## SHIPOWNERS AGREE TO MEDIATE

### HEAT DEATHS EXCEED 188 IN MIDDLE WEST

Temperatures Over 100 Prevail Throughout Drought Stricken Area  
Water Shortage Grows Acute—Loss In Livestock Mounting Hourly

(By the Associated Press)  
The third day of 100 plus temperatures today boosted the toll of the country's intense heat wave to 188 deaths.

To the list of 100 victims claimed by the sweltering heat of Thursday and Friday, the day added another 88. Scores more were prostrated.

Twenty-eight were dead in Chicago alone; Missouri's toll for the three days rose to 61; 25 "heat deaths" had been reported in Kansas City.

From Ohio to the southwest, the mercury boiled upward, again hitting highs of 105 in Cincinnati, 108 in Defiance, O., and passing the 100 mark long before noon in the sun baked plains of the central states.

In many cities, the day's readings seemed likely to break long time July records and to outdo the high set by Friday's blazing assault.

Before noon, the 100 mark had been passed in Ohio, where the day brought an unofficial reading of 108 degrees. Promised some relief by Sunday, Iowa baked again in a temperature of 100.

Other readings, as the mercury mounted, included 89 degrees at (Concluded on page 9, column 6)

### Good Evening! Sips for Supper

By DON UPJOHN

If the vigilantes keep on their instant course it won't be long before the reds will be blue.

Stop signs put at High and Liberty streets on Mission are apt to be highly derogatory to business around here, based on past records hung up by those corners. Business is apt to be hit at about the following ratio:

Repair work for garages on busted cars reduced 50 per cent.  
Doctor and hospital fees reduced 33 per cent.  
Attorneys' fees in damage actions cut 33 per cent.  
Ambulance fees cut 25 per cent.  
Business for undertakers reduced 10 per cent.

All of foregoing being based on the assumption that folks will stop their cars at said stop signs. One peculiarity about these two corners has been that generally when two cars were going through the crossings at the same time some untoward incident happened. But it will take a lot of excitement out of our life as hardly an evening has passed the last few years but we've been called out to view the remains at either one corner or another.

**SIZING UP THE SITUATION**

Says an editorial in the Klamath Herald: "It is difficult to decide whether to praise or condemn Governor Meier for calling troops at this stage of the strike and probably no correct appraisal of this action can be made until it is seen what the effects will be."

Mr. Walt's softball team last evening took a licking at the hands of Mr. Pade's team by a score of 23 to 4. We are convinced that if a real lively ball game is to be seen Mr. Walt's team should be pitted against Mr. Turner's Portland Beavers in a contest to the death. The score sheet would probably show no hits, no runs, but gosh, the errors.

"We all have to admit, if we are honest, that there is a lot we don't know about the strike," says Rodney Alden editorially speaking in his Woodburn Independent. This is about the strongest admission we've ever heard Rod make. It shows again how calm the heaviest intellectual.

"Bing Crosby, the movie crooner, is the proud father of twins, and is amply able to provide for them. The wife gets the pictures in the efficient Stork, in accordance with well-established Depression custom, had left them at a home, where the father had not worked for three years, and already had seven children."—Art Perry in Medford Mail Tribune. We resent that there crack, Art, if you're trying to intimate we haven't worked for the past three years.

A judge in San Francisco has called down the vigilantes for raiding communists' quarters. But, it must be admitted, the vigilantes are making this country seem more like the good old U. S. A. every day.

### CARSON SAYS HARBOR OPEN FOR SHIPPERS

Removal of Freight On Docks Requested and Protection Promised  
Ballot Expected Sunday On Calling Off Longshoremen's Strike

Portland, July 21 (AP)—A declaration that the harbor has been opened; that those having freight on the wharves should remove it, and that "effective protection" will be given them if they do, was made here today by Mayor Joseph K. Carson.

For the past ten weeks the maritime workers' strike has held the port of Portland in virtual deadlock.

Yesterday, with one thousand national guardsmen encamped within a few minutes' run of the city center, cargo was worked on three vessels and a caravan of tank trucks under police convoy relieved the gasoline drought.

