

BUTTER PRICE STILL STEADY ALONG COAST

Portland, Aug. 17 (AP)—Butter prices were unchanged today. Trading in the local egg market shows strength for quality but steadiness for others.

Considerable activity is suggested in the peach trade here with prices firm to higher generally. Offerings are curtailed from all sections of the home territory.

Yakima peach deal is ending. A message from the peach bureau states Elbertas are all picked and the last shipped today while the last of the Hales will be picked today and the deal over in a few days.

Local cantaloupe price is a trifle easier with suggestions of fractional decline in spots although a few can't are still being sold above the general price listed.

There is a keen demand for Hermiton watermelons and the extreme quality is causing a flood of orders that shippers have difficulty in keeping up with.

Lamb market is still slow, other lines are steady to firm. Italian prune demand is better for fresh offerings.

Tomato market is steady for extreme quality, slow for others. Local lettuce is now generally better than northern but sells much lower.

Potato market continues rather active locally but at unchanged prices.

Corn values tumble today. Chicago, Aug. 17 (AP)—A big tumble in corn values today went hand in hand with free selling on the part of houses with connections east.

NEW YORK STOCKS

Table with columns for stock names and prices. Includes Alaska Juneau, Alaska Chemical, American Can, etc.

MARKET QUOTATIONS

Table with columns for market categories like PORTLAND EASTSIDE MARKET, FRESH VEGETABLES, MEATS AND PROVISIONS, etc.

Table with columns for market categories like PORTLAND LIVESTOCK, PORTLAND GRAIN, CHICAGO GRAIN, etc.

Table with columns for market categories like PRODUCE EXCHANGE, PORTLAND WHOLESALE, etc.

Table with columns for market categories like PORTLAND BUTTERFAT, NEW YORK BUTTERFAT, CHICAGO LIVESTOCK, etc.

Table with columns for market categories like PORTLAND BUTTERFAT, NEW YORK BUTTERFAT, CHICAGO LIVESTOCK, etc.

Table with columns for market categories like FRESH FRUIT, etc.

STOCK TRADING DULL AND PRICE RANGES LOWER

New York, Aug. 17 (AP)—The stock market drifted irregularly lower today in extremely dull trading. Grains were heavy with corn dropping as much as 2 1/2 cents a bushel.

Selectively was the chief characteristic of the market today. Fertilizer shares were most favored on the basis of good earnings reports and rumors of further such reports from other companies.

American Telephone moved a point lower to 110 1/2 as a report of June operations of the parent company showed a sharp reduction under June of 1933.

Indicative of the lack of trend in the market were Chrysler at 33 off 1/2, Atchison at 47 1/2 unchanged, General Motors at 29 1/2 unchanged, New York Central at 21 off 1/2.

Continuation of— Let Germany. His address to the world from the Hamburg city hall tonight ends six days in which Nazis, great and small, have braved writer's cramp and strained voices telling Germany that Hitler fits the shoes of the late Paul von Hindenburg.

Continuation of— Adolf Hitler. but for the nation and pledged full responsibility for its stewardship "with my head and my life."

Continuation of— Adolf Hitler. "Reiterating that the revolution (the entire post-war republican movement in Germany) is over, Hitler visualized a state resting politically on the Nazi movement, militarily on the army, and not tied to one-sided capitalist interests."

Continuation of— Adolf Hitler. "Without anticipating your decision on a future constitution, I hope I may succeed in covering the title of Reich Chancellor with new honor."

FAMOUS NOVEL COMING IN FILM

"Treasure Island", adapted from the novel of the same name by Robert Louis Stevenson, comes to the Elsinore theater Sunday for a scheduled run of five days.

STATE WILL PAY 5 PERCENT FOR RELIEF MONEY

Proposed certificates of indebtedness to be issued by the state against future anticipated revenues of the liquor commission will carry an interest rate of 5 percent, it is learned today.

Continuation of— Highway Board. state-wide call for a fair distribution, bitterness and strife would be engendered, Portland would be accused of selfish designs and the highway commission would be charged with apishness disregard of duty, or worse.

Continuation of— Huey Long. Senator Long's statement on reports that the Klan, under Imperial Wizard Hiram Evans, was out to "get" him was as follows:

Continuation of— Huey Long. "You tell that tooth-puller... he is a lying... I know him personally. This isn't second-hand information."

Continuation of— Huey Long. "The volume of retail sales, said the review, was larger than a week earlier with gains ranging from 2 percent in some parts of the east to 20 to 30 percent respectively for the southwest and Pacific coast."

Continuation of— Huey Long. "The final launching of the billion-dollar home renovation drive is expected to bring an early upturn in employment."

