It usually makes itself felt in our stomach, indigestion, headaches, nausea, "gas," biliousness, and most frequently in stomach pains that come about thirty minutes after eating. So you can easily tell if you have it.

Now Quickly and Easily Corrected

If you do have acid stomach, don't worry about it. You can correct it in a very simple manner. Just do this. It will neutralize your acid soaked stomach almost immediately. Phillips' Milk of Magnesia with a glass of water every morning when you get up. Take another teaspoonful thirty minutes after eating. And another before you go to bed.
