\$15,587 DAMAGES FOR TUMBLE ASKED

Damages of \$15,587 are asked in a complaint in circuit court filed by Orris P. Keebaugh against John Nelson and the Nelson Lumber company and the board of directors of the Marquam Mutual Telephone company.

He will present to business and industrial leaders in a conference shortly his plans for "united and concerted action on a broad front throughout the country." The date of the meeting he expects to announce Monday.

Mr. Hoover will expound his blueprint economic program to men of importance from each of the 12 federal reserve districts. That was the plan he held in mind when he said in his acceptance speech: "I am today organizing the private industrial and financial resources of the country to cooperate effectively with the vast government resources which we have in motion."

His work in that direction, he told newspapermen, has progressed far enough for the businessmen to be called into consultation. With them he will discuss means of spending self-liquidating construction by loans from the reconstruction corporation, stimulation of a move to clear slum districts, distribution of live stock and feeder loans to farmers, spreading existing employment through shorter working hours, establishment of the home loan banking system, stimulating railway construction and repair work, helping in the disposition of agricultural commodities, and other things.
