Deafness and Head Noises From Catarrh

If you have catarrh, catarrhal deafness or head noises caused by catarrh, if your nostrils are clogged or if pollen drops in your throat causing catarrh of the stomach or bowels, secure proper treatment at once. Otherwise you may lose your health, become a weak, catarrhal wreck with your smell, taste and hearing completely gone. Sprays, salves and inhalers may bring you temporary relief, but permanent escape from this dangerous, health-sapping, disgusting disease can only come from a constitutional treatment that will expel the catarrhal poison from your system. So go to Perry's Drug store or your druggist today for an ounce of Parmital, take this home and add to it a little sugar and a pint of water. A tablespoonful taken four times a day will set upon the blood and mucous membrane and bring relief. Think what it will mean to breathe free, to hear, to smell, to taste, and arise in the morning refreshed and strong, with clear head and throat free from all pain. Certainly you cannot enjoy or benefit from life so long as you are afflicted with catarrh. So for your own sake give Parmital a trial—start treatment today.