BYRD PREPARED FOR DEATH LONG BEFORE RESCUE

Little America, Antarctica, Aug. 17 (AP)—Rear Admiral Richard E. Byrd prepared himself for a lonely death in the Antarctic, yet sent a appeal for aid, the outside world learned today—two months later.

A message from the advance weather base where Byrd spent nearly five months in isolation told how he resigned himself to death and left a note for a relief party which he feared would "arrive too late."

Dr. Thomas C. Poulter, head of the tractor expedition of three which fought its way to Byrd's side, reported by radio that the commander became so ill in June from fumes from his stove he thought the end was near.

"My observations here and remarks," said Dr. Poulter, "convince me that he has gone through things, particularly during the first three weeks of June and the past two weeks, that must have been beyond human ability to withstand."

"He was convinced he had reached the limit of his endurance. He was true to the polar code and played the game gallantly."

"As I think back I see things in his messages that were put there to keep us from realizing his condition, fearing that the trip in an attempt to reach him would risk the lives of others."

"Although he was up to meet us on our arrival, he should not have been. I see him showing marked improvement. It will be some time before he fully recovers his strength."

"A note was hung over his table dated June 15 referring to letters he had written to various people and where the letters could be found. Even thinking the tractor would arrive too late he had left on the table but which he put out of sight when we entered the shack."

"I marvel at how complete a knowledge of scientific data he has obtained and how painstaking he has been with it."

STUDENTS SEEK FINANCIAL AID AT WILLAMETTE

Field workers who have been out in the interest of Willamette university during the summer months in the northwest states, visiting prospective students, report a great deal of interest in the local school.

President Erickson stated today the government had liberalized the restrictions in connection with the money. Heretofore students who received aid were not allowed to work off of the campus.

Campus projects for students who are employed under the government aid program will probably include the cleaning up of the banks of the mill race and the leveling off of the northeast portion of the grounds.

With the present booklet as a basis, the Institute plans to prepare the same material for the information of the lay public and, with the acceptance of the American Medical Association, publish it soon.

In the meantime the Institute is busy informing the writers of biochemistry text books, books on dietetics and magazine and newspaper writers on the subject about the new deal for prunes, because the acid-base tests call for the reclassifying of prunes in both the professional works on these subjects and publications for the lay reader.

The commission statement came in Portland. A formal proposal of the highway commission's allocation already has been sent to Washington, D. C.

The allocation was made after the state had been divided into four sections. The 12 northwestern counties were in division No. 1, and got \$146,000 out of the \$3,100,000 total.

PRUNES GIVEN GREATER VALUE FOR NUTRITION

"The Nutritive Values of California Prunes" is the title of a brief but exhaustive summary of original and published research which establishes the California prune in a new light dietetically.

Probably the most important feature of the book is the announcement for the first time that prunes, which have heretofore been classed among the acid foods, in reality have no effect upon the alkaline reserve of the blood.

This is probably the most outstanding result of the research on prunes which has been going on for the past two years under the direction of the Dried Fruit Research Institute.

With the present booklet as a basis, the Institute plans to prepare the same material for the information of the lay public and, with the acceptance of the American Medical Association, publish it soon.

DEMAND FOR WOOL SLOW; PRICE FIRM

Boston, Aug. 17 (AP)—The Commercial Bulletin will say tomorrow: "The demand for wool continues very slow. Scattering small sales are reported at prices which indicate little change in prices."

"In the west, there also have been small, scattered sales, especially in Texas, at about the level of prices prevailing there a week ago."

"Mohair is quiet but steady." "The Bulletin will publish the following quotations: Secured basis: Oregon: Fine and F. M. Staple, 72-74; fine and F. M. Fr. combing, 70-72; fine and F. M. clothing, 62-65.

Domestic graded: First combing, 60-62; second combing, 50-55; third combing, 45-50; fourth combing, 40-45; second carding, 40-45; first kid, 75-78; second kid, 65-68; Cape winter firsts, nominal, 16-17; summer firsts, 18-19; cape summer kids, 40-42; turkey best, 18-19; turkey good, 17-18; turkey fair, 15-16; nominal (foreign prices in bond).

Stanton—Mrs. Matt Mueller has moved to Stanton, having rented her farm to Leo Boedigeimer.

Brooks—Rev. and Mrs. Pickering entertained a group of Brooks young people with a swimming party at Hazel Green recently.

Continuation of— Huey Long. "The volume of retail sales, said the review, was larger than a week earlier with gains ranging from 2 percent in some parts of the east to 20 to 30 percent respectively for the southwest and Pacific coast."
