

# LOCALS

Ideal weather prevailed at the coast Thursday, persons who returned from the Netarts district report. A warm sun shone virtually all day, making surf bathing fairly comfortable. Violets and daffodils are blooming in profusion in secluded spots. Residents of the coast town state, however, that rainy weather has been the rule in recent weeks.

**Large crawfish at Echerenz.**  
The state highway commission today awarded the contract for paving the Pacific highway on Franklin and Broadway streets in Eugene to the Mountain States Construction company of Eugene for \$28,000. The project was held up for some time pending city action in establishing a grade line on the street, it was announced by the department.

**5% Beer Set at Maudie's.**  
Marriage licenses have been applied for by P. A. Bostad, 21, Vancouver, Wash., and Gladys More, waitress, 21, Foster, Wash.; Wilfred P. Robinson, 27, telephone technician, 22, and Lenore E. Meade, 21, school teacher, both Salem.

**In the case of Josephine M. Shepard against A. C. Bark.** Sheriff Judge McMahon has entered an order requiring immediate delivery to plaintiff of 200 bushels of wheat, 80 bushels of barley and 20 bushels of spring oats.

**Uncle Tom's Cabin.** No recd. 24

**Applicants whose names begun with the letters H. I. or J. may appear to file their applications for old age pensions at the court house Monday. The letters H. and I. have been allocated for Tuesday. Applicants are taken on the fourth floor of the court house in the wheat production control room.**

**Follow the crowds to Brookbrook Sat. night 4 p. m. lead.** 24

**Action was instituted in circuit court today by Associated Insurance companies against J. C. Tibbitts, local insurance agent. To collect \$251.94 alleged to have been received in premiums which the companies allege was never turned over. The total alleged in the complaint was \$370.94 of which the complaint states Mr. Tibbitts was entitled to \$94.93 in premiums.**

**Second time today, Capitol Inn 24**

**Edgar R. Austin, cashier and accountant for the World war veterans state aid commission, has just received from the War Department general orders of the ninth corps area at San Francisco to report for 69 days active duty at Fort Ben-**

**MILK PROGRAM BY PRODUCERS PROPOSES POOL**  
Portland, Jan. 27 (AP)—A tentative program for rigid regulation of dairy production, the discouragement of new entries into the dairy industry, and an equitable allocation of surplus losses by formation of a pool, was submitted to about 60 producers and distributors of the Portland milkshed by the Oregon milk control board here today.

The proposal for production restrictions is designed ultimately to stabilize the entire industry. The board and distributors who heard the plan today were said to have given almost unanimous approval. Possible modification will depend upon data submitted by interested factors.

The plan provides for control and regulation of surplus production for the Portland area. The board will, prior to February 15, if the plan is adopted, propose for payment to all producers shipping grade B milk or cream into this area on a uniform pooling basis, and will provide for establishment of uniform basic averages for each producer after February 1 of payment of basic and surplus prices.

To effect this control a pooling agency will be designated by the board. Milk dealers will be ordered to make no payments for grade B milk or cream received by them on and after February 1 until this agency is organized.

For the restriction of production in this area, the plan provides that "no grade A raw milk and cream which is not produced within the Portland area shall be sold in the Portland area, unless the same is produced by grade A raw producer-distributors who were actually selling grade A milk or cream in the Portland sales area on December 15, 1933."

**500 REGISTER IN CWA SCHOOL**  
That the civil works service educational program which was inaugurated about a month ago under the direction of T. P. Mackenzie, vocational director, through the means of night classes at Salem senior high three evenings a week, is filling a demand from the public was indicated Friday night when virtually all of the 500 persons who have been participating in the program were re-registered for the second month's work. Approximately all of those re-registering declared they wanted to continue the subjects originally started.

Registration of persons new to the classes will take place Monday and Wednesday night between the hours of 7 and 9. Registration blanks will be available at a desk which will be placed in the main corridor of the building.

While some of the classes will be specially especially if many more persons register, there are a few courses which are not crowded. These included advanced shorthand, commercial law, practical nursing and economic problems of the day. Penmanship, shorthand, and advanced shorthand most have had a year's work along that line in addition to being fairly proficient with a typewriter.

The second month's classes will not get underway before February 3.