Today ships were being loaded or unloaded, and railroad tank cars, full of gasoline or oil, were to be taken out of the huge terminal section at Linton for upstate emergency pools in farm areas. Eastern Oregon and Washington will get their share. Industrial plants outside the city will be supplied.

There was no violence yesterday and none during the early morning hours today. Over the harbor (Concluded on page 9, column 7)

### Charter Given To Home Loan Concern Here

Advices from Washington state that Charter No. 431, Federal Savings & Loan association, has been granted to a group of Salem business men and their associates by the federal home loan bank board. The new institution will be known as the Salem Federal Savings & Loan association, and it is expected will be in operation within a very short time. Organization will be effected at a meeting of the original shareholders with a representative of the Portland Home Loan bank Friday evening, July 27. At that time directors will be elected and plans developed for operation. Officers will be named by the directors.

The new institution will be a member of the Portland Federal Home Loan bank and under its (Concluded on page 9, column 8)

### MARTIAL LAW THREATENED IN MINNEAPOLIS

4000 Troops Massed For Action Where Yesterday's Riot Occurred  
Truck Drivers Appeal for General Strike—Told To Return by Monday

Minneapolis, July 21 (AP)—A temporary truce until Monday at least was agreed on by the employers in the Minneapolis truck drivers' strike today the Rev. Francis Haas, federal mediator, announced.

Minneapolis, July 21 (AP)—Fearing new riots in the blood spattered city market section, Governor Floyd B. Olson today threatened to place Minneapolis under martial law.

More than 4,000 national guardsmen under command of Adj. Gen. E. A. Walsh were massed in barracks within stone's throw of the spot where 49 striking truck drivers and passing pedestrians were shot yesterday by police.

Muttering groups of union men congregated around the district, but avoided hostilities.

Governor Olson caustically criticized the part police played in the riot but said it was necessary to enforce a "rule of reason."

"The blood of those wounded and dying is upon the heads of the men who brought about the breaking of a truce promised me," Olson said. "I am prepared to take over military control of the city at any time. That means martial law, with police and sheriff subject to direct orders from me." (Concluded on page 9, column 9)

### COMPANY RENEWS OFFER TO PROVIDE ADEQUATE FILTER

Blame for Odor and Taste in Water Laid Upon Council's Refusal To Permit Completion of Purification Plant; Protection Against Loss On Investment Only Condition

By HARRY N. CRAIN

A prospect of permanently correcting the condition which at present finds the city water supply contaminated with an unwholesome odor and taste, without obligating the city to any impracticable expenditure of capital, lies in the reiterated offer of officials of the Oregon-Washington Water Service company to proceed with needed improvements to its supply, filtration and distribution system upon either one or two conditions.

Referring to the report of the Oregon State board of health that "if a modern water purification plant were constructed to treat the Willamette river water at Salem, a safe and palatable water could be produced at all times," company officials again informed the Capital Journal that they are ready to go ahead with the necessary improvements, if—

The city will abandon proceedings for municipal condemnation or acquisition by other means of the company's properties here, or:

If the council will give to the company adequate assurance that...

(Concluded on page 8, column 4)

### TO ARBITRATE ALL QUESTIONS IF UNIONS WILL

Proposal Contingent Upon Longshoremen's Doing The Same  
Maritime Unions Asked To Select Responsible Representatives

San Francisco, July 21 (AP)—The waterfront employers today announced a plan for arbitration to settle the maritime strike, on condition the longshoremen's union should vote to submit all differences to mediation by the president's labor disputes board.

Thomas G. Plant, representing the waterfront employers, announced the employers were willing to submit the question of the hiring halls or employment agencies to arbitration, so far as the longshoremen are concerned.

Heretofore the question of whether the longshoremen or the employment agencies should control the employment agencies has proved a stumbling block to bringing the longshoremen and employers together for arbitration.

