

ENGINEERS HAVE PLAN MADE FOR MOSCOW SUBS

Moscow (AP)—The projected Moscow subway has been designated by the council of people's commissars as an "udarni" or shock-brigade construction. That places it in a class with Magnitostroi, Dnieperstroi and other jobs of the first national importance, entitled to first consideration in obtaining deficit materials and other official assistance.

Preparatory excavations have already been made and the first stretch of the subway, 12 kilometers long, is expected to be opened for use by the end of 1933.

"Our Moscow subway," Prof. Victor Nikolay, head of the technical department, told the United Press, "will resemble the New York subways in its internal appearance, cars and other details. As to depth, the type of tubes used and many other phases, it will be closer to the London models. We are drawing upon the experience of all capitals in building our first underground traffic system."

From his description of plans for stations, however, it is obvious that the subway will be distinctly Soviet in appearance. The peculiarly harsh, unadorned lines evident in Moscow architecture will probably affect the subway architecture as well.

Soviet engineers are using foreign experts as consultants. A German group of specialists has already visited Moscow in this connection. Three English specialists—C. J. Martin, E. T. Brook and E. Evans—are in Moscow now, French and American engineers have also been invited. All their suggestions will be weighed and used insofar as they apply to Moscow conditions.

The construction work is especially difficult because of the peculiar geological formations of the Moscow soil. At many points the builders will contend with underground rivulets.

No More Piles

How to End Terrible Agony Without Salves or Cutting

Thousands of Pile sufferers do not know that the cause of Piles is internal—bad circulation of blood in the lower bowel.

That is the scientific truth about Piles—the real reason why salves and suppositories do not give permanent relief, why cutting does not remove the cause.

Your itching, bleeding or protruding Piles will only go when you actually remove the cause and not one minute before. Internal treatments can't do this—an internal medicine should be used. HEM-ROID, the prescription of Dr. J. B. Leonard, succeeds because it stimulates the circulation, drives out congested blood, heals and restores the almost dead parts.

HEM-ROID tablets have an almost unbelievable record of success. So why waste time on external remedies or worry about an operation when the Capital Drug Store and druggists everywhere invite every sufferer to try HEM-ROID with guarantee of money-back if it does not end their Piles, no matter how stubborn the case? adv.

Mr. Farmer AND YOUR CITY BROTHER—

Often times, if the expense were not too great, people who build garages, chicken houses and dwellings would insulate them against the cold of winter.

In the making of your evening paper, the Capital Journal, a bi-product is produced known as "mats." These measure seventeen inches by twenty-four inches and are composed of heavy mating paper faced with tissue and tightly pressed.

Each month the CAPITAL JOURNAL will have a limited number of these mats available, at one cent each.

IN HOLLYWOOD'S LATEST TRIANGLE

Alfred C. Read Jr. (left) and Claire Windsor (right), claim they are "still good friends" despite the \$100,000 suit filed by Mrs. Read against Miss Windsor, charging alienation of affections. Read took the blame in the case, admitting he failed to tell the actress he was married, and said he would stand by her.

U. S. WOMEN IN EUROPE PLAN TO TAKE HAND

Berlin (AP)—American women in Europe are determined to take a hand in international affairs and seek to bring about a closer understanding between the various European nations and the United States.

That is the purpose of the newly formed Federation of American Women's clubs in Europe, created here and representing a membership of some 4,000 American women.

The federation started its program with resolutions endorsing disarmament, addressed to Miss Mary E. Woolley and the American delegation at Geneva, urging relief from the present overwhelming burden of world disarmament and supporting all efforts of the American delegation to that end. A similar resolution was addressed to President Hoover.

The new federation elected as president, Mrs. Curtis Brown, president of the American Women's club in London. Its purpose, as stated in a resolution adopted at the Berlin session, is "to promote friendship between the American clubs in Europe and to secure the best endeavors of the members in support of international issues calculated to bring about a better understanding between Europe, our own, and other nations."

Other officers—Vice president, Mrs. Albert N. Connett, Jr., president of the Paris club; Mrs. E. C. von Treskow, president of the Hague club; Mrs. J. B. Mennell, London, secretary; Mrs. Harry C. Carr, Antwerp, treasurer.

The Berlin meeting was attended by more than 100 members of women's clubs in Europe. The meeting, which lasted three days, formulated a constitution and working agreements for carrying out the new program of co-operation and international understanding.

DAYLIGHT SAVING NOT RECOGNIZED

Harrisburg, Pa. (AP)—Pennsylvania labor laws do not recognize daylight saving time, the state bureau of labor and industry informed employers of women.

The state law requires that women shall not be employed before 6 a. m.

Some instances were found by bureau inspectors in which the employers made the starting time 6 o'clock daylight saving time.

Miss Finney Enjoys Hitch Hiking Trip

Hopmore—Miss Ella Finney, who owns a farm on the Salem-Champagne highway, enjoys an occasional adventure at hitch-hiking. Sunday afternoon she started out for the St. Louis picnic and was picked up by Charlie Vinyard and his mother of Brooks and Mr. and Mrs. Mulkey of Salem, who were going to Newburg. They drove about two miles out of their way to land Miss Finney at the picnic ground. Following the picnic and program she returned to Waconda with Mr. and Mrs. Joseph Meitner, and was picked up again by Cal Carbaugh and Mrs. Wadsworth, the Gervais banker.