**PARDON SOUGHT FOR EVADER OF DRAFT**  
Philadelphia, Jan. 27 (AP)—President Roosevelt has been asked to pardon Grover Cleveland Bergdoll, notorious draft dodger, now in Germany.

Mrs. Emma Bergdoll, his mother, requested that the pardon be granted as part of the day's birthday celebration next Tuesday.

Mrs. Bergdoll, who will be 73 next July, said her son had harmed no one and should not be punished. "I am lonely," she said. "I need him to help me. He has three children I have never seen."

**GERVAIS BALLOTING SET FEBRUARY 24**  
The district boundary board has found that the special election to vote on dissolution of the Gervais Union high school district cannot be held on February 17, as originally requested, and the date of election has been set for February 24.

The reason for having to designate a later date for the election lay in the fact that there was not time to post notices as required by law and still hold the election on February 17. The law requires that notices must be posted for 20 days and there was not sufficient time left to get the notices out to all the districts in the union high school district and still leave 30 days before that date.

**WANT O & C FUNDS NATIONAL FOREST**  
Washington, Jan. 27 (AP)—President C. C. Sheppard of the National Lumber Manufacturers association today said that all forest owners subject to the lumber code will begin within 90 days to put into effect conservation measures agreed upon at conference here.

The rules decided upon mark the first introduction of conservation practices in all major private forest lands of the country. They provide for discriminate cutting of timber to leave young timber standing for future use.

The conference also asked for a \$200,000,000 federal revolving fund to aid forest conservation and proposed that President Roosevelt file before state governors a program of deferred taxation. Request also was made for a \$10,000,000 annual federal appropriation for fire protection. It was recommended that the Oregon-California railroad grant in Oregon, aggregating 40,000,000 feet of lumber, be turned over to the government as national forest land.

**Hopes of Wilhelm Dashed by Hitlerite**  
Berlin, Jan. 27 (AP)—Any ambitions of the former kaiser "or any other old-fashioned king" to return to the throne of Nazi Germany were flatly dashed today in a statement to the United Press by a high party leader of the Hitler government on the former emperor's 75th birthday.

The statement came a few hours after a group of former imperial army officers gathered at the Marmonell to drink a birthday toast to their former monarch who was depicted as a mad brown shirt.

Hitler is the restorer of authority from above and discipline from below, he is the restorer of self respect and hope, but no restorer of kings," the party leader said.

**UMATILLA INDIANS OFFERED TRIBAL LAND**  
Pendleton, Jan. 27 (AP)—Indians of the Umatilla reservation were today studying a proposal advanced by John Collier, Indian commissioner, that tribesmen give up individual land and a government operate through a corporation to be managed by the Indians themselves.

Under Collier's plan, the Indians would transfer property rights to

**ASK SALVAGE OF FIRE SWEEPED TIMBER AREA**  
Washington, Jan. 27 (AP)—Demands for immediate salvage of the forested timber in the Oregon forest fire region where 225,000 acres of timber land were burned over last summer, were voiced here in a committee report to the forest conservation conference.

Citing that thirteen billion feet of valuable fir timber was either damaged or destroyed, the report, given by Lynn F. Grossmiller of the Oregon forestry department, said "immediate salvage is imperative to prevent the loss of this vast resource and of the great public benefits of employment and tax revenues which will result from its operation."

"This catastrophe we regard as constituting a national emergency problem of a type which warrants and necessitates special treatment of both public and industrial agencies," the report said.

Using the Oregon situation as an example, the committee recommended that the lumber code authority shift production allotments in this and similar cases to "permit it to be marketed with minimum loss."

The report also asked that the federal government give "preferential consideration to such salvage operations in extending financial or other aid for the development of operating facilities, additional fire protection or in any other manner authorized by law, and to enlist the cooperation of state and other local agencies."

The recommendations were not limited entirely to fire damage, the committee suggesting that similar treatment should be accorded in cases of damage by wind, disease or insects.

**BOMBS FEATURE MINERS' STRIKE**  
Wilkes-Barre, Pa., Jan. 27 (AP)—Five dynamites and an incendiary fire, stemming and other violence marked the strike of anthracite miners in the Wyoming valley today.

Three houses were damaged by bombs at Pisana and two homes were damaged at Larkville.

Fire destroyed an engine house at East Boston Coal company. Officials said that the building apparently had been fired.

