It was said about a mousetrap And Now it is True About a Car!

Remember the old saying, "Make a better mousetrap... and the world will..." and so on? Well, after all these years, there does seem to be something to it.

Pontiac sales are ahead of last year—and still growing

You will admit that, in a year like this, that means the car must have something. Something that people want.

Now, Pontiac does offer a lot for the money. And its price is low.

Pontiac gives a big, beautiful package of Balanced Value.

What does that mean? Simply that Pontiac gives you Economy—but not at the expense of other qualities. It gives also Durability, Comfort, Safety, Performance and Appearance. It gives all-round Balanced Value for the owner.

It means that the car wears evenly through tens of thousands of miles of use. And at the end of two or three years it gives extra dividends in the way of higher trade-in value. Fisher bodies have Fisher No Draft Ventilation. Pontiac is a typical General Motors Value—a good car to buy.

Read the Free Booklet
Come in for a free copy of the booklet—"What do you mean—Balanced Value?" It explains what Pontiac is, in everyday terms with which everybody is familiar. It is worth reading, because it will make you a better car buyer—a more critical judge of value.