RIGGS FAMILY HAS ANNUAL PARK MEET

Dallas—Descendants and relatives of Zadoc and Jane Leib Riggs gathered for their 16th annual reunion at the Dallas city park Sunday. Several members were absent with the loss of one by death, Roswell L. Conner of McMinnville.

The forenoon was devoted to the arrival of guests and arranging the picnic luncheon which was served cafeteria style.

The business session in the afternoon called to order by Leib L. Riggs, vice-president and it was voted to retain the same officers for the ensuing year: Zadoc J. Riggs of Portland, president; Leib L. Riggs of Hillsboro, vice-president; Silas E. Starr of Portland, secretary-treasurer, and Lela P. Riggs of Salem, historian. It was also decided to meet in 1933 in the Dallas park the third Sunday in July.

Those registering for the day were: Mrs. Adella C. Riggs, Mrs. Fannie R. Mulkey, David T. Sears, Mr. and Mrs. Ralph P. Riggs, Lois P. Riggs, and Harry W. Cronise of Salem, Mr. and Mrs. Leib L. FARM SALVAGE SURPLUS AIDS IN SOUL SAVING

Chicago (AP)—America's farm surplus is to be salvaged and canned to feed Chicago's destitute population this winter, according to plans announced by Dr. Paul Rader of the Chicago Gospel Tabernacle.

"You can't preach to a man on an empty stomach, and so we're going to feed him first and save his soul second," Dr. Rader explained in announcing the organization of Paul Rader's Pantry.

"From one end of this country to the other, fruits and vegetables are rotting on the ground because there is no profitable market for them; and yet hundreds of thousands of people are faced with starvation. Let the politicians give hungry men beer if they wish; the Chicago Gospel Tabernacle is going to give them bread."

In a dozen or more cities and towns throughout the country, Dr. Rader is preparing to organize huge "canning camps" manned by volunteer workers, who will gather up the surplus produce in nearby counties and prepare it for shipment to Chicago. Several manufacturers, he said, have donated canning equipment and the volunteer workers will be supervised by experts furnished by the National School of Pressure Cooking, Eau Claire, Wis.

"Our first canning camp," the evangelist explained, "will be located in cities where the Chicago Gospel Tabernacle already maintains other tabernacles; but we are also planning to establish camps in many other cities before the summer is ended. Meanwhile, we are making an addition to the Chicago tabernacle to serve as headquarters for the Pantry and we are setting 6,000,000 cans or pounds of food as our goal. More than 24,000 needy Chicago families were fed by our organization last year, we will have more than this number, as the need is greater."

Dr. Rader explained that in addition to the canning done in the canning camps, his workers also would solicit canned produce from housewives and field produce from farmers throughout the country.

Card Parties Dropped

Mt. Angel—St. Ann's Society held its quarterly meeting Sunday afternoon in the music room of St. Mary's school. Mrs. John Diehl conducted the meeting. A large number of members attended. A new member, Mrs. Anna Edmonds, was taken into the society. It was decided at the meeting that no card parties would be given until October 11.

The Whole Trend is toward a Milder Cigarette

Do you remember the days when you first started to smoke?

ALL CIGARETTES tasted somewhat alike to you, but after a while you noticed that some cigarettes were decidedly stronger than others... Remember?

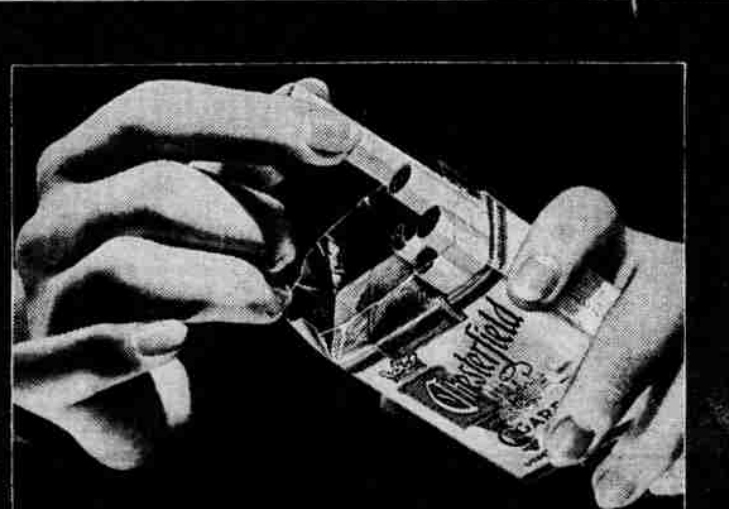

As smokers become more experienced, they demand milder cigarettes. Chesterfields are milder. There is no argument about that. Their mildness is a feature as distinctive as their package or their trade mark.

Their tobaccos are mild to begin with. Patient aging and curing make them milder still.

Chesterfields contain just the right amount of Turkish—but not too much—carefully blended and cross-blended with ripe, sweet Domestic tobaccos.

In this nerve-racking time, smokers—men and women—are showing a decided preference for milder cigarettes.

Chesterfields are milder. They taste better. That's why "They Satisfy."