At Hanover township, strike sympathizers threw rocks through windows of the homes of miners who had continued to work despite the strike order by the United Anthracite Miners of Pennsylvania.

Pickets attacked and beat Edward Lane, 21. The man, who said he was unemployed, was seriously hurt.

Police arrested pickets in South Wilkes-Barre on charges of violating a court injunction which prohibited picketing near Glen Alden company property.

**TO PROSECUTE FRUIT SHIPPERS**  
Seattle, Jan. 27 (AP)—Vicious measures to enforce the northwest fruit marketing control program under authority of the agricultural adjustment administration have been decided on, the control committee announced following a two-day session here. Representatives attended from Oregon, Washington, Idaho and Montana fruit growing areas.

Paul A. Scherer, Medford, Ore., president of the control committee, said he believed greatly increased prices of all varieties of fruit over those received for previous years had been due largely to marketing control and minimum price regulations.

The committee considered charges that two Yakima shippers sold quantities of "C" grade apples contrary to marketing control regulations and that they refused to make daily sales reports to the bureau of agricultural economics as required by the marketing agreement and license.

The committee, following a hearing, recommended that the secretary of agriculture should suspend their federal licenses and require payment of reparation.

**GANGSTERS RAID POLICE EXHIBIT**  
Boston, Jan. 27 (AP)—Three gunmen looted the Massachusetts state police exhibit at the Boston auto show today. The robbery apparently had been carefully planned. The gunmen, who had been hiding in a truck, carried the weapons and ammunition to a waiting car near the Belvidere street entrance of Mechanics building, where the show is being held.

They held two watchmen at pistol point as the pair made their tour of that section of the show in which the police exhibit was quartered.

The watchmen—Lucien Herkian and George Mason—said the gunmen took their time about breaking open packing boxes and ripping open the rear door of a state police radio car in their search for weapons.

They said one of the trio looked into the interior of the police portable radio station and remarked, as he turned away from the truck, "We'd take this too if it had any gas in the tank."

The exhibition floor was dimly lit, the watchmen said, and they were unable to give an accurate description of the robbers. A hasty checkup of the police exhibit revealed the following weapons and ammunition missing: One Thompson machine gun (navy type), four shotguns (six type), one 38 mm gas rifle, six Mills bombs, six gas shells for use in a pistol, and four 38 mm gas shells.

The exhibit had on display all the most modern types of weapons used by police in combating crime.

**PILGRIMS GIVEN WARNING BY POPE**  
Vatican City, Jan. 27 (AP)—Pope Pius delivered a warning today against materialism, paganism, atheism, communism and protestantism to an audience of 300 holy year pilgrims from South America.

"There are many perils," said the pontiff, "in the spirit of communism, materialism, and atheism which attempt to penetrate the soul of the family and lead it to destruction."

He said Protestant proselytism was particularly dangerous because "while it does not succeed in destroying faith, it creates an indifference which produces so much bad in the spirit and annuls the precious treasury of Christian life."

**SET HEARING ON PEPCO BUDGET**  
Public Utilities Commissioner Charles M. Thomas today ordered a hearing Friday 6 on budgets of the Portland General Electric company and the Portland Traction company.

The hearing will be held at the Multnomah county court house, Portland, to consider administrative expenses, donations, contributions and salaries of officials.

Thomas issued a preliminary order earlier in the month, allowing the companies a hearing before final orders should be made. Heavy reductions were ordered by the commissioner in budgets of several other firms.

**10,000 CHINESE ARE REPORTED MISSING**  
Shanghai, Jan. 27 (AP)—Sensational Chinese reports claiming 10,000 men, women and children have been drowned, frozen to death or are missing in Hopei and Honan provinces along the rising Yellow river, appeared in vernacular newspapers today.

The dispatches, which relief organizations and other sources here considered exaggerated, mentioned thousands were homeless in the inundated districts with freezing weather adding to their suffering.

The reports portrayed a vivid picture of the ascertained conditions in the flood area. It was said that ice cakes were existing in the raging currents engineering rescuers and hampering relief work. Several boats carrying clothing, medicine and supplies have been smashed by the ice, it was added.

