

NO INCREASE IN BUTTERFAKE; DEMAND GROWS

Portland, Ore., April 21 (AP)—There was a scramble for butter during the last 24 hours in the local territory. Production is not showing the increase generally expected while demand is gaining.

Butterfat has continued at practically unchanged prices with most operators bidding uniform values. Reduction of 1c lb. in the price of cheese is announced by Chris Haberk, sales manager of the Tillamook association. The new price for f. o. b. the cheese city is 13c for triplets and 14c for loaf. The resale price to retailers here is 2c higher.

There was no change in the general price structure of the egg trade for the day. Neither co-ops or private firms changed their selling values. Storage operations are gaining.

There is a slower demand for live chickens within the price range, which remains extremely low for both hens and broilers. Heavy stock appears steady in both. Turkeys are selling 18-19c for hens and 14-15 for toms.

Last Monday all records for dressed mutton and lamb arrivals were broken by the Front street trade when 621 head were received. Since then the run has been liberal and springers have sold 14c for the bulk and a spread of 13-15c for good stuff.

Steadiness at least is reflected in the market for country killed calves with general sales around 9-10c lb. for tops. Hogs are steady with the best around 6 1/2c lb.

First liberal shipment of Florida-San Francisco strawberries was reported in for the day. The stock was packed in 20s and was priced \$2.50 for fresh arrivals. Los Angeles and Fresno stock at wide spread.

There is a wide spread being asked by wholesalers for small remaining stocks of old crop Oregon onions. Sales are reported limited at \$7.50-8.50. New Californian are due to arrive within the next 48 hours.

Mexican peppers are lower with more offering. Hothouse cucumbers and tomatoes steady with best toms selling 25c lb. for choice, 30c for fancy and 35c for fancy. Some eastern Oregon not so good were priced \$4.50 for 20s.

Artichokes are of fancy quality with 6s selling around \$2.25 and 4s and 5s \$2.50 box. California peas are weaker and lower with \$3 sack now general top. Lettuce is weaker with best Santa Maria selling \$3 top.

California beans are weaker and lower with \$3 sack now general top. Lettuce is weaker with best Santa Maria selling \$3 top.

Salmon Industry Remains at Low Ebb

Portland, April 21 (AP)—Little hope of resumption of activities in the salmon canning trade is seen with the opening of the Columbia river commercial fishing season on May 1, according to Hyman H. Cohen, market editor of the Journal.

The market for better grades of the fish is extremely slow, and although the Umpqua season is now open the reports from that vicinity show very few fish are being taken. No fish are reported from Coos Bay and its tributaries, Coquille or the Siuslaw river.

Cohen sees a stiff competitor in Japanese shipments to this country in the lower price bracket. Japanese pinks are being offered around 86-87 cents a dozen here, he says.

Coast egg prices remained practically unchanged for the week with Portland jobbing prices 14 cents for fresh extras and 13 cents for mediums.

The heavy into storage movement of eggs continued, bringing cost holdings about even with the two preceding years. Although reports from eastern centers show storage accumulations falling still farther behind last year, these light holdings in other parts of the United States give many packers the opinion that prospects for storage eggs are favorable.

Receipts of eggs on eastern markets increased materially this last week although low retail prices tended to maintain satisfactory general consumption.

Pacific coast feed markets developed further strength during the week, the report continues, with prices on wheat feeds advancing 50 cents to 90c per ton at principal distributing centers. At most of the large eastern markets, however, wheat feed prices reacted sharply downward.

Grain values averaged higher today, influenced by bullish aspects of an authoritative unofficial report covering wheat conditions from Texas to Nebraska. Notice also was taken of estimates putting the Canadian wheat carryover at 104,000,000 bushels, the smallest since 1928 and 30,000,000 bushels less than July 31, 1931. Opening unchanged to 1/4 up, wheat sagged. Corn started unchanged to 1/4 off and kept near the initial limits.

Portland, April 21 (AP)—Blizzard in Canadian wheat territory and dry weather in the midwest and southwest, caused a generally higher closing price during the day. On the Portland futures market May advanced to 65 cents, but eased off in a bear raid in the last five minutes. It closed 1 cent up for the day and the July contract advanced 1/2 cent to 67 1/2 cents. On the merchants' exchange cash wheat gained 1 cent bushel all around with oats up 1 cent. Hay is unchanged.

The opening was irregularly higher. Late the list was unsettled while Royal Dutch was hammered down to new low.

Standard of New Jersey followed Royal Dutch to record low territory, but later recovered and rose nearly a point.

Railroad shares were in demand late in the day, rising 1/2 to more than 3 points with best advances in Union Pacific and Atchafalpa. Steel common rose more than a point.

The market closed higher although prices were slightly under the highs of the day. Bonds rose on the prospect of a discount rate reduction. Wheat rallied; cotton was up a point.

According to preliminary calculation, the Dow Jones and Co. industrial average stood at 62.01, 2.55 points; rail average at 24.45, up 1.43 points and the utility average at 25.35, up .95 point.

Sales totaled 1,100,000 shares, compared with 1,000,000 shares yesterday. Aggregate market value of 10 leading stocks was \$5,045,592.21 against \$4,509,948,828 yesterday, an increase of \$135,643,374.

Portland, April 21 (AP)—Late frosts practically killed whatever beans were planted in the Columbia river section around The Dalles, reports Junius Wright, Portland public market master, who has just returned from a trip through central Oregon. Asparagus was also badly hit by the cold snap, he reports.

