The street commissioner was ordered to post notices for the rebuilding of the sidewalk trestles along the fill on Hardcastle avenue and Gatch avenue.

Some time was spent in discussing the matter of municipal lighting and it was the opinion of the council and Attorney McCord that the city is paying entirely too much for light. The matter was left for investigation and action at a later date.

NOMINATION OF FORUM LEADERS WORK OF GROUP

Silverton—At the first meeting of the fall season of the Silverton chamber of commerce Wednesday evening in the social rooms of the Methodist Episcopal church, the president, Ernest Starr, appointed a nominating committee, and a committee to campaign for the Boy Scout movement. Earl Adams spoke in behalf of the preference of the North Santiam pass as a highway to the central Oregon territory over other routes, and E. L. Graves of the Boy Scout executive committee of Salem, made a plea for $300 donation as a portion of the amount, totaling practically $3000 to be raised to carry on scouting in the Cascade area.

Serving on the committee to nominate officers for the coming years are L. C. Eastman, chairman, George Steelhammer and R. B. Duncan, S. Parzy Rose and Carl Anderson will supervise the campaign for scout funds. The nominating committee will report at the October session. New members welcomed into the forum were Dr. Charles O. Anderson, who has recently come to Silverton as an optometrist, George Anderson, Dr. R. M. Stewart, Errol Ross and C. W. Cain.

Adams made his report on the North Santiam highway project as a representative of the road committee of the forum. He told of Starr and himself making the trip by way of the North Santiam route into Bend and Prineville communities in connection with a delegation from Salem, Mill City and Stayton, of their conference with officials of the central Oregon territory and reported their favoring the north route because of the shorter distance, easier grade, and a large portion lready completed. Adams also mentioned that it was a splendid idea in connection with the proposed Cascade highway that will eventually touch Silverton.

Robert Goetz, chairman of the membership drive committee reported surprising success in their undertaking and a commendable cooperation of the business men for the best interests of the chamber of commerce.

Graves met with a positive mental opposition to the contribution towards the work of the Cascade area Boy Scout movement and was told in no uncertain manner that the reason there was opposition to the contribution was because Silverton had been woefully neglected by their past executive in giving sufficient attention and aid to local boy scouts. The members of the forum expressed appreciation of the high standards of the Boy Scout movement in general but made themselves plain on the local executive situation.

Graves pointed out that no executive was in office at present and the position was being kept open until after the drive with the hopes that a new executive may be appointed. He gave the figures of $4.50 per boy cost for maintaining the work. He also cited the members to the fact that there had never been a first class Boy Scout in the Oregon state reform school. He bravely countered every objection from the members and promised a better service in the future should the local drive materialize.

The president mentioned as a closing thought to the members that this was the first meeting of the season and asked each one present to feel personally responsible for some good ideas for the forum to sponsor in the interest of the town and community welfare to be presented at the October meeting.
