Model Of Bark Found Off Coast Of Maine

Portland, Me. (AP)—Winthrop Lathrop, local fisherman, prizes a 13-inch model of an old-fashioned bark, picked up 20 miles off shore. The model, the "Phyllis, of Lynn, Mass." had been set adrift at King's Beach in Lynn and had travelled 225 miles when rescued by Lathrop. A note in a bottle, placed aboard the craft by its owner, Fred L. Robbins of Lynn, said it had been put out to sea "just for fun."

DOUG AND MARY NOT TO MAKE UP

Hollywood, Calif., Aug. 9 (AP)—The homecoming of Douglas Fairbanks, film actor and estranged husband of Mary Pickford, apparently was awakening much greater interest among members of the film colony. News of Fairbanks' return aboard the steamer Rex with Joseph Schenck, producer, today failed to cause more than an extra ripple upon the fairly storm-tossed waters of marital gossip. The film capital, still somewhat excited over the divorce of the Conrad Nagels, had little to say about "Doug's" return. Much more interest was shown by the actor have kept him out of general conversation. Nor has Hollywood taken the Lady Ashley affair too seriously, for film folk in general can be friendly with other men and women without attracting undue comment among their own.

Active buying in foreign markets is widely expected, with the prospect of a sharp rise in the world price. Wall Street believes the federal government is pursuing its silver purchase program actively at this time as an answer to the agitation for inflation by various groups.

SUPERVISORS FOR EDUCATION PICKED

Eugene, Aug. 9 (AP)—Appointment of Mrs. Sarah V. Case, St. Helens, and Kenneth Beach, Roseburg, as emergency education supervisors for Oregon was announced today by State Superintendent of Public Instruction C. A. Howard.

Appointments of supervisors for Washington, Idaho and Montana already had been confirmed. The supervisors, meeting here in an eight day session to discuss their duties and operations under the education project of the federal emergency relief administration program, will assume responsibility of appointing teachers for the various classes. General plans and policies of the state relief administration were outlined by L. J. Pierce, education relief co-ordinator for Washington.

State sectional meetings occupied the afternoon session. Ossett, England, has cut all municipal salaries, some as much as 20 per cent.

SILVER ORDER TO STIMULATE METAL BUYING

By CLAUD A. JAGGER, Associated Press Financial Editor
New York, Aug. 9 (AP)—Nationalization of silver, ordered by President Roosevelt today, was interpreted in financial circles as indicating more vigorous pursuit of the silver policy outlined in the silver purchase act of 1934.

This for the moment, it was believed, meant accelerated buying of the metal by the treasury, and rising world prices for silver. How soon the treasury might reach its ultimate objective of 36 per cent silver for the nation's metallic monetary reserves was regarded as problematical.

Definite information as to how this will be calculated, and how much silver will be required, is lacking. It has been assumed that the 300,000 ounces would have to purchase some 1,000,000,000 ounces or virtually all of the known floating supply in world markets.

The prospect of nationalization of the stocks in this country, probably in excess of 100,000,000 ounces, loomed recently with the rise in the open market price to close to 50 cents an ounce, since the silver act limited the price which the treasury might pay for those stocks to that figure.

If the price should have gone above 50 cents without nationalization, the treasury might have had difficulty in getting holders to sell. Active buying in foreign markets is widely expected, with the prospect of a sharp rise in the world price.

Wall Street believes the federal government is pursuing its silver purchase program actively at this time as an answer to the agitation for inflation by various groups. Opinion is sharply divided as to the effect of the lift in the world silver price. While silverites hold that it will increase the purchasing power of the east, some monetary authorities say that it would have the opposite effect by increasing the purchasing power of silver currencies and thus having a deflationary influence in those countries.

Prof. James Harvey Rogers, economic advisor to the administration, recently had been studying the problem in China, and has started for India.

On the whole, Wall Street has not been inclined to regard the silver purchase policy as outlined in the new legislation as threatening dangerous inflation, and until recently financial markets have been inclined to take a passive attitude toward the program.

