Bridge Tea Today At Irwin Home

One of the loveliest affairs of this week was the bridge-tee given this afternoon by Mrs. Clifton Irwin, complementing Mrs. George A. White and her daughter, Miss Henrietta, prior to their departure for Manila.

The drawing room was decorated with large bouquets of narcissi, daffodils and golden tinted tulips. Smart in its appointments was the attractive tea table which was covered with an imported cloth and centered with daffodils and gold tulips in a white pottery bowl. Ivory tapers in wrought iron holders placed on either side of the centerpiece added to the color scheme of white, yellow and green.

The hostess presided at the urns during the tea hour and was assisted by Mrs. H. O. Malson, Mrs. Karl G. Becke and Mrs. W. H. Poorman.

Guests included Mrs. George White, Miss Henrietta White, Mrs. Romeo Goulet, Mrs. Homer Goulet, Mrs. Margaret LePurge, Mrs. William McGilchrist, Jr., Mrs. Homer Smith, Sr., Mrs. Wallace Carson, Mrs. Charles G. Robinson, Jr., Mrs. Thomas E. Rilea, Mrs. H. C. Malson, Mrs. W. H. Poorman and Mrs. Karl G. Becke.

It means something—

Perhaps the best type of machine ever built for moistening tobacco. Recently perfected from a model built in our factory and now used in the manufacture of Chesterfield Cigarettes.

This picture shows the machines used to remove the stems from Chesterfield tobaccos.

THIS most modern way of moistening tobacco for stemming—first used in the manufacture of Chesterfields—opens up the pores and puts the tobacco in condition to remove the stems.

The tobacco is put into the wire baskets stems down and enters the long steel ovens where the steam comes up from below, softening the stems without wetting the rest of the leaf.

The stems are removed by stemming machines of the latest type.

Everything that modern science knows about, or money can buy, that can make a milder cigarette, a cigarette that tastes better, is used in making Chesterfield.
