Fencing Practice Results in Death

Champaign, Ill., May 13 (AP)—Richard A. Ruchle, University of Illinois student, was dead today, victim of a wound received in a fencing duel with a fellow student.

The unusual accident occurred in a practice duel with S. A. Glueck, Chicago, sophomore in the Liberal Arts college. A rubber guard on Glueck's foil came off and the sharp blade penetrated Ruchle's chest and punctured an artery in the lung.

Ruchle, an engineering student from Chicago, died before aid could be summoned. A coroner's jury absolved Glueck of any blame.

VERDICT HOLDS ISLANDER GUILTY

Honolulu, T. H., May 13 (AP)—Joseph (Blackie) Young, islander, today stood convicted of charges he mistreated Bernice Lum, 17-year-old Chinese high school girl. The jury which convicted him made no recommendation as to sentence, which, under territorial law, may be anything up to hanging or life imprisonment.

Young's trial was the first under the new Hawaiian law which makes possible the death penalty on conviction of an attack against a woman.

Young, a married man, was arrested at his home shortly after Gilbert Halm, young Chinese, told police he had been forced Miss Lum into a clump of bushes where he attacked her.

Halm subsequently was dismissed from high school for his alleged failure to protect the girl.

He and Miss Lum, he said, were walking home from a party when Young, a Hawaiian-Korean, appeared, struck him, and seized the girl. Halm said Young was at the party he and Miss Lum attended and followed them when they left.

Young's wife, when she learned of the circumstances of his arrest, was quoted by police as saying, "I hope you get what's coming to you."

The law under which Young was tried was enacted by the Hawaiian legislature following popular resentment over an attack on Mrs. Thalia Massie, wife of Lieut. Thomas H. Massie, U. S. N., by five island hoodlums.

FAVOR FRAZIER FARM AID BILL

Washington, May 13 (AP)—The Frazier bill for a bond and treasury note issue to refinance agricultural indebtedness at low interest rates, was reported favorably today by the senate agriculture committee without a record vote.

The committee did not act on the McNary resolution to finance foreign sales of farm board wheat and cotton with \$100,000,000 from the reconstruction corporation or on other farm relief measures.

The Frazier bill, sponsored by the National Farmers Union, would permit loans at 11-3 per cent interest, to be retired at 1 1/2 per cent yearly.

Loans would be limited to funds for liquidating the refinancing farmers' debts, estimated by various farm organizations to aggregate between \$5,000,000,000 and \$9,000,000,000.

To obtain funds the treasury would issue bonds bearing interest at 1 1/2 per cent, as needed.

If the bonds were not sold they would be given to the federal reserve board for issuing notes against them, equal to their par value.

The note issues would be retired when the amount of money in circulation exceeds \$75 per capita, but could not be retired at a rate of more than two per cent yearly of the aggregate amount of notes issued.

HILL DWELLERS RESENT LINDY

Hopewell, N. J., May 13 (AP)—Gutter mutterings of "the pig woman of the Soutlands," and by natives here predicted a few days after the Lindbergh baby was stolen that "hill people are mixed up in it" and that "if they look, they'll find the child right here in these hills."

Their reluctant but prophetic utterances found fulfillment here yesterday only four and a half miles from the Lindbergh home, while investigators were looking almost everywhere else for the child.

An official of the New Jersey state department of institutions and agencies for epileptics at Skillman, a few miles from Hopewell, said the baby might have been kidnaped by some of the hillfolk or moonshiners.

"These people," he pointed out, "have little contact with the outside world, nor do they want any. Furthermore, they do not welcome strangers. The establishment of Col. Lindbergh's home has broken down their isolation, for it has brought sightseers."

"The hill dwellers are similar to the poor whites of the southern states and are a lawless, lawless range of the south. They live in shacks and have a certain cunning that is greater than that of the average person."

HIGHWAY TRIP FOR DELEGATES AWAITS

Portland—A free trip up the Columbia river highway from Portland to Multnomah Falls and return awaits all delegates and their families here Friday 12-15. Climbing the fir forested cliffs of the Columbia, only river in the world which has its source on one side of a mountain range and its outlet on the other, this scenic drive brings out less than an hour to Crown Point, affording a 32 mile view of the river and its purpled valleys. Beyond Crown Point it is but a few minutes to graceful Latourelle Falls, Shepperd's Dell park, Coopy Falls, Mist Falls (mentioned in Lewis and Clark journals), Walkers Falls and then Multnomah Falls, 620 feet, the second highest in the United States. Ferns and wild flowers line the highway. And the river vistas are like Maxfield Parrish paintings.

Beyond Crown Point it is but a few minutes to graceful Latourelle Falls, Shepperd's Dell park, Coopy Falls, Mist Falls (mentioned in Lewis and Clark journals), Walkers Falls and then Multnomah Falls, 620 feet, the second highest in the United States. Ferns and wild flowers line the highway. And the river vistas are like Maxfield Parrish paintings.

Portland—A free trip up the Columbia river highway from Portland to Multnomah Falls and return awaits all delegates and their families here Friday 12-15. Climbing the fir forested cliffs of the Columbia, only river in the world which has its source on one side of a mountain range and its outlet on the other, this scenic drive brings out less than an hour to Crown Point, affording a 32 mile view of the river and its purpled valleys.