One effect, it is believed, will be the suspension of an open market for silver in this country, just as there is no open market for gold. The commodity exchange, however, was not immediately certain on that point.

CLOUDBURSTS CAUSE FLOODS IN UTAH

Salt Lake City, Aug. 9 (AP)—For the third time in four days, rain storms of almost cloudburst proportions struck Utah last night. Highways were covered with mud. Railroad tracks were drenched. Acres of wheat were flattened.

Bert Robinson, 15, Magna, Utah, was snatched up by a canyon flood and carried more than 100 yards before he was rescued. He suffered slight injuries.

PRUNE CODE EFFECTS OVER 3000 GROWERS

The Oregon prune code directly affects 3000 growers who have crops totalling approximately 60,000 tons this year, figures prepared by the control board showed today. Canners annually take about 5 per cent of the crop, the report revealed. Oregon producers about seven-eighths of all prunes grown in the Pacific northwest. Unofficial estimates place the investment in the prune industry at \$20,000,000.

SEES SOLUTION OF SILVER ISSUE

Reno, Nev., Aug. 9 (AP)—Senator Roy Pittman (D., Nev.), greeted President Roosevelt's proclamation nationalizing silver today with the statement that it will lead to events which "will settle the silver question forever."

The Nevada, who led the senate fight for the 1934 administration bill under which the president's action was taken, hailed in the middle of a busy day during his campaign for re-election to study the entire text of the proclamation.

"Action on the proclamation," he said, "will remove all silver in the United States from the market except silverware and silver bullion expressly excepted from the operation of the proclamation."

"It may add another hundred millions of ounces of silver to our monetary silver in the treasury. It is a process that will hasten the complete absorption of the silver surplus in the world. As this surplus is absorbed in the treasury of the United States, the price of silver will steadily rise until it reaches \$1.29 an ounce."

"Then the governments of the world will be in a position to open their mints for unlimited coinage at the ratio that exists in the United States. This will settle the silver question forever."

Senator Pittman said he did not expect to see an immediate "boom" in the silver industry. "The president doesn't want the price to jump right away," he said.

ARREST CHISELLERS OF LUMBER CODE

Memphis, Tenn., Aug. 9 (AP)—The lumber code authority opened a campaign today to "crack down" on every violator of the N. L. code. V. A. Denalov, Greenville, Miss., hardwood lumber operator, was arrested yesterday by United States marshals.

The district attorney at Greenville issued a warrant charging Denalov with violation of the code relative to hours and pay of employees and sale prices of lumber. He waived preliminary hearing.

Officials of the hardwood institute, pending arrest of at least one lumber operator in middle Tennessee before the end of the week.

"This is only the beginning of a general mopping up campaign that will see the arrest of every code violator we can ferret out," J. H. Townsend, of Memphis, secretary-manager of the hardwood institute, said.

EDICT BY HITLER FREES PRISONERS

Berlin, Aug. 9 (AP)—In his first official act as both president and chancellor, Adolf Hitler today granted unexpected freedom to thousands of political prisoners incarcerated in German jails and concentration camps.

Liberation of the political prisoners was proclaimed in an official government announcement of a new "general amnesty law" and "amnesty for certain groups of political prisoners."

The liberation order will apply, generally, only to those convicted of minor political offenses. In no cases will sentences for high treason, military espionage and attempted assassination be revoked.

This indulgent cancellation of sentences imposed by courts was regarded as Hitler's first step toward obtaining a favorable public attitude toward the plebiscite /ug 19 in which the German people will be asked to approve his assumption of the authority of Reichspresident.

BUDGET ESTIMATES SUBMITTED COUNCIL

Both the building inspector's department and the city engineer department have submitted budget estimates for 1935 as recently asked by the city council. The amounts estimated are approximately the same as allowed for this year.

SILVER SPOONS, WATCHES, DIMES NOT DEMANDED

Washington, Aug. 9 (AP)—Hold on to your silver spoons, watches and dimes—the government doesn't want them.

And don't expect your quarters and half dollars to turn into any different kind of money tomorrow from what they are today.

These things were not changed by the presidential order today nationalizing silver stocks.

