## EAST SIZZLING IN TORRID WAVE

### CIVIL WAR VETS STAGE ANNUAL STREET PARADE

Memorial Exercises, Presentation of Flags, and Tree Planting Features  
Perfect Day Marred by Booming of Prisoners in County Jail

Memorial exercises to departed members of the various organizations by a several hundred participants, presentation of a picture of Abraham Lincoln to Salem schools and Boy Scouts and the dedication of a Colorado blue spruce tree by the Daughters of Union Veterans in memory of their fathers were the high lights Wednesday during the second day of the 62nd annual encampment of the Grand Army of the Republic in session here. The only untoward incident to mar an otherwise perfect day occurred shortly after 10:30 o'clock when several loud boos issued from two or three prisoners in the county jail as the aged veterans of the Civil war were passing along the north side of the court house plaza. The prisoners who showed their disrespect of the men who fought to save the union, disappeared into the cells when an effort was made to

### HOUSE CALLS ON ROOSEVELT

Gloucester, Mass., June 21 (AP)—On the rolling waves of this sea town's harbor, President Roosevelt interrupted his vacation cruise today to discuss both international and domestic affairs before proceeding on up the coast.  
Col. Edward M. House, intimate advisor of President Wilson on foreign problems, boarded the Amberg II just after Mr. Roosevelt had arisen from a late sleep, making up for yesterday's long haul from Nantucket, which ended here just before mid-night.  
Lewis M. Douglas, director of the budget, scrambled aboard a little later to talk over veterans' compensation allowances.  
The Gloucester lawyer also gave opportunities for the crew to visit with their wives and women folk climbed into the tiny schooner with bugs and chresses.  
Elated but weather worn by an 18-hour run from Nantucket, President Roosevelt awoke this morning eager to return to a visit to the fishing captains of this early American town.  
This elation came from catching up on his two days delayed schedule. But it was the wish to talk again with the fishermen of Gloucester which led the president on a daring night run last night across Massachusetts Bay into this haven.  
Suddenly catching a pulling south-west wind as he rounded Cape Cod for Provincetown, Mr. Roosevelt quickly called for the night cruise across the sea lanes of the north Atlantic to get to Gloucester.

### YOUTH JAILED FOR ROOSEVELT BOMBS

Watertown, N. Y., June 21 (AP)—A youth whom the police called mentally deficient was under arrest today accused of trying to send a crudely made bomb to President Roosevelt last February.  
The authorities said the prisoner, Joseph Doldo, 20, admitted the attempt and declared he did it "just for fun." He also acknowledged sending several other packages and threatening letters to the president.  
Arrested last night, he was held on an open charge.

### MARSHFIELD TO CLOSE FOR 3 DAYS

Marshfield, Ore., June 21 (AP)—Thirty-four leading business firms in Marshfield today had signed an agreement to remain closed Monday, July 3, to permit a three-day vacation period July 2, 3 and 4.  
Other businesses are expected to follow suit and it is believed likely that the entire city will observe the holiday.  
The Oregon coast highway association is urging a state-wide observance of the vacation. The Marshfield closing was affected through the efforts of the retail trade committee of the chamber of commerce.

### Good Evening! Sips for Supper

By DON URJOHN  
Mother Nature is working her hardest to kill off the depression. And when she does, whatever economists or otherwise happen to be in the saddle at the time will get all the credit. We'll be glad to have them get all the credit provided the cash is spread around.  
Big Shot Delaney pretty near evacuated Salem last night with his excursion to the dog races at Portland. From what reports we could gather around among the boys today—not being in on the races ourselves, a dog's racing is worse than either its bark or its bite.  
The Kentucky court of appeals just ruled that beer is a soft drink. So in light of the ruling we were interested in seeing the following analysis of just what beer is: In addition to its alcoholic content, the scientists say it is from 5 to 7 per cent of solid matter or extract; from 0.5 to 0.7 per cent of nitrogenous substances, some of which are protein; from 1 to 2.5 per cent of sugar as maltose; from 2 to 4 per cent of gums and dextrine; from 0.16 to 0.4 per cent of acid as lactic acid, and from 0.15 to 0.36 per cent of ash. Fat, as such, may be considered absent. A pint of beer will provide approximately 250 calories.  
Cut the foregoing out and paste in your hat. The next time you drink a pint of beer you'll know exactly what you get in your system by so doing. And you may also know that the calories are derived from protein or organic nitrogen compounds, 12 calories; carbohydrates, 75; organic acids, 6, and alcohol, 108. Yum! Yum!  
Some of the boys will want to figure out the above in terms of gallons.

