Eastward ho! Four thousand miles nearer the rising sun—let's go! To the land of mosques and minarets—so different from our skyscrapers, stacks and steeples.

Let's see this strange, strange country. Let's see the land where the tobacco* grows

in small leaves on slender stalks—to be tenderly picked, leaf by leaf, hung in long fragrant strings, shelter-dried and blanket-cured. Precious stuff!

Let's taste that delicate aromatic flavor—that subtle difference that makes a cigarette!

XANTHI . . CAVALLA . . SMYRNA . .

SAMSOUN . . famous tobaccos!

*Turkish tobacco is to cigarettes what seasoning is to food—the "spice," the "sauce"—or what rich, sweet cream is to coffee!

You can taste the Turkish in Chesterfield—there's enough of it, that's why. Chesterfield has not been stingy with this important addition to good taste and aroma; four famous kinds of Turkish leaf—Xanthi, Cavalla, Samsoun and Smyrna—go into

the smooth, "spicy" Chesterfield blend.

This is just one more reason for Chesterfield's better taste. Tobaccos from far and near, the best of their several kinds—and the right kinds. And pure, tasteless cigarette paper, the purest made. The many requisites of a milder, better smoke, complete!

That's why they're GOOD—they've got to be and they are.
