### THE PENALTY OF GRAY HAIR

Gray Hair! Advancing age... slipping... all these unpleasant ideas seem to go together. But they can be avoided. For gray hair often comes to a young head. And those who have it are neither old nor incapable. Let people will say "Why, she has gray hair" and—she's on the shelf. Such a penalty need no longer handicap the woman who uses Cascade Water. This is a clear, sparkling, spring-like water which actually re-colors hair to its original girlish shade. No complicated "coloring" process. No irritating brassy tints when your hair is blonde. Not only the one kind but back on the job with a wash. Get Hill's now. It is a scientific formula made to do one thing well: to knock a cold—not to cure a thousand ailments. Get your money back if it doesn't work with twice the speed of anything else you've ever tried.