### ECHO FROM THE P. C. C.

"C. C. C. Camp Maury, O. O. Dear Sips: It is with pleasure that five members of the civilian conservation corps write to your column. We are stationed only 60 miles from the nearest town, which is Prineville. We indulge in all sorts of sports out here including hunting (women being our biggest game). But, unfortunately, they don't inhabit this section of Oregon. So we have to be content with woodpeckers and they happen to be plentiful. They are harmless little creatures, unless hungry, and then they really are boring. With our best from Joe Slaby, Cecil Baruff, Ted Russell, Martin Weldinger, Lester Vickers." Glad to hear from you boys and hope all the trees you plant will some day grow into big ones to make fine houses for your grandchildren.  
The result in Iowa must convince even the most radical dry that the noble experiment is about over.

### JONES TAKES STAND DENIES ALL CHARGES

Medford, June 21 (AP)—Walter J. Jones, defendant in the ballot theft case, took the stand in his own behalf this morning in circuit court and made a general denial of all the state contentions, by witnesses picturing him as one of the leaders and plotters of the crime.  
Jones said that on the night of the robbery he remained outside the courthouse as a guard to prevent disorders and never journeyed to the rear of the courthouse, where the vault is located.  
Jones' son-in-law, Lee Hug, also entered a denial of the main claims of the state against his kin.  
The court this morning ordered the corridors kept clear of spectators and witnesses during the trial.  
It is now expected that the Jones case will be in the hands of the jury early tomorrow afternoon.

### Railroad Executives Agree to Postpone Cut in Wages Six Months

Washington, June 21 (AP)—Railroad executives indicated today that they would comply with the request of President Roosevelt and postpone their proposed 12 1/2 per cent wage cut for at least six months, the United Press was informed in an authorized quarter.  
While Joseph B. Eastman, federal railroad coordinator, met with the railroad's committee of nine to explain further the administration plans for the steam carriers, it was learned that he had presented a two sided proposition to the railroad operators and the employees.  
In return for definite postponement of the 12 1/2 per cent reduction, Eastman was understood to have assured the railroad owners that labor would agree to an extension—probably six months—of the 10 per cent wage "reduction" which went

### ORDERS WIRED TO DELEGATES BY ROOSEVELT

Fresh Instructions Sent Americans at Economic Conference

London, June 21 (AP)—The American delegation to the world economic conference received fresh instructions this afternoon. It was authoritatively learned. The nature of these instructions was not divulged.  
The entire American delegation went into economic conference at the Cordell Hull at his hotel. Earlier there had been a meeting attended by James M. Cox, American delegate, Prime Minister Ramsay MacDonald of Great Britain, and James P. Warburg, American expert adviser.  
Whether this meeting with MacDonald has anything to do with the president's message was a matter of much speculation in conference circles but the conferees were sitting tight.  
London, June 21 (AP)—Prime Minister Ramsay MacDonald and other leaders of the world economic conference were understood this afternoon.

### JURY RECEIVES MITCHELL CASE

New York, June 21 (AP)—Federal Judge Henry W. Goddard today charged the jury which for the last month has heard the evidence in the trial of Charles E. Mitchell, former chairman of the National City bank, on charges of income tax evasion.  
Judge Goddard briefly reviewed the charges against Mitchell, that he made fake sales of stock to his wife and to W. D. Thornton, mining man, in 1929 and 1930 to record losses so great that he paid no income tax those years and that he wrongfully failed to report in 1929, receipt of \$666,666.67 from a National City company management fund.  
"A reasonable doubt," Judge Goddard said slowly, explaining the law to the jury, "does not mean reluctance to perform an unpleasant duty."  
"Few tax laws are popular," he continued, adding that congress in passing the income tax law "undoubtedly had in mind that men of extensive property should pay proportionately."  
With regard to the stock sales, the judge pointed out that a sale would not be genuine, even if it were made by the defendant, if the intention of the participants was not to make it so.  
Mitchell sat up-right in his chair at the counsel table, watching the judge and listening intently.  
"You have the right to determine what the defendant's intent really was," the jurist told the jury.  
"The problem for you to decide is whether or not that was a bona fide sale."

### SENATOR BORAH ILL

Washington, June 21 (AP)—Senator Borah, of Idaho, ordered to remain absent in his apartment for several days, was said today to be recovering from a stomach disorder and general fatigue.

