

BUTTER MART REMAINS FIRM ALONG COAST

Portland, Sept. 21 (AP)—Trading in the butter market continues fairly steady although here and there is a note of weakness as a result of the recent erratic price trend here. Butterfat holds firm. Trading in the egg market is firm locally for fresh arrivals although there continues suggestions of weakness for storage stuff. Strength of the local cheese trade is noted with some of the smaller operators making a fractional advance from their previous low marks. Market for country killed hogs is a trifle easier along Front avenue with some slight carryover suggested toward the week-end. Veal and lamb are inclined to show strength. Beef and especially bull, too. While local supplies of lettuce are increased although still quite short and high priced, a carload of Salinas, Cal., is reported due here. Local lettuce growers have been able to command a good profit up to this time. There was another erratic swing of cantaloupe prices here during the last 24 hours with \$1.50-1.75 generally obtainable for large quantities although reports suggest an even higher price for a few. Astoria-Seaside peas are selling well up to 8 1/2c pound. Potato market is a very weak affair and price shading is suggested. Tomato market is active with prices being held well. Florida grapefruit is being purchased for carload arrival but a small package is due sooner by a northern organization. Cranberry market price has been boosted a dime per quarter barrel. Grape markets are about steady but a trifle slow for both table and wine sorts.

PRODUCE EXCHANGE

Portland, Sept. 21 (AP)—The following prices were named to be effective today: Butter—Cube extras 27c, standards 26 1/2c, prime firsts 26 1/2c, etc.

STRIKE PICKETERS ROUTED BY YOUTHS

Striking textile workers today were a bit shy of picketing the home of C. A. Page, superintendent of the Kay Woolen mills. At least, they were reluctant to picket after school hours. Yesterday, Raymond Page, fifth grader, and about 30 of his schoolmates came home from school and plastered the workers with bad papers. It was reported, the strikers had been parading in front of the Page home with a sign, "a scab lives here." Young Page carried a sign "Beware the Bolsheviks" hanging from a baseball bat. It was understood that previously Mrs. Page had turned the sprinkling hose on the strikers.

CAR LOADINGS INCREASE

Washington, Sept. 21 (AP)—The American Railway Association today announced carloadings of revenue freight for the week ended September 15, totaled 645,986 cars, an increase of 83,256 cars over the preceding week. It was 14,100 cars under the corresponding week in 1933.

STOCKS RESUME SLOW ADVANCE FOR FOURTH DAY

New York, Sept. 21 (AP)—Stocks continued their slow advance for the fourth successive session in today's market with industrial issues the leaders. Gains ranged to 5 points. Commodities were irregular. Silk futures soared on reports of damage to the crop as a result of the Japanese typhoon but dipped when damage reports were denied. Wall street was impressed by the formal statement issued by President Roosevelt asking textile strikers to return to work. Strike settlement would be considered favorable for business and the stock market. Spiegel, May, Stern spurred 5 1/2 points to 58 1/2, while Sears Roebuck and Montgomery Ward gained more than a point each. Other mercantile issues were up fractions to more than a point. Car loadings made a substantial gain over the previous week. Another favorable piece of railroad news was a speech by Federal Transportation Coordinator Joseph B. Eastman at Cleveland. He said the motor bus industry must come under federal regulation. Railroad shares were among most of the day. Their gains ranged up to more than a point. The street heard that recent selling in U. S. Steel preferred stock was from the estate of a former U. S. Steel executive and that it had been completed. The stock today firmed a point to 72 1/2 and the common gained more than a point to head a firm steel group. American Telephone reached 111 1/2 up 2 1/2 points. Case Air Reduction, Johns Manville, Minneapolis Honeywell, Eastman Kodak, and Du Pont, gained 2 points or more. Textile issues rose on the president's request that workers return to the mills. Sales today approximated 710,000 shares against 490,000 shares yesterday. Curb sales were 128,000 against 119,000 shares yesterday. Dow Jones preliminary closing averages: Industrial 91.10, up 1.75; railroad 35.40, up .69; utility 19.65 up .44.

