DOWNTURNS IN WHEAT VALUES

Chicago, April 18 (AP) — Wheat crashed downward late today 5 cents a bushel, the extreme limit that existing regulations allow in any 24-hour period.

A statement ascribed to Secretary of Agriculture Wallace that domestic and world prices of wheat would work closer together during the present year led to a general liquidating sales on the part of holders of wheat on a market bare of any aggressive demand. Wild fluctuations followed the 5-cent fall of the market, with heavy stop loss selling a feature.

This was the eighth successive day of declining prices for wheat in Chicago. It was noted as significant that the Liverpool wheat market closed today, 12½ cents a bushel under the Chicago May delivery, compared with 18 cents discount Monday. Contributing to weakness of the Chicago market was arrival of nearly 50 carloads of wheat from Kansas City bought for Chicago handlers.

Wheat closed feverish, 2¾-3 cents under yesterday's finish, May 74⅞-75, July 75-75⅛; corn unchanged to ⅝ higher, May 43⅛-¼; July 45⅝-⅝; oats ¼ off to ¼ up, and provisions unchanged to 15 cents down.

Chicago, April 19 (AP)—Wheat prices on the board of trade broke five cents a bushel late today under pressure of heavy liquidation that followed a statement ascribed to Secretary of Agriculture Wallace that domestic and world prices of wheat would be closer together during the present year.

The drop was the maximum permitted under present trading regulations.

At the close of liquidation prices scored a rebound of two cents from the day's low. The market in early trading had lacked aggressive demand with mild fluctuations following the fall caused in part by the execution of stop loss orders.

It was the eighth consecutive trading day that wheat prices on the board have dropped.

May wheat at the inside figure sold at the lowest level of the season with the exception of October 17, when it was down 71½ cents a bushel. The September offering sold at a new low but a broad demand developed on the decline, with commission houses and short sellers buying freely.

Routine news attracted little or no attention. Dry weather and dust storm reports were received from the northwest.

Material downturns in wheat values early today followed Washington official forecasts of wheat market adjustment to a world level this year. For the time being, reports of unfavorable crop conditions in domestic spring wheat territory were neglected. Opening ¼-1½ lower, May 76⅝-⅞, wheat afterward held near the initial limits. Corn started at ¼-⅝ decline, and subsequently rallied.

Too Much Shooting Wearisome to Wife

Chicago, April 19 (AP)—Mrs. Mary Pickley does not object—at least not very much—to her husband, Thomas, being in the beer business. But she has grown weary of dodging bullets aimed at him, she said in a separate maintenance bill.

ADVANCE IN LOCAL BUTTER MART TODAY

Portland, April 19 (AP)—Butter advanced one to one and one-half cents a pound today. Butterfat also advanced.

While there continues, as usual, much backbiting in the egg trade, quotations are generally being maintained here at the recent advance to 17c for extras with oversize at 19c. There has been no change in buying values.

While California strawberries were steady as a rule for the day, some offerings showed very erratic values. Top stuff generally commanded $1.25 crate for 24s. There continues insufficient Oregons to establish a price.

Fractional price loss is showing for country killed calves here as a result of recent cuts in the livestock price. Hogs are about steady but spring lambs are down 1 to 2c pound.

Low prices on old potatoes has somewhat increased sales volume again locally although no buying at country points is suggested because of the great accumulation in Portland storage.

Lower prices continue to be named for Texas and Florida new potatoes as well as for Hawaii offerings with the formal offering of new crop California garnets. Whites from there are due within a few days.

Good celery is very scarce.

Best lettuce from Sacramento is firmer.

Asparagus is down sharply.

Green beans again slightly lower.

Cut of 20c hundred pounds in sugar effective.

Some old local cabbage is again offered around 1½c pound.

STOCK PRICES STATIONARY AS BONDS ADVANCE

New York, April 19 (AP)—Stocks moved irregularly today with dealings light. Grains, especially wheat, fluctuated widely; cotton at one time was off $1 a bale. Bonds advanced.

Early afternoon saw wheat drop sharply with the May and July positions off the limit of fluctuation for a single day—5 cents a bushel. It later rallied.

Cotton broke more than a dollar a bale. It, too, rallied. Stocks were only momentarily affected. Silver and rubber were unperturbed.

Measured by the averages, the stock market did practically nothing. Small gains in rails and steadiness in utilities were offset by a mild decline in the industrial average.

Gold mining shares were weak on announcement of imposition of a 10 per cent tax on gold by the Dominion of Canada. Silver issues lower for a time, rallied when it was learned the president had agreed to meet with representatives of the silver interests. Copper issues were steady most of the day.

Crucible steel preferred rose a point to a new high for the year on a statement directors would be asked to pay some of the accumulated dividends if business continued to hold up. Gains of 1 to 2 points were made by U. S. Rubber first preferred, and American Smelting. Steels firmed late. Rails were higher on indications of another rise in car loadings. Motors, except Auburn were slightly higher.

QUICK CLEAN-UP OF ONION CROP

Portland, April 19 (AP)—With probably not more than six cars unsold in all positions, the formal closing of the season for the sale of old crop onions at Oregon primary points is scheduled for the next few days. A quick cleanup is suggested as a result of the recent sharp improvement in demand. The latest sale was at $1 and sacks.

About 30 carloads are held in Portland storage and these finally will drift upon the market which is firmer locally and quite active with sales by wholesalers to retailers reaching $1.50. Most of the trade is in 2s, but these are firmer as a result of the shortage of 1s, and the higher price on the latter.

The first new crop Bermuda type onions are due in Portland in a few days, meaning that the old season will practically close with arrival of the new stock, a condition not generally shown.