### HOPE HELD OUT FOR WORLD FLIER

New York, June 21 (AP)—Whether Jimmie Mattern is dead or alive depends on where he met misfortune on his attempted around the world flight, his representative, Jack Clark, said today.  
No word has been heard from Mattern since a week ago today when he took off from Khabarovsk, Siberia, for Nome, Alaska.  
"I still give Jimmie a 50-50 chance of being safe," Clark said. "If anything happened to his motor or plane while he was flying over land I think it is reasonable to believe he is safe. Jimmie has been in so many scrapes before that I think he could scarpely pull out of another one."

### Bargain Day Promises To Break Record

With an increase in the number of participating merchants and no withdrawals from the women's eight-mile walking race, the 16th annual city-wide Bargain Day Friday promises to be one of the best in history from a standpoint of interest and to the thrifty shopper prices that will amaze.  
Spring merchandise has remained on the shelves due to the lateness of the season and already shipments of early fall merchandise are headed this way. To meet obligations and provide space for the new styles and products, the merchants of the city are forced to fix prices at a point where it is impossible to keep goods in stock.  
Merchants taking part in Bargain Day are Millers, Price Shoe Store, Shipley's, J. C. Penny company, Smart Shop, Oregon Shoe company, Bishop's, Kafoury's, Safeway stores, Capital Drug store, Pay'n Takit.

### SPANISH PRINCE WEDS FOR LOVE

Lausanne, Switzerland, June 21 (AP)—The former prince of the Asturias, who renounced his rights to the Spanish throne for love, was married in both civil and religious ceremonies today to Esmeralda Ipancha, daughter of a rich Cuban merchant.  
The civil ceremony in the Lausanne city hall was followed within a couple of hours by the nuptial benediction and the double ring ceremony in the Sacred Heart church at Ouchy, on Lake Geneva below Lausanne.  
A huge crowd acclaimed the couple as the wedding party left the hotel for the church, where Father Borlet read the Latin service. The bride was dressed in white, with a ten-foot train.  
By marriage against his parents' wishes, the former prince sacrificed his right to the throne in event of restoration of the monarchy.  
The tall, blonde 26-year-old exile retained only the nominal title, Count Cavdonga. The bridegroom's disapproving family was conspicuously absent from the ceremony.  
The former prince received a long telegram last night from his father, former King Alfonso XIII, who now lives at Fontainebleau, France and after reading its contents the son sobbed bitterly. The queen, however, sent a secret expression of a mother's understanding of the love of her son, for the Cuban girl, who is one year older than her husband.

### SUBSIDY PROBE TO START SOON

Washington, June 21 (AP)—Senate investigators are \$30,000 and three months in which to prepare for inquiry by a special committee into air mail and ocean mail subsidy contracts granted by the Hoover administration.  
A. G. Patterson, former president of the Alabama public service commission has been named chief investigator of the special senate committee headed by Senator Black, Dem., Ala. Associated with Black is Senator McKellar, democrat of Tennessee, who sharply criticized mail contracts last session complaining that the circumstances under which some of them were let gave grounds for suspicion of fraud.  
The senate all but struck the air mail subsidy appropriation from the post office bill last winter but was dissuaded by promise of thoroughgoing inquiry into all phases of federal mail contracts.  
One of the questions posed by the senators is whether recipients of federal subsidies are using these funds to pay off loans from private individuals. Senators interested in the investigation predict that if such use of federal funds were discovered the subsidies would be abruptly terminated.

### JAPANESE STUDENTS CLASH WITH POLICE

Tokyo, June 21 (AP)—A dispute at Kyoto Imperial university over freedom of study precipitated a clash between 6000 students of Tokyo Imperial university and police today.  
The students hurried streets at the officers when they tried to break up campus mass meetings staged on behalf of the law faculty and students of Kyoto university.  
President Konishi of Kyoto resigned as a result of the education minister's asserted opposition to freedom of study and the dismissal of a professor.

### First Summer Day Balmly In Oregon

Portland, June 21 (AP)—The first day of summer and the longest day of the year dawned here today with continued fair weather and higher temperatures in sight.  
The Willamette river continued to fall at Portland, dropping 3 of a foot in the past 24 hours. The water office said the river will drop another foot in the next three days, and more rapidly thereafter.

