There were very fluffy chicks only four days old, bantams, baby Persians, litters of pups, birds, goats and pets of all ages and kinds with an array of dogs that were the envy of every boy in the parade. There were low water spaniels and others of all kinds, sizes and kinds. The parade started promptly at 1:30 o'clock led by the car bearing the president of the Civic club, Mrs. George Gensky, and announcing by big placards "First Annual Pet and Floral Parade" sponsored by the Civic Improvement club, Boy Scouts bearing the U. S. flag followed and then the children. The parade when formed in a mass stretched a block and a half and over 125 entries were made. The line paraded south from the city hall to Main street one block, turning one block to Houser's Chevrolet company, then back, turning to Bridge street and going two blocks to McIntyre's station and returning one block to Mill street one-half block to Bayliss' creamery. ### MINE OPERATIONS BEING CONTINUED

Monmouth—Lee Payton, who came with his family from eastern Oregon this week and is at A. C. Stansborough's home, has for some time been engaged in mining in the vicinity of Prairie City. Although Prairie City sounds like the wide open spaces, it is a sort of cove in the Blue Mountains in Grant county where it is the western terminus of the Sumpter valley railroad.

Payton has located a number of claims in the mountains near Prairie City but spends most of his time on a quartz mine which he works with a partner. They have a small mill, operated by water power in which the ore is crushed, treated and the gold recovered by passing over copper plates.

He says the past winter was moderate with little snow but in ordinary winters they have from two to three feet of snow and the winter of 1932-33 they had it 32 below zero. The elevation is between 4000 and 5000 feet which disagrees with Mrs. Payton's health and she will stay in Monmouth for the summer.