What Mr. Roosevelt and Secretary Morgenthau are doing is calling into the treasury stocks of bullion silver which are traded in on the commercial markets. These stocks may range anywhere from 45,000,000 to 250,000,000 ounces.

Buying in this silver at the rate of 50.01 cents an ounce is what is meant by "nationalizing" silver. It is taking government ownership of floating commercial stocks not being used in industry and commerce.

When gold was nationalized the government simultaneously adopted a policy of taking that metal out of circulation as moneys and storing it in huge treasury and mine vaults as a permanently-guarded support for United States money.

But silver is not being taken out of circulation. You will still jingle dimes and quarters—if you have them—in your pocket.

The president's order is part of the administrative work in carrying out the act of congress directing the treasury to build up a stock of silver which in relation to the gold stock will be one of three. The exact amount will depend on the variations in the gold stock which now exceeds \$7,000,000,000.

HUNGER STRIKERS HUNGRY 5 DAYS

San Francisco, Aug. 9 (AP)—One of the hunger strikers in the city prison broke his fast today but the 30 other alleged communists entered the sixth day of abstinence of food with the threat of forcible feeding confronting them.

Fat Barnes, upon the advice of physicians, ate breakfast after complaining that rib injuries which he suffered during the recent waterfront strike were troubling him.

However, the other hunger strikers, who by going without food are seeking to have their bail reduced on vagrancy charges, said they did not look upon Barnes as a deserter from their ranks.

"Fat is in a bad way and had to eat," a spokesman said. "We had money to get him out on bail, but he refused, telling us that he wanted to stay until we all got out."

GERTRUDE MISCHLER REGAINS HER LEAD

Apparently it will take the last day's tally to decide the winner of the American Legion bathing beauty contest for with the Thursday noon count, Gertrude Mischler, who has alternated almost daily with Margaret Smith, as favorite for the crown, is again at the top of the list. Final newspaper coupons will be discontinued with the Saturday publication and announcement of the winner will be made at a dance the evening of August 17. Next week sale of dance tickets will be the major method of obtaining votes for the candidates. Standing the eight contestants at noon Thursday is:

Gertrude Mischler	919,245
Marguerite Smith	894,690
Alberta Mills	769,425
Marvis Quintand	615,835

WASHINGTON AAA UPHELD BY COURT

Olympia, Wash., Aug. 9 (AP)—Bolstered by a supreme court decision upholding constitutionality of the state agricultural adjustment act, director of agriculture Walter J. Robinson today prepared for a more vigorous drive against code "chiselers."

Superior Judge John M. Wilson of Thurston county late Wednesday handed down an opinion dismissing a suit brought against Robinson by Albert E. Griffith, Jr., Seattle milk distributor, and Albert Bertotti and R. W. Keller, producers. They contended price fixing and production control features of the AAA would drive them out of business.

Cushion Of Mud Say Worker Of Syracuse

Syracuse, N. Y. (AP)—A cushion prevented Oushing from having a bad crushing. The cushion was made of mud, several feet deep. Oushing, whose first name is Walter, fell 30 feet from the top of an electric pole where he was fixing a line, landed on his head, and astonished fellow workers when he got up, spat out a mouthful of mud and walked calmly away, unhurt.

2 KNOWN DEAD 18 MISSING IN CLOUDBURST

Denver, Aug. 9 (AP)—A man and a girl were known to have perished and 18 other persons were missing and believed to have lost their lives in a cloudburst and terrific hail storm that struck the terror villages in the mountains just west of Denver early this afternoon.

The known dead are John Husband, of Denver, and an unidentified girl about 14 years old. Their bodies have been recovered.

Missing are Husband's wife, Isabelle; six persons who were in an automobile; four persons who were in a car; four persons who were in a camp; and a group of seven girls.

The girls were swept off a foot bridge at Starbuck and carried down the canyon in the roaring flood waters.

They were Lois, Ethel, Gladys and Dorothy Johnson, sisters, of Denver; Maxine Hanawalt and Irene Fox, of Denver, and another Denver girl, whose name was not learned immediately.