"We are willing and have been willing to submit all points, including the hiring halls problem, (Concluded on page 8, column 6)

### BOARD NAMED ON MEDIATION

Aboard the U.S.S. New Orleans, with President Roosevelt, July 21 (AP)—President Roosevelt, aboard the U.S.S. Houston bound for Hawaii, interrupted his vacation long enough to announce the appointment of the membership of the national mediation board today.

The board, created by amendment to the railway labor dispute act in the closing days of congress, is intended to be a supreme court of rail labor controversies.

The presidential appointees are: William M. Leiserson, Yellow Springs, Ohio, for term ending February, 1935.

James W. Carmalt, Washington, D. C., for the term ending February, 1936.

John Carmody, now chief engineer of the federal engineering relief administration, for the term ending February, 1936.

The president also named Murray Latimer as chairman of the railroad retirement board created by a recent act of congress. Mr. Roosevelt has not received the recommendations of the railroad labor executives and the Association of Railway Executives for members to represent them on the board.

The president planned to address the crew of the Houston after its inspection today.

### 200 PERISH IN VISTULA FLOOD

Warsaw, Poland, July 21 (AP)—More than 200 persons dead and damage estimated at about 200,000,000 were reported today as the flood waters of the Vistula river reached the gates of the presidential palace in Warsaw.

The deaths and damage have occurred during a full week of high waters. Now a flood wave from the Carpathian mountains menaces the Polish capital.

The Vistula has risen to a level of 16 feet compared with its normal 4-foot level and authorities said that if it rose above 19 feet the heart of the capital was in danger for the levees of the left bank are not expected to hold much longer.

Police, soldiers, municipal workers and civilian volunteers worked manly today in efforts to strengthen the embankments.

Hundreds of boats and automobiles have been drafted. The streets of the suburb of Prager and the amusement center, Luna Park, are under water. Seven nearby villages are inundated.

Although the water is receding in the provinces, the situation of the farmers is reported desperate. The government is taking all precautions to avert an epidemic.

Steamers were unable to pass bridges because of the Vistula's high stage.

### CONFESSES TO KILLING MUTE

Seattle, July 21 (AP)—First degree murder charges probably will be filed against J. H. Hendrikx following his confession that he killed Mrs. Ruby Barton, deaf mute, with a flatiron in a fit of anger.

The 49 year old Tacoma carpenter, who forced his victim to marry him July 7 although she was legally wed to another man, wept bitterly after the confession.

"I got terribly, terribly mad and I killed her," Captain of Detectives Ernest Yorik said Hendrikx told him after constant questioning.

Mrs. Barton was apparently putting on her coat with intention of escaping Hendrikx' fury when he killed her Monday night in her room "he had rented for her."

Muffled sounds, thumping and scuffling were heard by other occupants of the rooming house, which tallied with Hendrikx' story, Yorik said.

Hendrikx walked to the bus depot after the killing and left for Tacoma. Police arrested him there in room with another woman early Friday.

Mrs. Barton complained several days ago to police that Hendrikx was holding her in his Tacoma home and that she feared he would kill her.

### OLSON REMOVES LANGER'S STAFF

Bismark, N. D., July 21 (AP)—Before the state house of representatives which took friendly steps to consider his impeachment, William Langer, deposed governor, appeared today, charged his conviction by a federal jury was "political persecution" and called for an investigation of the events that led to his conviction.

Bismark, N. D., July 21 (AP)—Acting Governor O. H. Olson, struck against Langer at William H. Langer, suspended governor whose seat he took, by removing Langer's principal appointees from office.

Olson signed orders for removal of Langer's two key men, State Regulatory Director Stephen Terhove, Minor farmer, and Highway Commissioner Frank A. Vogel.

He appointed Sidney Papke, Grand Forks, to head the regulatory department and named Bert M. Salsburg, now district court clerk at Minnekauckan, as Vogel's successor.

Vogel declared he would not turn over the highway department's affairs to Salsburg without "some sort of checkup so I can have a clean bill."

### FOREST SHELTER BELT ORDERED

Washington, July 21 (AP)—Secretary Wallace announced today that work would begin immediately on a \$75,000,000 project to plant a forest shelter belt 100 miles wide extending from the Canadian border to Texas.