### HITLER ORDERS DISSOLVING OF FIGHTING UNITS

Nazi's Strike at Former Allies by Disbanding Nationalist Squads

Berlin, June 21 (AP)—Chancellor Adolf Hitler's Nazi administration moved against Dr. Alfred Hugenberger's nationalist party today with a series of raids in which one man was killed, and with orders dissolving the nationalist auxiliary organizations.  
The fatally occurred at Frankfurt-on-the-Oder, where a man was shot during a raid on the party headquarters.  
Dr. Hugenberger, who recently returned from London after he had been virtually repudiated by other German delegates to the world conference, was remaining incommunicado. Some quarters asserted today's events would result in his resignation from the cabinet, in which he is minister of economics and agriculture.  
Before Hitler gained power in Germany the nationalists were his allies. He no longer needs them as he has a majority in the reichstag and has had supervision over the party without them and he has effectively nullified the power of the legislature anyway.  
The government's dissolution order was directed against the nation, alist fighting units, which are comparable to the Nazi storm troopers. In addition the Bismarck bund for

### BANKS APPEALS FOR NEW TRIAL

Eugene, June 21 (AP)—Irregularities in court proceedings, errors of the court in admitting certain evidence, misconduct of the states chief attorney and insufficient evidence to warrant the verdict are alleged in a motion for a new trial of Llewellyn A. Banks, convicted of the second degree murder of Constable Prescott Medford, filed in circuit court today by Charles A. Hardy and Frank J. Lonergan as attorneys for Banks.  
Among irregularities of court proceedings, the defense attorneys claim that Mrs. Thomas Bailey, who acted as one of the jury bailiffs in the case, continued to appear with and have had supervision over the jury after that she had retired, notwithstanding that she had not been sworn by a bailiff to have charge of the jury during its deliberations. It is further charged in an affidavit sworn to by Banks and attached to the motion, that Mrs. Bailey, while acting as bailiff in the presence of the women jurors made statements derogatory to the defendant.  
Misconduct of the state is alleged by the defense attorneys. In that Ralph E. Moody, chief prosecutor, while addressing the jury in open argument, turned to the defendant Banks and addressed personal, bitter and personal remarks to the defendant, which were excepted to by the defendant's counsel and exceptions denied by the court.  
Further alleged errors in law were enumerated in the motion.

### 3 New States Join Wet Parade Including Dry Iowa By 3 To 2

Washington, D. C., June 21 (AP)—The first nine million Americans in 14 states voting on prohibition gave an approximate four to one lead to dry state of Iowa joining the wet column today.  
The 3 to 2 repeal vote in Iowa, heart of the prohibition corn belt stronghold, carried the repealists over one of their most difficult hurdles.  
New Hampshire and Connecticut also joined the repeal column today bringing to 14 the number of states which in less than three months have fallen against prohibition. Thirty-six states must approve the repeal resolution.  
So far, none has rejected repeal, although several southern states have refused to arrange for a vote. The outstanding text will come next.

### RED TAPE METHODS WAIVED TO HASTEN RECOVERY PROGRAM

Army Engineers Urged Speed in Submission Of Oregon Bridge Plans for Approval by War Department; Plans for Highways To Be Rushed by Double State Crews

By HARRY N. CRAIN  
Indicating that every branch of the federal government is being tuned into step with the administration's endeavors to get its \$3,200,000,000 public works and industrial recovery program into immediate action the war department this morning advised the state highway commission to get preliminary designs of the five coast highway bridges, on which a \$3,300,000 loan and grant is being asked, into the hands of the army engineers at Portland as soon as possible.  
Inasmuch as each of the structures is to span a navigable waterway the designs as to clearance, and locations must be approved by the army engineers before construction can start. Ordinarily this formality, which embraces public hearings and a confusion of red tape, requires several months, but it is apparent from advices received here that all of this is to be eliminated in the president's program for putting the idle of the nation back to work.  
Responding to the request of the war department made by General Pillsbury, chief of engineers.

