

HIGH SCHOOL GRADUATES TO NUMBER 320

The largest senior class in the history of Salem high school will be graduated Friday, June 3, R. W. Tavenner, assistant principal stated Wednesday in announcing the names of students who have signed their intention of completing their work. While the actual list totals 313, Tavenner says there are enough others whose credits are yet to be further checked, to bring the total up to 320. This number will be graduated providing the students complete the required amount of work as outlined.

While he believes the list is complete, Mr. Tavenner says someone may have been overlooked, especially those who finished their work in mid-term. If such is the case, he wishes to get in touch with them. The graduation exercises will be held in the Elsinore theater. As yet no speaker has been announced.

Mildred Christenson, senior class advisor will be in general charge of all graduation arrangements.

LIME BUYING SCHEME GIVEN

State taxing and agricultural authorities are considering an installment plan to allow Oregon farmers aid in buying lime.

"A proposal has been presented that farmers be allowed to buy lime on credit except for transportation charges," said State Director of Agriculture Max Gehlhar.

"By this plan, farmers would buy what is required and have the amount added to their tax rolls. The cost would be distributed over a period of five years and collected with taxes.

"The plan is now being considered by farmer organizations to determine popular reaction to the proposal. Proponents of the plan argue that it would give a chance for farmers beset by financial difficulties to maintain their fields in profitable condition. Lime is required only about once in 10 years.

"No state funds such as formerly appropriated for use by the defunct lime board are available. During the existence of the board almost \$50,000 was appropriated for use of the board.
