

OREGON SCHOOL COSTS SUBJECT OF PUTNAM TALK

Solo—Decentralization in the Oregon system of education is one of the serious drawbacks in the situation in this state, according to Rex Putnam, superintendent of city schools at Albany, who addressed the Scio Parent-Teachers association Thursday night at the high school. His address had to do chiefly with educational finances.

"Twenty-two hundred school districts in Oregon are assessing taxes for the support of schools, and this system is pyramiding costs to the taxpayers to a point approaching oppressiveness," Putnam declared. Linn county has 149 school districts and each is compelled under laws of the state to provide ways and means for financing their schools.

"In Linn county there are 96 one-teacher schools, each taxing its property owners for the support of a decentralized system of education that is producing glaring financial inequalities. In 1929 and 1930 this system cost the taxpayers of Oregon 50 1/2 million dollars, 97 percent of which was property tax," the speaker said. "In the city of Albany the approximate average annual cost per pupil for education is \$80, and the state pays \$1.67 toward this cost. Under the constitution the state legislature is charged with the responsibility of providing education for the children of the state; the state prescribes what shall be done but contributes only \$1.67 per pupil, leaving the school units to do the rest."

Larger units of organization, including small schools that are struggling for existence, would go a long way in solving a situation that is pressing for solution, Putnam declared, adding that it would insure a measure of economy so much needed at this time.

A brief song service, led by Miss Clarke of the high school staff, marked the opening of the meeting, at which Miss Klindt, vice-president, presided in the absence of Mrs. Hotebeck, and announced that at the February meeting of the association the seventh and eighth grades would furnish the program, and that a speaker from Willamette university would address the meeting.

"America" was sung in Spanish by a local high class consisting of Irene Falon, Sylvia Solrd, Edris Thayer, Marguerite Davenport, Helen Myers, Frank Sigurdson, Melvin Hoyt and Howard Shelton. Miss Clarke was accompanied, as also in the rendition of a song by a Latin class composed of Helen Miller, La Vaun Gardner, Frances Combs, Maxine Arnold, Geraldine Rodgers and Sylvia Bartu. A piano duet by La Vaun Gardner and Ruby Rosprafka concluded the program.

The treasurer reported \$5.52 in the treasury.

The Southern Pacific company is seriously considering closing the local depot, as tonnage handled through the station has dropped to a point where it is being operated at a loss, according to Mickel. He is, elsewhere, truck competition, has taken much of the tonnage formerly handled by the railroads.

Mickel stated that the company is very reluctant to close the depot and will do so only as a last resort but unless a gross revenue from Mt. Angel can be shown, it will be impossible to continue the office any longer. Mickel, a former agent at Mt.
