### SIMPSON CLAN PLANS UPKEEP OF GRAVEYARD

Zena—Funds will be taken from the treasury and used for the upkeep of the graves of William and Mary Simpson following a vote taken Sunday afternoon at the business meeting of the Simpson clan at the state fairgrounds where the family gathered for the fifth reunion of the descendants of the pioneers. The annual picnic is held always in honor of William and Mary Simpson who crossed the plains in 1846, coming here from Platt county, Missouri, and who settled in the Willamette valley. The graves are located in the Waldo Hills. On the tombstone of William is the information that he was an elder in the Baptist church for 40 years. He was a circuit rider when first here.

Mrs. Lois Simpson Crawford of Zena was re-elected president of the clan for the third time. Other officers re-elected were Mrs. J. Clyde Simpson of Salem, secretary-treasurer and Mrs. Clyde Billings of Portland, historian. Mrs. Billings read an interesting history of the family crossing the plains written by John T. Simpson, son of Ben Simpson. Ben Simpson was captain of the train of about 30 wagons. No serious difficulties were encountered with the Indians on the way, according to this paper. The train left Missouri in the early spring and arrived at Oregon City the last of October. There Ben Simpson encamped in the mercantile business, building saw mills, etc.

The winters of 1846 and 1847 were extremely hard winters, according to this paper which related "Grandfather lost all of his stock that winter but one cow and one horse, and for quite a while we stayed with him that winter on pea coffee and bran bread." A description follows of how buildings were made without nails, using wooden pegs and pins for construction, of how plows were made and crops threshed and the long distances covered to get the grain made into flour, the only mill in the valley being Dr. McLaughlin's at Oregon City.

Six months were required for a letter to reach the settlers from the east, costing them from one to two dollars to get it. The sender was at no expense, but the person to whom it was addressed paid for it on delivery. After the law was changed the amount paid depended entirely on the distance the letter had to be carried. Ten cents was the price paid for a letter going "back to the states." Instead of stamps the writer paid cash. For several years the pioneer had no candles or lamps, using fire light from the fireplace to see at night. There were no public schools at that time, schools being taught by subscription and were private.

Mrs. Hulda Kimes Saverly, 80, of Dallas, was the oldest one present, and she told of experiences encountered in crossing the plains. Doc Smith was captain of this train which came across in 1847 and his motto was to "throw away a crust of bread and to take good care of the oxen. He died when they reached Green River. The night he died there was a big storm, the cattle stampeded for three miles. They buried him and made camp fires over his grave so that the Indians and wild beasts would not find his resting place. Mrs. Saverly's grandparents and aunt came across the plains in a closed carriage drawn by a big dun mule named Alex. The mule pulled the carriage all the way, even through the rivers they crossed. In going down a slope of the Blue mountains they ran into a horde of crickets which got onto the legs of the cattle and one young team became frightened and ran away stampeding. The whole train except the trusty yoke of oxen owned by her father who tapped the oxen on the horns with a stick and kept them quiet by talking to them. This train left Missouri May 1 and reached Yamhill in September.