Chief Justice John L. Rand today named assignments for two circuit court judges. Judge Arthur D. Hoy of Lakeview was named to assist in Portland cases, and Judge Carl Hendricks of Fossil will be sent to Baker to hear cases for Judge C. H. McCosh.

Earl C. Bushnell, city building inspector, is confined to his home with illness.

**Hit-and-Run Driver Kills Bend Citizen**  
Bend, Ore., Jan. 27 (AP)—The victim of a hit-and-run driver, Movin Olson of Bend was fatally injured on the Dalles-California highway here last night. A small boy was the only witness to the accident. The car was going north. State police and Deschutes county officers started a search for the driver immediately.

**COQUILLE BAR GETS HEARING**  
Washington, Jan. 27 (AP)—A public hearing will be held here on January 29, to hear evidence on improving Coquille river bar and entrance in Oregon, the board of army engineers announced today.

The division engineer reported the existing project was estimated to cost \$100,000 with \$20,000 annual maintenance. He said the cost of new work already has exceeded the original estimate and that the project is far from completion. Ledge rock had been encountered in the entrance channel and it appeared that the proposed depth of 10 feet cannot be secured and maintained on the bar without re-building and extending both jetties, the report said. Under the circumstances the engineer estimated it would cost about \$300,000 additional to complete the project and said the investment in the region did not justify such an expenditure.

He recommended that new work be discontinued and to maintain only the present depth of 13 feet.

**NO PROSECUTION FOR LYNCHINGS**  
San Jose, Calif., Jan. 27 (AP)—At a session featured by a verbal clash between Sheriff William J. Emig and attorneys for the families of two lynched victims, a Santa Clara county coroner's jury today decided that Jack Holmes and Thomas Thurnmond died last November at the hands of an "unknown mob."

"We find that Jack Holmes and Thomas Thurnmond died by strangulation by hanging at the hands of a mob, members of which are unknown to the jury," the coroner's official verdict after six witnesses had testified.

Last witness to be called was Sheriff Emig, who staunchly upheld his actions after Holmes and Thurnmond were arrested and charged with the kidnapping and murder of Brooks Hart, young San Jose businessman and member of a leading family of the city.

Attorney Alfred Aram, for the Holmes family, and Emmet Gottberg, representing the Thurnmond family, took issue with the sheriff's official points. They were joined by Mrs. Carl Karmazell, sister of Thurnmond, who rose from her seat to question him.

Aram said Emig erred in taking the two men to the San Francisco jail and then returning them to the Santa Clara county jail where a crowd had started to gather and the situation had become more dangerous than before the San Francisco trip. He said Emig took them to San Francisco for "safe keeping."

**RETURNS TO CANADA**  
Jefferson—Mrs. Roy Rogers of Lindsay, Canada, who has been visiting relatives in the Parrish Park district left for her home Thursday. Mrs. Rogers is the niece of Mrs. Anna Siedler.

Motor vehicle accidents reported over night were: Eugene Tucker, route 6, and an unidentified driver, at State and 12th. W. J. Miller, 411 North Front, and Mrs. Mary Vincent, route 7, at Marion and Capitol.

**FIRST LADY'S VISIT ALTERS SCHOOL DIET**  
Washington, Jan. 27 (AP)—Because Mrs. Franklin D. Roosevelt made a surprise visit to school lunch rooms here, the children being fed from federal relief funds will have a change of diet.

Harry L. Hopkins, federal relief administrator, emphatically said today a change would be made quickly.

He explained the relief administration was not satisfied with the quality of food served and he would appoint a capable dietitian to supervise the spending of relief funds.

Mrs. Roosevelt found children at one school lurching on a bowl of thin soup and a roll sparsely spread with peanut butter. She thus learned that when she recently made an official visit to school lunchrooms, a "company" luncheon had been served.

Mildred Verd Smith pleaded guilty in justice court Saturday to a charge of driving his car with defective brakes. Justice of the Peace Hayden said he would recommend to the secretary of state that Smith's driver's license be revoked for three months.

James P. Shelling of Rogue River, this week filed the only large application for water permit with the state engineer, C. E. Stricklin. He asked to appropriate five second feet of water from the east fork of Pleasant Creek for mining purposes in Jackson county.

**CARD OF THANKS**  
The family of Blase Monroe Neave wish to express their appreciation to friends in their bereavement.—Donald Neave and brothers and sisters. 23