President Roosevelt in an executive order signed July 11 and released today, allocated \$15,000,000 of emergency funds to begin work.

The shelter belt, which will extend more than 1,000 miles through North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and into the Texas panhandle, will be designed to furnish permanent alleviation of drought conditions through the midwest.

The area affected, will be approximately 20,000,000 acres, of which about 1,820,000 acres will be planted to trees.

According to the plans outlined by F. A. Silcox, chief forester, windbreaks about seven rods wide running north and south will be planted one mile apart, making approximately 100 parallel windbreaks across the 100-mile wide belt.

### SHINGLE PACT WITH CANADA

Washington, July 21 (AP)—Canadian red cedar shingle producers and the NRA have reached an agreement, it was learned authoritatively today, under which exports of Canadian shingles to this country will be voluntarily limited to a stipulated percentage of domestic consumption.

Oregon and Washington shingle producers registered a complaint against unrestricted imports of Canadian shingles, duty free, to President Roosevelt. Under his direction the tariff commission held hearings as a result of which definite recommendations concerning shingle imports were made to the national recovery administration.

NRA officials and representatives of the British Columbia shingle producers, on the basis of those recommendations now have signed an agreement limiting exports.

The limitation figure was not made public but is understood to be a compromise between the 20 per cent suggested by Americans, and the 37 per cent desired by Canadians, on the basis of average imports from Canada during the past five years.

The agreement is similar to the agreement between NRA and Japanese producers limiting imports of pencils and rugs from Japan.

### RAIDS ON REDS BY VIGILANTES

San Francisco, July 21 (AP)—Raids, both legal and extra-legal, on alleged communists continued last night and early today in various parts of California.

In San Francisco 65 more suspects were arrested over night and held on vagrancy charges.

In Stockton, 75 miles away, 500 citizens wrecked a communist headquarters. One arrest was made there.

The Stockton raiding party originally numbered about 70 and formed at the civic memorial auditorium, prepared to break up a communist meeting in the court house square. Each of the 70 members of the crowd carried two foot clubs.

Police spied the plan to raid the meeting, however, when they arrived first and broke it up.

The raiding party then moved toward communist headquarters, its number growing each block until fully 500 were in the crowd.

The communists gathered there, fled. The party completely wrecked the meeting place, which formerly was a United Brethren church. The windows were broken and furniture demolished.

At Sacramento a large crowd of alleged communists was rounded up by police but when officers questioned them for possible deportation they found only two aliens in the group, both Chinese.

### HULL TO TALK RUSSIAN DEBT

Washington, July 21 (AP)—Russian-American debt negotiations which have reached a stalemate in Moscow will be transferred to Washington next week.

Announcement that the negotiations will hereafter be conducted by Secretary of State Hull, Assistant Secretary of State Moore, and Alexander Troyanovsky, the Soviet ambassador, was made by the department following a visit from Troyanovsky.

The negotiations were started between William C. Bullitt, the American ambassador, and Maxim Litvinov, Soviet commissar of foreign affairs, immediately after Bullitt went to Moscow seven months ago.

Litvinov has been forced to devote considerable time to European and Asiatic affairs, however, and has been unable to carry on uninterrupted discussions with Bullitt. Negotiations there reached an impasse several weeks ago.

### Convict's 'True Story' Of Lindbergh Kidnaping Implicates Al Capone

Joliet, Ill., July 21 (U.P.)—A convict in state prison turned over to Warden Frank B. Whipp today what he said was the "true story" of the Lindbergh baby kidnaping. He named Frank Nash, slain in the Kansas City Union station massacre a year ago, and Al Capone, now in Atlanta prison, as the men behind the plot.

The convict, John Pawelczyk, said the kidnaping was planned to free Capone, then in jail at Chicago, following denial of his appeal from an income tax conviction.

At the time of the kidnaping, Capone offered to aid authorities in finding the child and said he had "friends" who could trace the kidnapers. The information has been turned over to federal authorities. It was learned.

