

PRODUCTION OF BUTTER LOWER; DEMAND BETTER

Portland, Jan. 21 (UP)—Lowest price ever named for eggs in the local market during the current month are now being quoted here as a result of complete demoralization of the eastern trade. At the reduction, the local market is still on a higher basis than the eastern market, cost of setting supplies to the Atlantic considered. The cutting of 2 cents off the price of extra 16 cents with standard 15 cents and medium 14 cents is confirmed by Manager Dixon of the local co-ops, effective Friday morning. New York dropped to 23 cents for extras and 19 cents for mediums, which means 14 cents here for extras and 10 cents for mediums. Some of the cash buyers have reduced their buying price to 8-10 cents dozen country.

Portland, Ore., Jan. 21 (UP)—Decreasing make of butter continues to be reflected in the local trade. Much similar situation is shown at practically all Pacific slope points. Some late decreases in eastern churning is indicated. Demand for butter continues to gain and is now reported at fully a third more than it was previous to the late cut in the price. Two bit butter in some of the leading retail shops appears a very popular move and has forced a considerable surplus into consuming channels. In general only weakness is reflected in the market for eggs. No change in the price was announced by the Pacific co-ops. But some deals in mediums are reported at reductions. These are weakest. Very small supplies of live chickens are reaching the local trade but practically none appear wanted at the moment. Prices continue weak all around with killers determined to clean up their batteries before moving.

There is a good local demand for turkeys but little change is shown in prices. Buyers are generally offering 20c lb. for fancy birds. Home demand for immediate consumption is good at the low price. Columbia river snail schools are badly scattered. The high water and drift wood are blamed. The fish are said to be swimming mostly in the brush along the shore. Priced nominally at a nickle a pound. Run of steelhead salmon appears about over in the Columbia and the coast streams are closed. Fresh Alaska Kings are arriving and selling 25c lb. with head on. Crabs are scarce with orders unfilled. Limited sales of onions are reported at Willamette valley points. Business in carload lots continues \$3.50 sack net to growers. Most growers are still unwilling to accept price tenders.

On account of superior quality, the movement of local hothouse rhubarb is better than the summer stock on the Portland market. Price cutting has practically eliminated profits of handlers. Large sized oranges are again lower. Lettuce market is down another quarter, and weaker. Tomatoes are very slow for Mexicans on account of the price. Hothouse stock is slow but apparently steady.

Slow demand for hothouse cucumbers. Prices nominal. Artichokes are steady to a trifle easier at a spread of 90c to \$1.20 according to size. Veal market appears a trifle easier in spots but general prices are unchanged. Hogs steady and lambs firm. Cheese remains weak with intermediate stock underselling the coast offerings.

Portland, Jan. 21 (UP)—Cattle 100, calves 100, nominally steady. Steers, 600-900 lbs. good \$3.50-4.75, medium \$3.00-4.50, poor \$2.50-3.50. Hogs, 100-150 lbs. good \$5.00-6.00, medium \$4.50-5.50, poor \$4.00-5.00. Sheep, 100-150 lbs. good \$4.00-5.00, medium \$3.50-4.50, poor \$3.00-4.00. Poultry, 100-150 lbs. good \$1.50-2.00, medium \$1.25-1.75, poor \$1.00-1.50. Eggs, 100-150 lbs. good \$1.50-2.00, medium \$1.25-1.75, poor \$1.00-1.50.

Rural Telephones Ask Slashed Rates

Received below the operating costs, Superintendent Collins told representatives of the rural lines. "I can't see how the rates can be reduced. I presume because you think North county is the biggest territory in the telephone business, it is expected that the Portland milk shed will have to use cow free from infectious abortion as well as tuberculosis in the near future. In addition, California is beginning a real effort to clean out tuberculosis with the result that several hundred head will be shipped out of Del Norte county in the immediate future to be slaughtered because of their being reactors. This means that both of these districts will be looking elsewhere for animals free from disease to re-stock their herds. Mr. Beck states that he is urging dairymen of this county to make a real effort to clean out infectious abortion from all of their herds so as to be in a position to supply the cows when the price of healthy animals goes up.

Alienist Attacked by Trunk Slayer

Terling, "I won't have him near me. He talks about me. He's acted like a little boy!" She sat nervously clasping and unclasping her hands glaring at the man through which Catton had disappeared. Mrs. Judd is on trial for the slaying of Agnes Anne LeRoi and Hedvig Samuelson, her friends, here last October and sending their bodies to Los Angeles in trunks. The taking of testimony started today following selection of a jury.

Bondholders of Long Bell Saved

New York, Jan. 21 (UP)—In accordance with the suggestion of R. A. Long, chairman of the board of the Long-Bell Lumber company, that a committee be formed to protect the interests of the company's bondholders, Halsey, Stuart & Co. announced today the completion of arrangements and acceptance by all the members. Halsey, Stuart & Co. stated the committee was composed of many prominent middle western business men, including James R. Leavelle, president of the Continental Illinois Bank and Trust Co., E. F. Swinney, chairman of the board of the First National Bank of St. Louis.

