PAIN IN YOUR SHOULDER?

Use Tysmol for Relief

Knife-like jabs of pain in the vicinity of the shoulder blade are generally due to neuritis, brought on by exposure to draughts or sudden changes of weather. In some cases there is stiffness or soreness in the muscles, making it difficult to raise the arm.

The safest and easiest way to relieve such an attack is to apply a small quantity of Tysmol over the affected area. This soothing, healing preparation is quickly absorbed through the pores and carried to the throbbing aching peripheral nerves. The pains usually stop at once, and in a very short time the last trace of soreness should disappear.

Tysmol is absolutely harmless—free from dope. Recommended for all forms of nerve pain, whether caused by neuritis, neuralgia, sciatica or rheumatism. Sold by leading druggists. Always on hand at Daniel J. Fry's. —adv.

Heavy Business Dealt By Silverton Council Meeting Monday Night

Silverton—Final reading and adoption of city ordinance No. 253, known as the depository ordinance, designated time for cleaning up the town of Silverton, change in methods and time of cleaning the streets in the business section, discussion of the custom of all night parking, health reports of dairies, librarian's report, discussion of the advisability of street skating or bicycle riding on the sidewalks, the reading of the reports of various committees, and considering a number of petitions, were among the undertakings of the Silverton city council at the regular meeting in the city hall Monday night.

A number of special meetings of the council had been called since the last regular session for the definite arrangements for the construction of a bridge over Silver Creek on James avenue.

The judiciary committee reported on the depository ordinance, noting the insertion of the word, "designated," referring to the bank in which city funds were to be deposited by the city treasurer, making this ordinance acceptable to the bonding companies. The ordinance has to do with the requirement of the treasurer depositing city funds in the banks or depositories designated by the city council, in order that in case of insolvency, the responsibility will be fairly placed.

The Marion county health report on bacteria count of milk from the dairies delivering in the city, was found to be satisfactory. The one exception of last report showed a favorable count this month. There were nine dairies reported on.

A discussion of the payment of fees for recording births and deaths in the city limits, resulted in the passing of a motion made by Councilman Reynolds, that the 1931 bill be paid but in the future the fees for recording births and deaths be included in the salary paid the city health officer.

The council favored the retention of membership in the League of All Oregon Cities, that holds conventions for the discussion of information concerning city legislation.

Two applications for park caretaker were referred to the park committee of which Councilman Wilson is chairman.

The request of A. C. Barber to use a city dance license that was bought for a W.O.W. dance of a previous date and not used at that time, was granted. A motion was passed allowing Barber to use the license at a future date. Councilman Legard's motion that license fees be refunded the Silverton firemen for dances that gave all proceeds to charity, passed. The matter of refunding the dance fees to the American Legion was left for consideration.

A communication from Raymond Norton, who will receive $300 reward from the city for information leading to the apprehension of those connected with the Iverson murder, was read, requesting various amounts of the sum be paid to those in Salem and Silverton to whom Norton owed money.

A petition asking action on property on 213 Mill street, which the petition condemned as unsightly, a fire trap depreciating the value of the K. P. hall and the M. W. A. hall as well as resident property nearby, and held as a general menace, was placed in the hands of the health, fire and water committee with instructions to take the health officer and fire chief for investigation and report back in the near future.

The city librarian, Miss Lillie Madsen, submitted the following report for the month of March: Total books loaned 1362; new readers 23; fines $1.30; books donated 5; books purchased 37; cash received from rental shelves $6.63; books mended by Mrs. H. B. Latham 13; books removed from circulation 30. Books were donated by Mrs. J. Werle, Ronald Hubbs and Mayor Eastman.

A motion made by Councilman Reynolds was passed commending the building of a sidewalk along the Verrier property on Mill street.

Councilman Conrad made an extensive report on his investigations concerning the change from present methods of cleaning the streets in the business section. This question precipitated the action against leaving cars parked all night on the streets as such prevented the gathering of street waste. Conrad had made definite estimates of the materials best used for containers, had received reports from other towns as to the advisability of using carts to convey the can containers from one place to another and the lessening of the cost together with the increasing of efficiency in having a truck remove the material in cans to the city refuse ground, or use the fit material as fills where needed. Conrad insisted that immediate collection of street waste materials, as the piles of trash became scattered if left to the mercy of automobile wheels and caused additional hours of labor. A motion made by Reynolds was passed authorizing the street committee to act on the purchase of cans and cars necessary to complete the improvement in the street cleaning in the business district.

Clean-up day was extended into one week, set for the first week in May beginning Monday, May 2, and including May 7, making the whole week inclusive. The street committee and the carrier are to divide the town in sections so the residents may have their trash in boxes at a convenient place at a specified time, which is to be determined by the carrier and committee, and announced through the papers for two consecutive issues.
