DAVIS FROWNS ON NEW STRIKE

Portland, July 21 (AP)—United States Senator James J. Davis of Pennsylvania, a Portland visitor today, said "I am satisfied that the government is doing all that is possible to bring about an agreement of the strike on the Pacific coast."

The senator, a former secretary of labor, said he had made an extensive study of strike history covering the past 200 years.

"No general strike has ever been won," he said, "and a sympathetic strike abroad the agreements of unions not affected by unsatisfactory conditions. Those unions who have participated in sympathetic strikes in the past have always suffered because employers cannot maintain confidence in their men."

He said "the government does not always talk about what it is doing nor about its investigations, but you may rest assured that it is doing all in its power to effect a settlement as soon as possible."

Davis was appointed secretary of labor by President Harding and continued in that position under Presidents Coolidge and Hoover until Dec. 9, 1930.

Five other quakes described as slight were recorded previous to the heavier recordings.

Another carried in large letters "Who called out the troops?"

LEGION DRUM CORPS CONTEST AT LA GRANDE

La Grande, Ore., July 21 (AP)—Although threatening weather at the last minute last night kept down the size of the crowd, La Grande and visitors of the semi-centennial Union Pacific celebration here witnessed a spectacular show in the stadium—featuring an American Legion drum corps demonstration with Spokane, Boise, Enterprise and La Grande participating and followed by an elaborate display of fireworks.

The drum corps feature was unusual in that it brought together three state champions and a fourth corps—from Enterprise—which is said to be the smallest city in the United States with a Legion drum corps. All four organizations won vigorous applause from the audience, also the Ogden Union Pacific band, which played a march and a descriptive selection preceding the fireworks.

The fireworks display featured presentations of an Indian rider with drum, a covered wagon and a steamline train—portraying the story of transportation.

Weather conditions were unsettled here this morning but advices from the La Grande airport indicated the clouds would pass early this afternoon, when the closing pageant of the celebration is held.

Tonight, Del Kunkin, Salt Lake City, meets Bulldog Jackson of Portland, and Robin Reed, of Reedsport, Ore., is matched with Mickey McGuire, Salem, in a double main event wrestling match. All four are middleweights.

SOCIETY GIRL RIFLE VICTIM

Washington, July 21 (AP)—The capital's society was saddened today by the target shooting accident which cost the life of Louise Dudley Breckinridge, 17-year-old daughter of Colonel Henry Breckinridge.

The girl, who had gone target shooting at Battery park, near Bethesda, Md., died instantly yesterday when her 22 calibre rifle caught in a fence she was trying to scale and discharged a bullet into her heart.

Her father, a close friend and legal adviser of Colonel Charles A. Lindbergh, was assistant secretary of war under President Wilson. He is a prominent New York lawyer.

Mrs. Ruth Breckinridge, mother of the girl and first wife of Colonel Breckinridge, found the body last night after her daughter had been missing several hours from her home at Battery park, a Washington suburb.

An enthusiastic hiker and rifle practice expert, Miss Breckinridge left home in the late afternoon, carrying the gun and accompanied by two dogs.

Since her marriage to the dead girl's mother was terminated several years ago, Colonel Breckinridge has remarried. His first wife has been living on the Battery park estate with Louise and another daughter.

Miss Breckinridge, member of the younger society of the capital, was a sophomore at Vassar college.

\$200,000,000 LOSS BY STRIKES

San Francisco, July 21 (AP)—The loss to business and commerce from Pacific coast strikes since the longshoremen started the walkout movement May 9 exceeds \$200,000,000, estimates obtained by the Associated Press today indicated. This does not include San Francisco bay general strike losses, which were incalculable.

Industrial organizations in San Francisco and Seattle asserted that conservative surveys indicated that each port has lost \$1,000,000 a day during the 74 days of the strike. The loss to the state of Oregon from the strike was declared at Portland to be at least \$30,000,000.

Los Angeles alone, while no figures were available, appeared to profit from the walkout. Much of the shipping that would have normally gone to other ports was diverted there because of the "open port" conditions maintained. Los Angeles Steamship company officials reported losses, however, due to the high cost of non-union workers under strike conditions. No estimates were available.

Eight men have been fatally injured during disorders—two at Los Angeles, three at San Francisco and one at Portland—while hundreds have been shot or otherwise injured.

PHYSICAL FORCE TO CALL SESSION

Bismarck, N. D., July 21 (AP)—Physical force was used today to compel attendance of absent state senators to the special legislative session in an attempt by allies of William Langer, deposed governor, to obtain a quorum.

A motion was adopted by the 22 senators present, insufficient to constitute a quorum, to name sufficient sergeants-at-arms to round up the absentees.

