the ferry crossing the river at this point, was called in Wednesday evening following the capture of Frank O'Brien near Jefferson. The guard had been stationed here to guard the crossing of the river and it was thought at one time that a clue was found which might lead to his apprehension, as he was thought to have friends near Vila Springs.

At this season of the year when there are so many strangers in here for the hop picking season it would be difficult to locate a criminal, although there are a number of deputy sheriffs and traffic officers in this territory.

This is the only ferry crossing the river between Salem and Buena Vista. These ferries are usually well guarded at this time of the year.

It is not generally known as yet just what sort of product the plant will concentrate on, but it is rumored that woollens for weaving apparel will be one of the chief products. Because of the past operations of the local mill there are many people in the vicinity who are experienced in this line of work and little difficulty is anticipated in obtaining skilled workers.