Deputy Branson of Portland, connected with the United States biological service in Portland, was in Salem Wednesday and advised County Inspector Van Trump that he would be present at a rodent control demonstration to be started at 1:30 o'clock next Saturday at the Silverton airport. Van Trump expects to be present as will be members of the agricultural committee from the Silverton, Silverton Hills, Stearns Mills and Monitor granges. Farmers from these sections will also be on hand.

The government man expects to make a talk on rodent control methods and problems and will also assist in making the demonstrations.

The county has mixed over two tons of poison bait for rodents which has been distributed among various granges and farmers' unions over the county and there seems to be more coordinated action in the rodent control campaign throughout the county this year than for many years.

BROKE SEA CUSTOM Boston (AP)—An ancient custom of the sea was broken here recently when the Estonian freighter Kinkara arrived in port with two women crooks in her galleys. The crew, fed by a long line of indifferent men cooks, praised them highly.

FALLS INTO GRAVE Prague (AP)—As he pronounced the words, "Our days are numbered," toward the close of a funeral ceremony at Scharn, in the Czechoslovak district, the Reverend Buddebaum, 64, suffered a fatal stroke of apoplexy and fell headlong into the open grave.

Captain Brown, aged 100, who was Florence Nightingale during the Crimean war, has died at Wallasey, England.

HIGHER PRICES PAID FOR PRUNES IN CALIFORNIA

The dried fruit market is steady in the dried and without much change report this week, with the exception of prunes, says the California Fruit News. A very encouraging situation has occurred in this latter and the market has definitely started up. Packers are paying from 1/2 cent to 1/4 cent more in the country to growers, as to size and district from prunes that they were a week ago and packed quotations on all sizes are higher this week than last, usually 1/2 cent except on the very small sizes which are 1/4 cent up this week. This situation seems to result from a combination of several factors, included in which is a little frost damage to prunes in some sections last week, the fact that the growing crop as a whole does not look as if it would be a very big one and the growing feeling that some sort of grower's pooling arrangement for prunes will be worked out.

The present stocks of prunes unsold should undoubtedly bring definitely better prices, even though the present weakness in consuming ability, and so finely balanced does the situation seem to be that a combination of small indications easily produces a proportionately important result. Pacific northwest Italian prunes are also a little firmer this week and not so plentiful in unsold supplies as some have thought. In fact, prune factors there advise that they are unable to find unsold quantities that might be expected from a consideration of the for some time past slow market, and so that situation seems stronger this week.

The foregoing confirms reports in the Journal last week from California as to a little stimulation in the prune market because of frost damage in California with the same reflection here. Quite a bit more optimistic tone prevails even with the advance.

Talks were given by State Master M. C. Glover, Past Master George Palmetier, State Juvenile Matron Mrs. Blake, Col. A. E. Clarke, Mr. Starkweather and Dean Hewitt.

The program given by the local grange consisted of high school orchestra, song by Dixon Parry and Lloyd Sunderman; saxophone duet, Patsy Mayo and Paul Dooler; duet by Eldora McGuire and Paul Clarke, and numbers by Mrs. E. B. Old.

After the program the business session was again taken up, and the following resolutions were discussed: 1. Referring to change in state dues.

2. A change in laws regarding to executive committee in limiting their power.

3. Reducing of state master's salary.

4. In reference to discontinuing district deputy and return to county deputy.

5. In reference to oleo tax.

6. Budget system for executive committee.

7. Investigation of high prices on farm machinery.

The resolution committee includes J. L. Stalker, J. O. Farr and Frank Bower.

Washington, April 21 (AP)—Only one serious drought spot appears on the nation's agricultural map as farmers, mindful of two destructive years, plant new crops.

The mid-western winter wheat belt—American's granary—is in the grip of a persistent drought that has reduced the prospective supply to about 450,000,000 bushels.

"Recent moderate rains," Joseph B. Kincaid, weather bureau meteorologist, said today, "have given temporary relief, but it is only temporary. The winter wheat belt needs much more water than the present moisture supply will do up quickly. Wheat has deteriorated in more than two-thirds of Kansas and has been harmed in western Oklahoma, western Nebraska and eastern Colorado."

The remainder of the country, Kincaid said, is in "pretty good shape." As a matter of fact, he said, with the exception of the winter wheat and spring wheat belt in the northwest, "the rest of the country is in the best shape as far as sub-soil conditions are concerned since the big drought of 1930."

One of the most significant developments in the plan for a federal national prohibition referendum which has emanated from within the cabinet family, it provides, as outlined by the United Press yesterday for a special election to be called by congress at which delegates would be chosen to attend a national convention on the prohibition question.

Attorney General Mitchell never has been an ardent dry though he probably does not know which way he would vote on the prohibition question at the moment. Of all members of the Hoover administration, he is in the best position to observe the workings of federal prohibition.

He knows it is widely violated. His agents have just made a survey of New York speakies. They are reported to have found 20,000. He has evidence thrust upon him here in Washington among the best people. Mitchell plays golf at Burning Tree, a millionaires club, Cabinet members, some senators, and a limited number of wealthy figures around Washington play there. What Attorney General Mitchell sees in the locker room when he comes back from his golf is not all plain ginger ale.

Having completed 13 terms as mayor of Windsor, England, Sir William Carter, aged 89, has just retired and decided to devote himself to pleasure cycling trips.