The first senator taken into custody by the sergeants-at-arms was C. W. Fine, considered an anti-Langerite, while he was in the office of Acting Governor Ole H. Olson.

The two sergeants took him by the arm, despite his verbal and physical protests, and dragged him to the senate.

UMPUQA MILLS TO BE REORGANIZED

Portland, July 21 (AP)—Authority to file a petition for corporate reorganization under the bankruptcy act was granted in federal court here today to Umpqua Mills & Timber company of Portland against which there had been filed a petition of involuntary bankruptcy.

Assets consist of 21,440 acres of timber land in Douglas county, with 900,000 feet of timber, mills and logging equipment.

The liabilities include \$510,000 in outstanding bonds, and several other items ranging from \$20,000 to \$87,000.

WALNUT BLIGHT CAUSING LOSS

Walnut blight on the Franquette walnut is worse than he originally thought, reports County Fruit Inspector Van Trump who says recent examinations of orchards convince him that there is probably a 30 per cent shed instead of a 20 per cent, but at that he says the trees are so loaded it will probably not materially reduce the crop. He says it will be about like a fair shed for a heavy crop of Italian prunes.

The blight he states is all on the Franquettes and none on the earlier blooming Mayettes. In fact, he says he notices that when there is blight on one variety it is never on the other. The Mayettes bloom about 30 days earlier than the Franquettes. For this reason, he states, he believes that the blight is due to something in the air at blooming time which one or the other happens to catch as it blooms.

While he says the blight doesn't always injure the pollen it does in most cases and he believes that pollen activity is in some way associated with the blight.

NORTH DAKOTA FULL OF RACKETS

St. Paul, July 21 (AP)—United States Senator Gerald P. Nye of North Dakota predicted today that "an untold amount of graft" which he said existed in North Dakota state departments soon would be exposed.

A "beer racket" and "pardon racket" were among the forms of graft, Senator Nye said.

"I don't know who will take the lid off, but I suppose it will be the new heads of the various departments who will replace the present ones shortly."

Senator Nye previously referred to moves by Ole H. Olson, acting governor following the removal of William Langer, to replace Langer appointees in state positions.

Nye added he believed Langer "is on the way out and for keeps."

THREAT LETTERS TRACED TO REDS

San Pedro, Cal., July 21 (AP)—Threatening letters sent recently to harbor commissioners, a San Pedro editor, and an International Longshoreman official today were linked to young communists by police after capture of a typewriter in the radical headquarters.

Officers said the type matched the impressions in the letters. Each one of the men was warned to keep out of strike activities at the harbor.

Ownership of the typewriter is being investigated.

WALTER NEWTON TO LOSE LOAN JOB

Washington, July 21 (AP)—President Roosevelt has decided definitely not to re-appoint Walter Newton, former secretary to former President Hoover, as a member of the home loan bank board.

It was ascertained in official quarters today that the post is to remain vacant until the president returns from the Pacific cruise.

Newton was appointed originally for a one year term, in response to an inaugural day request from the retiring president. His nomination was bitterly opposed by independent republicans in the senate, some of whom had supported President Roosevelt in the 1932 campaign.

Opposition was based upon Newton's activities as political secretary to President Hoover.

Newton retired as a republican member of the house to serve president Hoover, and the latter personally asked President Roosevelt to appoint him. A six-year term is now open.

The original certificate was issued November 7, 1933, but it was held up pending adjusted negotiations between carriers with the view of their securing equal access to the area to be served.

NEED \$38,000 EXTRA TO PAY JUDGE'S WAGES

The secretary of state will put in an application for \$38,000 to pay the deficit in salaries and expenses of the 28 circuit judges for the remainder of the year when the state emergency board meets at Salem, tentatively set for next Wednesday.

The greatest part of the deficit is due to the failure of judges not taking the full salary reduction suggested by the state legislature and upon which the appropriating body based the allowances for the biennium. While 15 judges are making some reductions, the remaining 13 are collecting their full salaries at the present time.

The emergency request is based upon the present rate paid judges, George Flagg, deputy secretary of state, announced, and if some of them now taking a cut decide to take full payment, more funds will be required. Circuit and supreme court members cannot be forced to take reductions under constitutional provisions.

The state legislature appropriated \$227,700 for salaries and expenses. This with litigants fees collected, averaging about \$1,900 a month, brings their appropriation for salaries and expenses to \$273,082. Of this sum \$231,594 has already been expended, with six months remaining.

The amount paid the circuit judges during June was \$12,531.

In addition to this request, the emergency board will consider a deficit of \$6,000 for salaries of supreme court justices for similar reasons as well as an appropriation of \$30,0
