French Artist Exhibits

Art circles of the city are interested in the exhibit of oils and water colors by Marius Hubert-Robert, famous Paris painter, which is being shown in the Y. M. C. A. lobby. M. Hubert-Robert has exhibited in all the noted galleries of Europe, England and America.

Deserts are particularly fascinating to M. Hubert-Robert, and it is those which he paints with such vibrant colors, and with flourishes of the technique which grasps the atmosphere of the desert. He has painted the deserts of Asia Minor, Africa and America, and the landscapes of Normandy, Spain, South America and the Orient. From his travels he has produced 11 books of pictures and text.

Last summer and fall M. Hubert-Robert and his wife, Regine, completed a Canadian tour for a volume dealing with the snow and prairies of that country, with Madame Hubert-Robert preparing the narrative and M. Hubert-Robert the full page color illustrations. They have spent most of the winter season in California.

M. Hubert-Robert paints a great deal for 'L' Illustration, the finest illustrated weekly of Europe. He also paints for the Illustrated London News. His paintings are owned by the war museum and the Invalides in Paris; the Concoran galleries in Washington, D. C., and in the art galleries in Buenos Aires, Chicago, Brooklyn, Buffalo, San Francisco and a score of famous European centers.

The artist and his wife will arrive in Salem around the first of July to be the house guests of Mrs. Clifford Brown. Much informal entertaining is being planned for the distinguished visitors.

Abiqua Marker To Be Placed

One of the most important events in the year for Chemeketa chapter, D. A. R. will be the dedication of a marker on the site of the battle of the Abiqua four miles east of Silverton, the dedication ceremony to take place Saturday, June 24.

To some, this battle has been regarded as of little importance but to those who have made a thorough study of the history of events leading up to and following the battle it is of utmost consequence. Marion county should well be proud of these early settlers who took part in this battle since within the confines of her boundaries only two events took place which are of great importance in the history of the state. The Jason Lee mission which has already been marked and the battle of the Abiqua. This battle, though it meant so much to the settlers of the Willamette valley and their descendants, is unfortunately little known.

Few of those of us who now reside within this fertile valley realize that if it had not been for the prompt and decisive action of those brave pioneers, many of whom were the founders of some of our most prominent families of today, this country would not have been settled by the white men for many years to come and in that event, the whole personnel of the valley would have been changed.

Following the first severe winter the pioneers endured, suffering heavy losses in stock and supplies,

McIntire, Dr. Mary Rowland, Miss Grace Elizabeth Smith, Miss Grace Gilliam, Miss Lucy Higgins, Miss Helen Lytle, Miss Renska Swart, Perry Reigelman and the hosts, Mr and Mrs. C. A. Lytle.

all the able bodied men of the country were summoned to go north to Walla Walla to retaliate for the hideous murder of Marcus Whitman and his followers. As in this time so it was then that a few rebellious leaders could stir up a whole tribe against the settlers. Several of the Indian leaders, Coosli, Red Blanket and Crooked Finger would go about the country, terrorizing the women and demanding food, clothing and stock. The Klamath, seeing that there was no one left but women and children and that they must yield to their demands.

About the first of March, 1848, a group of the men who had stayed behind, many of them who were young boys, decided that something must be done about the alarming situation. They gathered together, elected officers and after some days of drilling proceeded to where the Indians were encamped on the banks of the Abiqua and on the fifth and sixth of March engaged in the battle which is to soon be marked by Chemeketa chapter.

When You Buy A KELVINATOR

You are not buying an experiment, promoted by some stock booming concern. The Kelvinator has passed the experimental stage and for nineteen years has been the leading Electric Refrigerator.

During the month of May the Kelvinator factory turned out over 43000 refrigerators for use in homes, stores, hospitals, battle-ships, yachts, government buildings and every kind of place where reliable refrigeration is required.

The Kelvinator has more to offer and at no higher price than the untried, unknown and unproven kind. A Kelvinator will last a lifetime and give the best of service. Then why experiment? It's too costly.