The identity of the four persons in the camping party near Morrison could not be learned at once.

Mr. and Mrs. Thomas Shields, of Florence, Colo., and their daughter, Mrs. Margaret Belle Frew, who were in the auto with Mr. and Mrs. Husband, said they fled from the car when they saw the swirling waters coming down the canyon. They were reported safe at the summer home of Charles Gates, wealthy Denver businessman.

They said they saw Mr. and Mrs. Husband swept away in their auto.

WHEAT PROBLEM IN FRANCE CRITICAL

Paris, Aug. 9 (AP)—The French wheat problem has become so critical that Premier Gaston Doumergue, who returned from his vacation today, will ask the cabinet tomorrow to devise a plan subsidizing wholesale exports and possibly scrapping part of the price fixing law.

Four millers have defied the law opened, announcing they will buy at prices below the government demand. The government is investigating the millers' action but the prosecutor may drop the case in view of some millers' determination to buy no wheat for six months.

The government had hoped that the short crop would aid the situation materially but the wheat hold-over, estimated at 75,000,000 bushels, is so large that the market still is flooded.

WARSHIPS SEARCH FOR FISHING BOAT

San Pedro, Cal., Aug. 9 (AP)—Assigned to the peace time mission of locating a small fishing boat missing for nearly a month, the battleship Arizona and cruiser New Orleans today prepared to set sail for the Gulf of California off the coast of Mexico. Object of the search was the tuna clipper Belle Isle with 12 men aboard, unreported since it left port June 11.

A plea by Miss Clara Gabelich, sister of John Gabelich, skipper of the Washington for the ship to cancel their cruise through the Panama canal and take up the rescue mission.

Officers feared wreckage sighted on a reef 60 miles from La Union, Salvador, might be that of the Belle Isle. General descriptions of the craft tallied.

INJUNCTION IN COURT
Minneapolis, Aug. 9 (AP)—A suit of employers of 6,000 striking truck drivers for an injunction to force lifting of martial law in Minneapolis was taken under advisement in federal court late today.

Fire in an automobile called out the department to 336 North Commercial shortly after 1:30 o'clock Thursday morning.

ARMORIES CHIEF SOURCE OF GUNS FOR GANGSTERS

Washington, Aug. 9 (AP)—Criminals have stolen more than 1000 guns and 23,000 rounds of ammunition from national guard armories in the past year and a half, the justice department revealed today.

Aroused by these figures, which showed that the government's own arsenals have become a major source of supply for the underworld, justice department officials have called the situation to the attention of the war department.

"The war department is anxious to cooperate and will communicate with the governors of the various states in an effort to arrange for adequate means to protect firearms and ammunition," an official justice department statement said.

War department officers emphasized that they were not going to be saddled with responsibility for the lax protection of national guard armories.

The national guard units, it was explained, are state organizations directly responsible to the governor although the war department exercises supervision and supplies many of the arms.

As government officials moved to clamp down on this supply of underworld arms, the justice department announced that the first sentence had been imposed under the new law naming robbery of federal reserve system funds a federal offense. The convicted man was Charles E. Redding. He pleaded guilty to robbery of three banks in Los Angeles and was sentenced to 40 years imprisonment in the federal penitentiary at McNeil Island, Wash.

In the number of thefts from national guard armories, Texas led with nine in which 268 guns were stolen. Since January 1, 1932, there have been five raids on Missouri armories and five in Oklahoma.

GLAD TO GET RID OF UTAH CONVICT

Portland, Aug. 9 (AP)—Portland police were glad to get rid of Robert Earle last night. A fugitive from the Utah state penitentiary, he was arrested here this week, and put in jail. Here is what he did to annoy officials:

From a lobby of the municipal courtroom he placed a long telephone call to San Francisco in hope of arranging his delivery from a train en route to the Utah prison. The city will have to pay the \$3.45 toll charge.

He obtained, from some unrevealed source, two hacksaw blades and a lock pick.

He made an unsuccessful dash for freedom from the municipal court prisoner's box Tuesday. Utah deputies left with him last night by plane.
