Mt. Angel—Mt. Angel 4-H club members are making their reservations for the summer session on the Oregon State college campus. With reservations for the annual 4-H club summer session already in front 33 to 36 Oregon counties, a high attendance, approximating that of a year ago when 725 enrolled, is assured for the two weeks period on the Oregon State college campus. The dates this year will be June 13 to 25, which is one week later than last year, overlapping the regular adult summer session by one week.

Estimates of attendance at first were somewhat under last year, but later reports from the counties indicate that some are sending more than a year ago, which will apparently balance the reduced delegations from other counties, according to H. C. Seymour, state club leader. Last year there were 725 actual club members present in addition to some 75 leaders who assisted in the school.

MODELER IN SAND GUEST IN VALLEY

Hayesville—Mr. and Mrs. H. T. Conbar of Detroit, Mich., have been staying at the home of Mr. and Mrs. P. N. Anderson the past week while Mr. Conbar has been constructing two concert lion statues at the entrance of the Anderson's country home.

Conbar, who made models and statues in sand on the streets in Salem a week ago, is a young art student. He studied several years in Detroit and later took up statue work in Florida. He served on the police force in Detroit for several years but gave that up to continue his study of art.

At 107 his work is done by hand with rubber gloves, a paring knife, a brush and a little water. No model is ever used unless he is working on a profile. Many people think he uses adhesive to hold the sand in place but he merely dampens it with water and it remains wet for several days. When making statue work cement is mixed with the sand.

Mr. and Mrs. Conbar plan on leaving Salem their home as he has arranged to go into business with Ray Smith, who now makes lawn mowers, statues and monuments for progressive home owners. Both Conbar and Smith plan on making Salem and the surrounding territory one of the beauty spots in Oregon with their artistic ability.

Anyone wishing to view the young artist's work is welcome to do so at the Anderson home north of Salem.

Predeek Has Stamp Mania Since 1897

Mt. Angel—In 1897 William Predeek started to collect stamps, and he has been at it ever since. Today Predeek has twelve collections and is starting on the thirteenth. He is a living example of the truism, that when a man gets bit by the stamp collecting bug, there is no hope.

One album includes all regular issues by the federal government from the earliest general issue—1847, down to the present. This collection is practically complete and is worth several hundred dollars. Two stamps in the 1847 issue, a 5c Franklin and a 10c Washington, were a catalogue value of about \$50. Another 3c unperfected stamp of 1851 is worth \$40 alone. He also has a 2x13, 6c Gill stamp of 1867 valued at \$50.

The value of stamps, according to Predeek, vary all the way from face value to \$10,000 which was the price paid recently by a collector in the east for one of the rare provincial stamps. Predeek gets his stamps from collectors, dealers, and private individuals all over the world. At present he is making up a collection of all United States stamps without cancellation marks.

Predeek is a member of the Oregon Stamp Society and attends their meetings in Portland. He would like to see enough collectors in Mt. Angel so that a local unit could be organized here.
