CHILD LOST ON DESERT 3 DAYS FOUND ASLEEP

Gila Bend Ariz, Nov. 21 (AP)—Four year old, rosy headed Buck Fisher, object of a three day child hunt in the Gila desert, was found today curled asleep on the edge of a water hole.

Sheriff J. R. McFadden said the child was "apparently as good as new."

Bloodhounds from the state prison on the Indian scouts from the Hopi reservation reached the spot—14 miles from the camp—the child strayed away from Friday night—at about the same time.

For three days and three nights the searchers had scoured the wastes of dust and mesquite looking for a sign, fearing the child had succumbed to the intense heat of day or the bitter cold of night, fearful that the night howling of the hungry coyotes meant the small boy would never be found.

The men rode over the brow of a mesa and looked down, and their fear seemed realized. The small form lay quite still in the blazing sunlight.

In the deep sleep of exhaustion, the child did not stir until the baying hounds were a few yards away. He opened his eyes as the men crowded around.

"Hello, sonny," said a cowboy, "Hello," said the child, with a smile.

His blue breeches hung in strings about his ankles, scuffed ankles. One shoe was gone—searchers found it on the trail Saturday night—the other was a solesless spat tied tight about a swollen ankle. His thin white blouse was tattered, and he was the dirtiest little boy the men had ever seen. Beneath layers of alkali dust, his face was beet-red.

Little "Buck," son of Mr. and Mrs. Jack Fisher of San Antonio, Texas, wandered off his school, where education is his object and worshiping modern science, Stone declared.

"Touching upon the financial angle, Stone said that when Russia was unable to obtain loans from this country, England or France, it turned to Germany which negotiated loans from the United States—with full knowledge of their purpose possessed by bankers—which in turn loaned the money to Germany. While Russia has repaid or is repaying its debts, the Germans are not meeting their obligations with this country.

PATTON PLANS RESIGNATION

When the city council assemblies for its first meeting in December it may have one new member and listen in vain for the roll call of members of its oldest member, it became known today when Alderman Hal D. Patton announced that he was seriously thinking of submitting his resignation at tonight's meeting of the council.

"There is no good reason why I should not step out now instead of waiting until the first of January," said Patton. "My successor has been elected and he might just as well take over the job right now. It would be better for me if I did not go out to these night meetings and get myself all worked up."

After 12 years on the council Patton refused last spring to be a candidate for re-election and through the primary and general election campaigns Walter Fisher was elected to his position as one of the two representatives of the second ward. Poor health and the demands of his business were given by Patton as reasons for his decision to retire.

During his tenure on the council Patton has come to be recognized as an independent in all matters, and while voting at times with the various blocs that have existed has never been listed as a member of any of them. He has been a consistent and persistent opponent of all bond and tax proposals and particularly during the stringency of the past two years has clamored for drastic economy and the elimination of all except necessary functions of city government.

STONE TELLS OF VISIT TO RUSSIA

Communist Russia has turned its back upon the western world and is concerned with its own great problems, chiefly the five year plan, 90 per cent of which was attained last August at the end of three and one-half years, Harry W. Stone, of Portland, for 34 years secretary to the Y. M. C. A., told the chamber of commerce Monday noon. Ex-

ceptions to the plan are notable and no other people on earth have endured what these people have to obtain their objectives, he said. Russia, with its 160,000,000 population, is one and one-half times the size of the United States and far richer in natural resources, Stone said.

The group is ruled by 3,000,000 disciplined communists, athletic, totalitarians with machine-like "god." That country today is waging the world's greatest campaign against alcohol and in the interests of sanitation. Organized classes in mass education last year had an enrollment of more than 80,000,000 persons—half the population of the nation. The Red army is a great school with universal education its object and worshiping modern science, Stone declared.

"Touching upon the financial angle, Stone said that when Russia was unable to obtain loans from this country, England or France, it turned to Germany which negotiated loans from the United States—with full knowledge of their purpose possessed by bankers—which in turn loaned the money to Germany. While Russia has repaid or is repaying its debts, the Germans are not meeting their obligations with this country.

Harms, who with his partner Harry Nutter, detective, was prominently mentioned by Chief of Police Leo V. Jenkins in a statement relative to departmental changes issued last week, informed Jenkins of his resignation by telephone Saturday.

The application for a pension has been counter-signed by Chief Jenkins to show that Harms' service has qualified him for a pension and was to be considered at a special session of the pension board today.

Detective Nutter said that he will continue in police work and would accept whatever assignment for duty he received.

TROTSKY SAYS VIEWPOINT OF '17 UNCHANGED

By LEON TROTSKY (Copyright by United Press) Marseilles, France, Nov. 21 (AP)—There is no mystery and no public interest in my voyage.

I passed four years in Turkey. I read, wrote, fished and hunted. I was busily occupied with a history of the Russian revolution but the work is finished and now on the presses. The students of Copenhagen voluntarily invited me to speak on the subject of "What of the October Revolution?" which I will deliver in German because I do not speak Danish.

I will make a resume of history and not propaganda. My conference will be scientific.

That does not signify I have changed viewpoints since October, 1917. I am accompanied by my wife, Nathalie Sedoff, who for 30 years has shared the vicissitudes of my life. Also three young friends of different nationalities are accompanying me voluntarily. They are John Frankell of Czechoslovakia, Otto Schliessler of Germany and Pierre Frank of France.

After a short voyage to Denmark we are returning to Prinkipo, where I am keeping my home, with its library restored after the 1932 fire. I thank the French government for permission to cross this country and I admire France's hospitality.

C. R. West, who admitted passing worthless checks which totaled a little over \$30, pleaded guilty to passing one, was sentenced to six months in jail and paroled by Judge McMahan this afternoon. West's attorney, Martin Ferry, stated he had seen all of the victims of the check passing who were all agreeable to giving the young Cal. and L. C. Ballyntyne of Bend, man another chance.