### SPANISH PRINCE BELIEVED LOST

Mexico City, June 21 (AP)—A widespread search was in progress today for Capt. Mariano Barberan and Lieut. Joaquin Collar, Spanish transatlantic fliers long overdue on their flight from Cuba, in the belief storms had forced them down in some sparsely settled region.  
No definite reports had been received of the Spaniards since they were sighted over Villa Hermosa, capital of Tabasco state, yesterday afternoon, about ten hours after their plane, "The Four Winds," left Havana for the Mexican capital.  
General Pablo Rodriguez was reported to have left for Huamantla, state of Tlaxcala, to take charge of a searching party on Malinche mountain, after residents of San Marcos village said they had seen a plane they could not identify descend on the slopes.  
A heavy rain was falling at the time, the villagers said. They added they saw smoke on the mountain after seeing the plane at about 3 p.m. yesterday.  
President Abelardo Rodriguez telephoned Governor Mirjares Palecena of the state of Vera Cruz to use every possible effort to run down all rumors.  
Alvarez Del Vayo, said he had heard nothing from the aviators, but expressed the belief the weather had forced them down.

### DUNNING NAMED AIDE TO WESTERVELT

Washington, June 21 (AP)—Carroll W. Dunning, Portland, Ore., today was appointed executive assistant to General William I. Westervelt, chief of the processing and marketing division of the farm adjustment administration.  
Dunning was formerly a market specialist with the bureau of agricultural economics and since 1931 has been with the department of commerce, stationed in New York to make marketing surveys.

### Wet Parade Including Dry Iowa By 3 To 2

Washington, D. C., June 21 (AP)—The first nine million Americans in 14 states voting on prohibition gave an approximate four to one lead to dry state of Iowa joining the wet column today.  
The 3 to 2 repeal vote in Iowa, heart of the prohibition corn belt stronghold, carried the repealists over one of their most difficult hurdles.  
New Hampshire and Connecticut also joined the repeal column today bringing to 14 the number of states which in less than three months have fallen against prohibition. Thirty-six states must approve the repeal resolution.  
So far, none has rejected repeal, although several southern states have refused to arrange for a vote. The outstanding text will come next.

### JUNE RECORDS BROKEN FROM LAKES TO GULF

Heat Fatalities Increase In Middle West—Crops Damaged  
Torrid Temperature Over Vast Region — Little Hope for Relief

(By the Associated Press)  
Torrid temperatures spreading over far-flung sections of the nation added to the number of deaths of a record breaking June heat wave.  
Away down south in Atlanta, Ga., folks perspired when the mercury climbed to 97 and up north along the shores of Lake Superior at Superior, Wis., it was only one degree cooler.  
But definite relief was promised by the weather man for some sections of the middle west today as summer made its official debut. Readings which sent thermometer readings tumbling in the northwest yesterday were due to spread to the central states today.  
Wisconsin, with 16 deaths attributable to the heat, led the fatality list. Indiana and Michigan had nine each and both Ohio and Nebraska reported three dead. Two drowned in Kentucky and a like number died in Minnesota. 87

### CANCEL PLANS FOR ECONOMIES

Washington, June 21 (AP)—The administration today withdrew, temporarily, at least, its plans to decrease by 25 per cent the agriculture department's expenditures for cooperative extension work, vocational education and rehabilitation, experiment stations and endowment of agriculture colleges.  
Senator Robinson of Arkansas, democratic leader, told newspapermen that Lewis W. Douglas, the budget director, and Secretary Wallace had notified him the order would be held up indefinitely.  
This action followed protests by senate republican leaders that the administration was ignoring the understanding reached just before congress adjourned that this work would not be curtailed.  
Senator McNary, of Oregon, the republican leader, took the matter up with Robinson yesterday and the decision quickly followed to withhold the cut until congress reconvened and passed on it.  
Meanwhile, senators forwarded to the agriculture department scores of protests from constituents against the proposed discontinuance July 1 of the market news service.  
Senator Dickinson (R., Iowa), said the protests were becoming rather general and farmers in his state were opposed to the abolition.

### POLK COUNTY TO KEEP SCHOOL BUSES

Dallas, June 21—Unofficial returns from 29 of the 53 precincts in Polk county indicate the election of A. R. Adde, W. Frank Crawford, Jess V. Johnson, L. N. Lindeman and George D. Stewart for directors, all of whom are in favor of retaining school bus transportation.

### JONES CASE WILL REACH JURY TODAY

Medford, Ore., June 21 (AP)—The trial of Walter J. Jones, mayor of the town of Home River, charged with complicity in the recent Jackson county ballot theft case, was expected to go to the jury late this afternoon.  
The court yesterday ordered a special jury venire of 30 names to be drawn for the trial of John Glenn, former county jailer, on the same charge. This trial has been docketed for Thursday morning. Arthur La Dieu, the first of about 20 defendants in the case, was convicted last week.  
Yesterday's afternoon session was devoted chiefly to lengthy cross-examination by the state.