WHEAT LAND IN UMATILLA ON PROGRAM

Portland, Sept. 21 (AP)—A five year program for the demonstration of modern soil tillage and control of erosion will be undertaken by the federal government on about 30,000 acres of the best wheat land in Umatilla county. The announcement was made here by W. A. Rockie, regional director, federal soil erosion service of the department of interior. The work will cost about \$150,000 and will be carried on in the vicinity of Adams and Athena. Rockie explained that while the Pacific northwest area still is a young grain country and yields abundant crops despite the tremendous losses from erosion, "The day is coming when it will be in the same plight as vast tracts of land in the middlewest and other grain producing sections unless the experience of the past is heeded and preventive measures are taken." "Out in this part of the United States," he said "there is still time for conservation measures."

TRAFFIC IN PINE SHOWS INCREASE

Portland, Sept. 21 (AP)—New business totaling 42,864,000 feet or about 1 percent below the three year weekly average for September and 4 percent above the week before, was reported today by the Western Pine association for the week ended September 15, based on the reports of 138 mills. Shipments were 46,131,000 feet and production 46,477,000 feet. The same mills for the corresponding week a year ago showed orders of 45,970,000 feet and production 53,938,000 feet.

WHEAT TRADE MORE HOPEFUL

Boston, Sept. 21 (AP)—The Commercial Bulletin will say tomorrow: "Business in wool has been well night the vanishing point, the past week. Prices have shown little change but the market, of course, has not been strong. With the possibility of an early ending of the textile strike, however, the trade is a bit more hopeful. The foreign markets have been fairly steady on the whole during the week, London being evidently about on parity with Australia."

WHEAT PRICES DRAG TODAY

Chicago, Sept. 21 (AP)—Renewed weakness of wheat quotations at Liverpool led to early downturns today in grain values here. Offers of new crop Argentine wheat to Europe much ahead of the usual time of the season was a bearish factor. Opening unchanged to 1/2 lower December new 1.03 1/2-04 1/2 Chicago wheat afterward sagged all around. Corn started 1/4-1/2 off, December new 77 1/2-78, and then held near the initial limits. Dominated by sharp downturns of the Liverpool wheat market, Chicago wheat prices tended to sag the greater part of the time today. A fall of 2 1/2 cents a bushel for wheat was witnessed in Liverpool, and there was constant mention that Argentine wheat was about on a basis for import into this country. Toward the last however, strength of the New York stock market served as something of a counterbalance. With closed easy, unchanged to 1/4 lower compared with yesterday's finish, December new 1.04-1.04 1/2; corn 1/4 off to 1/4 up, December new 78-78 1/2; oats unchanged to 1/4 up, and provisions varying from 10 cents decline to 5 cents advance.

FROZEN FOOD PRICES HELD UNREASONABLE

Portland, Sept. 21 (AP)—Describing as "unreasonable," the order of Max Gehlhar, director of the state department of agriculture, fixing the price of frozen food substitutes for ice cream at 40 cents a quart. Circuit Judge James W. Crawford today denied a motion by Attorney General L. H. Van Winkle to vacate the temporary injunction restraining state officials from enforcing the order. Judge Crawford, however, upheld the constitutionality of the state agricultural adjustment act under which the order was made. Several creameries and dairies joined some time ago in requesting a temporary injunction, which was granted. The frozen food was sold to the public at 29 cents. Gehlhar's order later fixed the price at 40 cents, the same as ice cream.

Card Party Success

Silverton—The card party sponsored by the men of the Holy Name society of St. Paul's Catholic church Sunday was a success. Many games, including pinochle, bridge, chess, checkers, cribbage and "500," were

Club Rooms Opened

FALL BUSINESS SHOWS UP WELL

New York, Sept. 21 (AP)—The fall season already has succeeded, said the Dun & Bradstreet weekly trade review today, in making a more favorable trade showing than appeared likely from early estimates, despite poor weather and a nationwide strike. "In many of the agricultural districts," is said, "farmers have started to spend on a broad scale, giving a decided spurt to business, as copious rains have revived courage." Reports on retail trade revealed an estimated gain over 1933 of 3 to 10 percent. Sales in New England were retarded by the textile strike. The upswing of trade on the Pacific coast was modified by the textile strike.