Pawelczyk said he met Nash while both were in Leavenworth prison.

### CALL EMERGENCY BOARD WEDNESDAY

The meeting of the state emergency board, tentatively set for next Tuesday, was called definitely today for Wednesday, July 25, at the state capitol, beginning at 10 a. m. The announcement was received today from Fred E. Kiddle of Island City, chairman of the board.

The board will consider emergency appropriations estimated in excess of \$100,000, for the Oregon national guard, the motor transportation department, the department of state for circuit judges and the supreme court. The original appropriation for the board was \$150,000 of which less than \$25,000 has been expended.

### ASTORIA TROOPS BACK AT CLATSOP

Astoria, Ore., July 21 (AP)—A detail of twelve national guardsmen from the Astoria company, which accompanied three carloads of equipment to Portland Friday, returned last night and the company now is stationed at Camp Clatsop where guard lines have been established around the warehouses and supply depot.

Equipment taken from the camp yesterday for Camp Withycombe in Clackamas county, consisted in the most part of large pyramidal squad tents.

Part of the longshore delegation of 50 which left for Portland yesterday morning returned last night. About 30 remained in Portland.

The situation remained peaceful on the Astoria waterfront, although longshoremen became excited over a report that an attempt was to be made to load lumber on a Norwegian ship at Warrenton.

### SERIOUS DAMAGE IN PANAMA QUAKE

Port Armuelles, Panama, July 21 (Via Tropical Radio to UP)—A violent earthquake occurred here at 4:55 a. m. (C.S.T.) today, causing extensive property damage.

Early reports indicated no one was seriously hurt.

About 10 houses were partly ruined.

The United Fruit company's dock was practically destroyed.

Three banana conveyors which transfer the fruit from the dock to ships, were wrecked.

Port Armuelles, on the Pacific side of Panama, has about 1,000 inhabitants, mostly employes of the United Fruit company.

It is the company's principal port in that section for the shipment of bananas northward from the Chiriqui plantations.

### JAMES A. FARLEY TO TALK IN PORTLAND

Portland, July 21 (AP)—James A. Farley, postmaster general and chairman of the democratic national committee, will deliver an address here next Tuesday evening at a public banquet in Multnomah hotel, it was announced today by Carl C. Donough, chairman of the state committee.

Donough had a telephone conversation with Farley in San Francisco today and said the postmaster general told him he would be glad to speak the national administration at the banquet here.

Farley will reach Portland at 3:45 p. m., Tuesday by train, and will leave at 11:30 for Seattle. The banquet at the Multnomah hotel will start at 6:30 p. m. Donough said arrangements are being made for more than 700 persons, and a large up-state delegation is expected.

Upon reaching Portland Farley and his party will be taken to the site of Bonneville dam in which Farley has expressed much interest.

### STATISTICS ON CRIME IN MARION COUNTY SHOW BURGLARY LEADS

Out of 96 defendants sentenced in Marion circuit court in 1933, 47 were paroled or given suspended sentences, 42 sentenced to the state penitentiary and sent to serve their sentences. Six were sent to jail and one fined. These figures are from a census just completed by County Clerk Boyer for the department of commerce at the instance of the state police who were asked to secure the statistics.

A total of 112 defendants were up before the court. Of these 105 were new cases and seven old cases. Four were dismissed on motion of the prosecution, three were acquitted after jury trials, two were transferred to other courts or found insane.

Out of the total 91 pleaded guilty to the offenses charged against them and four were convicted after

### WITHDRAWAL OF GUARD UNDERWAY

San Francisco, July 21 (AP)—Withdrawal of troops from the San Francisco bay area was begun today after teamsters returned to work and there were definite indications that all strikes now in progress would be ended soon.

Between 2500 and 3000 of the 4200 troops on strike duty will be withdrawn in the first movement.

The reduction of forces mobilized here was approved by Adjutant General Seth Howard and carried out under the orders of Major General David P. Barrows.

The 184th Infantry, 185th Infantry, 160th Infantry and 40th tank corps will be the first to leave.
