

### CREDIT GIVEN FOR COURSES BY EXTENSION

People of Salem will be extended the opportunity of taking regular college and university courses, for credit if desired, during the coming school year, it is announced by W. C. Beattie, of the general extension division of the state board of higher education. Courses, which will be held evenings at the Salem high school, will include school hygiene, mental hygiene, office procedure, educational psychology and book and play reviewing. All courses will start during the week beginning September 25.

The faculty, all of whom are well known and are authority in their educational fields, will consist of O. R. Chambers, professor of psychology at Oregon State college; H. V. Matthew, professor of education, general extension division; S. Stephenson Smith, associate professor of English at the University of Oregon; H. T. Vance, professor of business administration at Oregon State college, and George W. Hug, city superintendent of schools here, who will teach the course in school hygiene.

The course in educational psychology will include a study of the laws of learning and their application to the classroom; motivation in learning, transfer of training, memory, forgetting, and the psychology of secondary school subjects.

School hygiene will deal in provisions requisite for the hygienic conduct of education. Oregon laws, regulations of the state board of health and other school and local authorities will be explained in detail.

The course in mental hygiene is intended to aid the individual in making his own adjustments to the rigors of social life, as well as to help him in aiding others. The course is of particular value to teachers, parents and group leaders.

A training in stenographic methods and office practices will be found in the course on office procedure. Principles and practices of scientific office management covering organization, arrangement and operation, with special consideration of the employment and training of office workers will be studied.

Students may register for the courses at the first or second meetings. Full information may be obtained from the general extension division at Eugene. The schedule of classes will be as follows:

School hygiene—Monday, 7:15 to 9:15, room 2Q, Mr. Hug.  
Mental hygiene—Tuesday, room 2A, Dr. Chambers.  
Office procedure—Tuesday, room 2Q, Mr. Vance.  
Educational psychology—Wednesday, room 2Q, Dr. Matthew.  
Book and play reviewing—Friday, room 2Q, Mr. Smith.

### Near Centenarian Still Enjoys Bike

Dedham, Mass. (AP)—Hans P. Nielson's next birthday anniversary will be his 90th, but bicycling is still his favorite recreation, just as it has been for a full half century.

Almost every day, winter and summer, finds him pedalling over the roads south of Boston. Twenty-five miles is what he ordinarily covers in a day. He credits cycling with keeping him fit.

Peoria, Ill. (AP)—Plans are being made here for construction of the largest distillery in the world. The completed plant, which is projected by Hiram Walker & Sons, Inc., will cover 19 acres, will grind 20,000 bushels of grain daily and will turn out 12,000 barrels of liquor weekly.

### Elegant New Negligees

Long slender lines distinguish this negligee of white crepe. The sweeping sleeves and side drapery are of white embroidered mousseline.

Paris (AP)—The new negligees are as elegant as evening gowns, with heavy crepes and dull satins cut on long slender lines prominently featured.

Less lace is used than last year, many of the models being untrimmed.

One white crepe negligee has long sweeping lines, with side drapery and sweeping sleeves made of white embroidered mousseline.

**ELEGANCE IN LINGERIE**  
As in negligees, so in the lingerie designed to wear under the new fall frocks is elegance the rule.

Long slender silhouettes, fashioned to fit the figure without a single wrinkle, delicate hues and fabrics with sheen make the newest models.

Although femininity is the essence of their design, ostentation is taboo. Applications of point d'esprit, or tulle are taking the place of lace on a number of designs, since lace now bedecks some of the cheaper lingerie.

**SLIPS SUPPLANT CHEMISES**  
Slips, cut on the bias and fitting the figure like a glove, are supplanting the brief chemise in many houses, where designers say their

### WINE CROP UNDER WEATHER THREAT

Bordeaux (AP)—Too much good weather threatens to make the Bordeaux wine crop one of the smallest in history, but it promises to make 1933 a fine vintage year.

Such famous regions as Pomerol, Fronsac and Loupiac report that in some sections grapes are being virtually cooked on the vine. Since the harvesting begins this month, there is scant hope that late showers will bring the crop to normal.

Continual sunlight, however, prevents mildew and impregnates the grape with all those qualities which make for fine aroma and a rich flavor.

## Genuine First Quality Oriental RUGS

### At Extremely Low Prices

For one week only, beginning Friday, Cartozian Bros. Inc., largest importers of Oriental Rugs on the Pacific coast will have a special display and sale at our store.

It is a known fact that due to the drop in the value of our American dollar in foreign markets, the purchasing power of our dollar is not nearly as great as it was a short time ago.

Mr. Leo R. Powell who is representing Cartozian Bros. with the special display says that, "the market on Oriental Rugs is rising in prices almost daily, and that now is the time for people to purchase their floor coverings while prices are still so extremely low."

Don't pass up this last opportunity for saving on the purchase of these beautiful rugs. You will never again be able to enjoy the savings that these prices represent today.  
Come in and see these beautiful floor coverings. You will be surprised at how low they really are. Even though you may not be ready to buy now, you will thoroughly enjoy seeing them. And you will learn at how very reasonable a price you can have new Oriental Rugs for your entire home.
