

### LIBRARY GETS GOOD SUPPORT AT WILLAMINA

Willamina — A n enthusiastic group of women attended the tea given at the city hall Tuesday in the interests of the establishment of a public library. Mrs. Rant Neely and Mrs. Kenneth Shetterly poured the first hour. Mrs. Paul Pundman and Mrs. Hugh Flanery presided the second. They were assisted by the Misses Margaret Pundman, Maxine Shetterly, Mildred Drake and Christine Jensen.

A start of 75 very desirable books was collected at the tea. Every one present seemed most enthusiastic in regard to bringing the library back to Willamina. Different plans were discussed and it was finally decided to meet next Tuesday afternoon at 2:30 o'clock at the city hall, to complete the organization and make further plans.

Mrs. F. G. Drake told of the start and growth of the library at Junction City of which she was in charge, showing a picture of the newly completed cement building in which the library has a conspicuous corner.

Mesdames Drake, Rant Neely, Paul Pundman, Glen Wilcox and Kenneth Shetterly were chosen as a committee to attend to the details of organization. They were instructed to draw up a petition to be circulated in the community whereby everyone may become library boosters by the payment of five cents and a member of the organization by the payment of 10 cents. This money is to be used for the supplies necessary to the start of the library.

### POLK FIRE WARDEN IN DAMAGE ACTION

Dallas — Marguerite Thrash and A. R. Thrash have filed suit in the circuit court seeking a judgment against Hugh Walker who is Polk county fire warden. The complaint alleges that the defendant was driving in a westerly direction on the Dallas-Falls City road on the morning of May 18 at 6:40 o'clock, operating a Ford truck which is the property of the state. The plaintiff is the owner of a 1931 Chevrolet sedan and on the morning in question it was being driven in an easterly direction on the road. The plaintiff further claims that the defendant failed to keep a proper lookout, and that his car was not under proper control, that it was being driven at a dangerous rate of speed, and that he carelessly ran into the plaintiff's auto causing it to be damaged to the extent of \$117.90. As a further result the value of the automobile has depreciated to the extent of \$200. While the car was being repaired, a period of seven days elapsed. Loss of use of the car is set at \$10 per day. The total judgment asked amounts to \$387.90 with an additional \$35 as attorney's fees together with the costs and disbursements of the suit.

### MOLALLA WILL START SCHOOL SEPTEMBER 14

Molalla — The Molalla grammar school will open September 14 which is a week later this year than usual in order to give all the pupils who are working in the harvesting of crops the advantage of the extra work.

The grade school faculty for this year is the same as that of last year. Miss Beryl Blosser and Miss Louise Andrus will for the second year teach the primary grades and have charge of the music. Miss Edna Welch for the fourth year will teach the intermediate grades. Miss Edith Baker for the second year will have advanced grade work. W. E. Dillon for the fourth year will be back as principal and teach advanced grade work.

Because of the heavy enrollment which is to be taken care of without addition to the teaching force, it will probably be necessary to rearrange the grades in the different rooms. The primary grades of last year numbering 28 ordinary would go into Miss Andrus' room with the second grade numbering 22, making a combined enrollment for that room of 50. The seating capacity of the room is from 35 to 38. It will therefore be necessary to split the second grade, part going in the second grade room with the third grade and part in the primary grade room. The same situation holds for the sixth and seventh grade room. Part

### WOMEN DO NOT TALK MUCH about feminine hygiene but they know these facts

Even when they say little, most women know that feminine hygiene is a healthful and necessary part of the toilette. Modern standards of dainty living demand a real, surgical cleanliness.

This much the woman of today does know. But usually she is not so clear about the choice of an antiseptic for the purpose. This question has now been solved by the new preparation called Zonite. This antiseptic is fast replacing caustic poisons such as bichloride of mercury and compounds of carbolic acid. No woman need fear to use Zonite herself or to recommend it to her friends, for it is absolutely non-poisonous. Zonite is as safe as pure water and far more powerful than any dilution of carbolic acid that may be allowed on the body.

All druggists sell Zonite. Get a bottle and read the directions.
