

# Marian Gordon

by JEANNE HOWMAN

**SYNOPSIS:** Marian's husband, Lon, can't believe Marian when she tells him that his employer, McSwain, is a crook, nor will Lon believe his wife when she says she had proof of her assertion, and through Lon's stupidity, McSwain was able to steal it. In addition, although McSwain's daughter, the grass widow Oliver Hudson, is obviously in league with her father, Lon refuses to see that Marian is starting to get a detective's help when she sees a man lurking nearby.

**Chapter 31**  
**HELP SECURED**  
Marian's first impulse was flight, anything to place distance between herself and the man who had trespassed on their property and hidden when he realized he was being observed.

She measured the distance between the house and her hill top. For the first time it seemed miles away. In reality it was only a few yards. There was a revolver at the house.

Marian was not confused by her present trouble. After the first fright her mind worked with clear precision. That person behind the house was a Kanaka boy, dressed in the flannel shirt and trousers that she had seen in the newspaper. McSwain had Kanaka boys working for him... that was it.

He had seen her leaving the house, probably thought she was taking some short cut over the hill, and had started to follow. It meant that she was in any immediate danger, it meant she was being followed.

She must go on some place now; do something to throw him off the track. She would walk into town, that would lead McSwain to believe

## SUNDOWN STORIES

**THE CONCERT**  
By Mary Graham Bonner  
Jelly and Honey Bear and the cubs, Blacky and Jupiter, were all ready to go to their cave for a good winter's sleep. They had been eating and eating getting fatter and fatter, so that they would not feel the need of food for a long time.

The Puddle Muddlers were going to have a concert and then lead them to their cave in grand style. Willy Nilly had bought a little violin in the big box in his house that he had found in the attic. He was going to act as the drum major.

Christopher Columbus Crow, living up to his name, had discovered a little comb in his wanderings and he had put a piece of tissue paper around it so he could play a tune. "We're ready, aren't we?" asked Top Notch.

"Have we decided what time we are going to play," asked Willy Nilly. "Does it matter?" asked Top Notch, who hadn't a very good ear for music.

"It wouldn't sound very pleasing if we each played something different," smiled Willy Nilly. "Let's play the tune of 'Good Night Ladies,'" he added. "As a matter of fact I wrote down some words we could use."

Willy Nilly repeated the words until they knew them, while the bears looked as though they would fall asleep before the concert got under way. But now the music began.

### PUFFY

It's starting to snow, and Puffy's chilled to the bone.

"The wind," Puffy says, "is beginning to moan."

Although I admit I'm an outstanding wizard, I must draw the line at preventing a blizzard.