Milk Inspection Being Simplified

Simpler and less expensive methods of determining milk quality are being used by E. Blinckhorn, dairy and food inspector with the county department of health, according to letters being sent milk producers in the Salem milkshed. Because of reduction in the item of laboratory expense in the 1932 budget, Blinckhorn is continuing to make the regular tests on all bottled milk sold in Salem, but from the samples that are taken of producer's milk he is using the reduced test for the remainder of the year.

Chimney Fire Suburn One; Bees To Blame

Monmouth—A chimney fire at the home of Miss Cassie Stump burned for three hours in spite of the efforts of the local firemen to extinguish the blaze. The mystery was explained when it was discovered a swarm of bees had built a hive in the chimney during the past summer. Large quantities of comb and honey, loosened by the heat, dropped into the fireplace below and had to be carried out in buckets. The chimney which is a large one was built 35 years ago.

Scores of Oregon Butter Improving

Portland, Jan. 21 (UP)—Scores of Oregon butter at the monthly scoring contest held at Oregon State college are improving. This month's was reported by a scorer as the best to date. The much touted New Zealand butter received a high rating during the contest. A shipment was received but its identity was not made known until after the scoring. It scored from 87 to 89. A June make of Oregon butter scored 93 to 93 1/2.

Dairy Herds of Polk County in Good Shape

Dallas—Dairy herds of Polk county are in a healthy condition. Dr. H. D. Peterson, county veterinarian, reports that the amount of infectious abortion is being cut down and that for several years the county has been on the modified accredited list as free from bovine tuberculosis. Dr. Peterson reports that during the past two years he has tested 12,178 and of these for tuberculosis in a total of 2013 herds. Out of this number which represents practically every animal over a year old in the county, only one reactor was found. This is a record that the dairymen of the county should be extremely proud of, particularly when it is considered that a good many animals are shipped into the county from other areas from time to time. Interest in testing for infectious abortion is increasing all the time, according to Dr. Peterson. During the same period he has made 2149 tests for infectious abortion in a total of 248 herds. One hundred ninety-nine of these herds have passed at least one test without a reactor.

Wheat Closes Fraction Below Previous Level

Chicago, Jan. 21 (UP)—Wheat was easily influenced on the board of trade today but every decline met strong buying. A late setback encountered support and prices rose quickly to around the best levels and the finish was at good gains. Conflicting reports gave the market an erratic flavor but the range was narrow most of the session. Corn moved with wheat on local buying but the best figures were not maintained. Oats again shadowed the dominant grains.

Oregon City-Salem Widening Endorsed in Retail Demand

Corvallis, Jan. 21 (UP)—Potatoes were stronger in Corvallis markets today with quotations at 60c points according to the O. S. C. marketgram released today in cooperation with the United States bureau of agricultural economics. Trading was steady at Los Angeles with quotations showing recovery from yesterday's slight lull. Potatoes were 55c and Yakima sales weekly at \$13 ton with trading weak.

Dairy Association To Meet Saturday

Turner—The annual meeting of the Turner unit of the Dairy Co-operative association will be held all day Saturday in the high school auditorium. Dairymen and their families are invited to attend, an instructive and informative program being arranged by the committee. The principal speaker will be Max Gehlbach of Salem, agricultural director. A business session will take place in the morning, and a basket dinner enjoyed at the noon hour. A cordial invitation is extended to the public. Officers of the cooperative are: president, Lawrence Roberts; secretary, Robert Schaefer; directors, Lawrence Edwards, Fred Mitchell, Alfred Anderson and C. A. Bear.

Home Treatment for Head Colds, Catarrh, Bad Throat and Coughs

There's just one way to gain freedom from and keep free from head colds, catarrh, bad throat and coughs all winter long. Tens of thousands of intelligent people, druggists and physicians, have tried night and morning with pleasant, effective, inexpensive Opek. Opek keeps nostrils free from offensive mucus all the time. It's a clean, muscous, stuffed nostrils in 3 minutes. One bottle of Opek will cure you while you sleep.

Here's the Way to Treat Rhinitis

A marvelous home treatment that anyone can use. Any Rhinitis, Large or Small. COSTS NOTHING TO TRY. Thousands of ruptured men and women will rejoice to know that the full plan by which Capt. Collins created himself for nose and throat from which he was helpless and bed-ridden for years, will be sent free to all who write for it. Name and address to Capt. W. A. Collins, Inc., Box 982-S, Watertown, N. Y. It won't cost you a cent and you'll gain a fortune. Hundreds have already reported satisfactory results following this free test. Send right away NOW before you put down this paper.

Small Losses Feature Trade in Stock Mart

New York, Jan. 21 (UP)—A sell-off in wheat and other grains brought a reaction into the stock market after the list had held firm throughout most of the day. Prices turned irregular. Steel common which had approached 47, fell back a point and other industrial leaders behaved similarly. In the railroad group, recessions were noted and utilities dipped to around previous closing levels.
